**“Society will develop a new kind of servitude which covers the surface of society with a network of complicated rules, through which the most original minds and the most energetic characters cannot penetrate. It does not tyrannise but it compresses, enervates, extinguishes, and stupefies a people, till each nation is reduced to nothing better than a flock of timid and industrious animals, of which the government is the shepherd.”**

**It's that time of year again... Ramadan has begun once more. Hundreds of millions of Muslims will peacefully keep the holiday and thousands won't. This year might be more exciting than usual. The Iranians are miffed that sanctions and trade restrictions are returning and might unleash some terrorism. Hamas also seems to have got off to a premature start, but only managed to get 50 of their identified members shot instead in their protests over embassies in Israel moving to Jerusalem. Which identity group occupies the pinnacle of the human rights hierarchy? Is it Islam or the LGBTQ community? Thanks to the Peel District School Board, we now have a definitive answer. Stephen Harper is not the bogeyman for Canadians; three years after the 2015 elections, conservative Canadians are realizing this. The real bogeymen are Islamic State jihadists on the loose who are welcomed in by Trudeau, Islamic supremacists threatening the freedom of speech through the "anti-Islamophobia" motion M-103, and skyrocketing debt due to Justin Trudeau being a spending fool. Throw in Trudeau's immigration policies as well.

A self-proclaimed executioner for ISIS, reportedly living in Toronto has federal Conservative MPs worried. "One shot. Clean to the head. A Muslim who stabbed two members of Canada's military at a recruitment centre in Toronto has been acquitted of terrorism charges. The judge got it wrong. Dead wrong. # **FREEDOM OF SPEECH**

## **Against Hate Speech Laws**

Hate speech is the thorniest of issues for defenders of free speech. Attitudes towards hate speech are what divide a European approach to free speech from a US, First Amendment-based approach. In Europe in recent decades the net on what speech is permitted has been drawn ever tighter as governments seek to rein in speech they say harms individuals based on a variety of their characteristics: from race and religion, to sexual orientation. In the US, backed by a First Amendment that places far more protection on speech, courts have traditionally firmly resisted temptations to place limitations on speech, even when it is deemed hateful.

## **Ensuring Internet Free Speech**

Conservatives are being attacked by Google, Facebook, and Twitter (GFT). Those monopoly platforms are using their power to squash speech that the rich coastal liberals who work at and run those companies don't like. To end that odious practice, all the government has to do is pass a law saying that GFT can regulate only criminal speech. A pro-life voice couldn't be censored unless it was advocating killing abortionists.

Conservatives couldn't be censored, but Antifa could, because Antifa advocates illegal acts. The Democrat-founded KKK could post hateful nonsense about black inferiority, but if it advocated violence, it could be censored.

## **Speakers' Corner over the years**

In the last year, Islam has begun to dominate Speakers' Corner. I would estimate that the speakers and attendees there are about 80% Muslim, 10% Christian, with the remaining 10% spread across a variety of other denominations and political activists. I myself have had loads of physical violence heaped upon me. I've been chased out of the park. I've been smacked in the face by an Algerian. I've witnessed people being pushed off of ladders and punched and kicked, all because their opinion differed from the teachings of Islam.

## Twitter Suspends me Again

The leftists at Twitter give leftists and Muslims a pass when they post hateful content and death threats, while they punish those on the right for things that would be considered at most minor infractions. They're engaged in fraud, and their claim that they're "politically neutral" is as naked a lie as "Islam means peace." If you don't know, I'm a recovered Muslim, and the winner of the Mohammad Cartoon Contest. Jihadists came to kill those of us at the event and died for it. I mention this to show that I'm committed to this fight of telling the truth about the enemy and his ideology, despite death threats.

An imam of Vienna's As-Sunnah mosque has called to establish an Islamic State and wants to introduce Sharia Law on Austrian territory. The messages are focused on "infidels" as well. Islamic supremacists have become more emboldened as a result of Western kowtowing to Muslim groups, but they will encounter opposition in Austria. Prime Minister Sebastian Kurz "threatened to shut down one of the biggest mosques in Vienna and urged municipal authorities to be stricter regarding state subsidies for the organizations belonging to Muslim minorities."

An Islamic State terrorist who arrived in France as a refugee from war-torn Chechnya launched a nine-minute lethal knife rampage in Paris before being gunned down, it emerged today. ## **Is France Really an Ally of the United States?**

Macron's most important project has been the creation of new Islamic institutions, apparently to adapt France to Islam -- not to adapt Islam to France. Many more mosques will be built, financed with taxpayer money;

departments of Islamic culture will open in universities, and imam training centers created. The government appears to have lost all hope of restoring order; it limits itself to trying to avoid the worst, without even being sure it can. A climate of creeping submission holds sway. The corrosion that eats away at the country is never identified and, unhindered, continues its devastation.

Why is nothing expected of Palestinians, and everything forgiven, while everything is expected of Israelis, and nothing forgiven? The mystery of Middle East politics is why Palestinians have so long been exempted from these ordinary moral judgments. How do so many so-called progressives now find themselves in objective sympathy with the murderers, misogynists and homophobes of Hamas? Why don't they note that, by Hamas's own admission, some 50 of the 62 protesters killed on Monday were *members of Hamas*?

## **SWEDEN**

### **Sweden in Free Fall**

In 2017, a Swedish police report, showed that there are 61 “no-go zones” in Sweden. They encompass 200 criminal networks, consisting of an estimated 5,000 criminals. Twenty-three of those areas were especially critical: children as young as 10 had been involved in serious crimes there, including ones involving weapons and drugs. Most of the inhabitants were non-Western, mainly Muslim, immigrants.

### **UN paints welcoming Sweden as “racist inferno where immigrants face painful racism”**

Violent no-go zones have proliferated, and the police and the public alike are intimidated. Violent Muslim youth have turned a leading shopping mall into a no-go zone; rapes are rampant; and Swedish police have warned that “hand-grenade attacks (which were virtually unknown until a few years ago) are without parallel in countries not at war.” Sharia patrols are also terrorizing citizens. A girl’s jaw was broken by a migrant Muslim gang over accusations about an altercation with another Muslim girl. And yet, the UN claims that Sweden is facing extremely hard criticism for the “continuous crime reports of racism and discrimination that immigrants are exposed to in this country”.

### Radicalism: The Real Shock Was the Reaction of the Americans

Before one dismisses the danger America faces, take the time to learn about the past and just how easily and swiftly irreversible changes can happen: Russia in 1917, Germany 1933, Egypt in 1952, Iran in 1979, and so forth. Do not underestimate the ability of radical Islam to take over your government and impose Sharia law throughout this once free nation. Americans should not think that they will somehow be an exception to that historical rule. This sense of immunity and dismissal led to the downfall of many countries throughout time. If Americans do not take the issue seriously, history may teach them the hard way that what once seemed impossible is here.

## **To Know Muhammad Is to Know Islam**

To faithful Muslims, the Prophet Muhammad is a role model, and they must follow his Sunnah and learn how to implement its precepts and practices in their lives. So to understand the Prophet Muhammad is to understand Islam. The absence of Muhammad is fortunate for the Muslims because it enables them to spin many yarns about how virtuous he was. There are more stories about the kindness, his generosity, his forbearance, and whatnot than any dozen men could do in ten lifetimes. Muslims, heads in the sand, keep reciting to each other all these made-up tales.
