

“We are a great country, and shall become one of the greatest in the universe if we preserve it. We shall sink into insignificance and adversity if we suffer it to be broken.”

~ Sir John A. Macdonald ~

What does it mean to suffer one's country to be broken? It may mean giving aid and cover to its enemies. It may include looking the other way while those dedicated to its destruction gain a toehold in major national institutions. It may mean making excuses for those who hate the country by saying that they don't really mean their treasonous words, or are really victims of bigotry and misfortune, or are mentally ill. It may include thinking that all is well merely because our cultural elites and opinion-makers say it is.

Radical Islam is on the march throughout the world, and Canada is not immune to its threat. Jihad has come to our shores in a double-pronged movement: violent attacks to make us afraid, and "peaceful" integration to lull us into false complacency. Our weekly Newsletter collects the voices of those who are sounding the alarm, warning us that we cannot give over the protection of our country to anyone, not even those such as the RCMP who are

ostensibly committed to saving us: they have already been penetrated by the enemy in multiple ways.

Our request is that you read these Newsletters carefully and pledge yourself to the protection of our way of life.

The best explanation of SNC-Lavalin scandal yet

Justin Trudeau has fallen from grace – and he has no one to blame but himself

Wilson-Raybould said last week that Trudeau and his aides subjected her to 'inappropriate pressure' in an attempt to persuade her to stop corruption charges being leveled against SNC-Lavalin, a global engineering firm headquartered in Trudeau's home city, Montreal. She dug in her heels and Trudeau lost. And that's when the PM made his fatal mistake. Instead of holding his smarting enemy in a clinch, he demoted her to the post of Minister of Veterans Affairs. He's still denying there was a row, which nobody is buying.

International media on Trudeau's SNC-Lavalin scandal: 'The fresher the face, the more obvious the blemishes'

Prime Minister Justin Trudeau came to office amid a flurry of adulation from the international press, with magazine profiles, goofy web videos and stories about his flashy socks. Now, as the SNC-Lavalin scandal seizes his government, the tone has noticeably shifted. A persistent theme of the coverage is that the international Trudeau brand is massively under threat. Here are the top headlines and opinions on the SNC-Lavalin affair from around the world.

C3RF Member Update – 08/03/19

This week's update discusses the SNC-Lavalin scandal and the threat posed to "rule of law" - the pillar upon which Canadian rights and freedoms rest. The analysis is deeper than most as it goes to motivating factors that include the development of enabling money pots and surreptitious legislation - all of which appear to have been put in place to satisfy global imperatives in the form of Agenda 2030 and "climate change". See what you think and pass along if you like.

On another note:

In closing out this section on current operations, it has taken some time but the courts are now ready to proceed with a "free speech" case that is of great interest to C3RF. Recall that in November 2017, our friends at ACT! For Canada organized the world premiere of the documentary "Killing Europe". Twenty-six hours before the event was to take place, the Ottawa Public Library cancelled it. Valerie Price, National Director of ACT! For Canada and Madeline Weld, leader of the Ottawa chapter of ACT, applied for a judicial review of the Library's decision to cancel the showing. They are being represented by the Judicial Centre for Constitutional Freedoms (JCCF). A cross examination that is not open to the public takes place next Wednesday, March 13th in Ottawa. A hearing date will be scheduled later in the year and C3RF will apprise you of time and place when it is announced.

Valerie and Madeline are both founding members of Citizens for Charter Rights and Freedoms (C3RF) and we will continue to update you on the proceedings as the case unfolds. C3RF sees this case as central to the preservation, or diminishment, of your Charter Right to free expression – including the right to have access to expressive materials. In the meantime, rest assured that C3RF will continue to connect the dots in the ongoing SNC-Lavalin scandal while advocating for your Charter Rights and Freedoms – including equality before the law for all.

THE PERSECUTION OF TOMMY ROBINSON

“THE LAST LION”

For those of us who have followed Tommy Robinson's story over the years, the news that he is to be re-tried later this month for breaking a publication ban was a horrifying blow, but not a surprising one.

British authorities have persecuted Tommy for years, trying to break his spirit, to terrify him into silence, and even perhaps to make him more vulnerable to the death threats that have become a regular part of his life. He has been prosecuted and imprisoned on a series of relatively inconsequential infractions while Muslim child-rapists were allowed to walk free for years.

The British government and ruling class are terrified of the rage of hundreds of thousands of radical Muslims who do not respect British traditions, culture, or law. They despise Robinson because he has spoken out repeatedly against the special accommodations and cover-ups offered to criminal Muslim gangs so that ordinary Britons would not know what was going on. Rather than stand up against the Islamization of British towns - and the sharia compliance, violence, no-go zones, and hatred against 'infidels' that go along with it - they have attempted to silence Robinson. Some of us fear that they would even be happy if Robinson were killed by Antifa or Islamists.

Tommy has already suffered unbearably for his supposed "crime" (a not very serious one, if it is a crime at all) of filming outside a courthouse. For that, he was imprisoned for over 2 months, during which time he was threatened and abused constantly. Now the entire farce must be repeated, with the possibility that he will receive a two-year sentence.

Unlike those whose abuses he has exposed, Tommy is a good man, a loving father and husband, and a patriot who has sought to save working-class girls from sexual violence. He has never advocated violence or racial supremacy. But he is treated as a pariah by the globalist elites for whom his truth-telling and love of country are inconvenient and embarrassing.

Please support Tommy by following his story closely, spreading the word about this injustice, and donating anything you can afford to his legal defense. Go here:

First, They Came for Tommy

Tommy is the voice of all of those who are standing up against, or who are struggling to work up the nerve to stand up against, this surrender – all those who don't want their children and grandchildren to live as dhimmis, in a caliphate, under sharia law. It seems to me that for a great many of those who can't bring themselves to stand shoulder to shoulder with Tommy, the problem is not cowardice, exactly, but something having to do with manners and image, with deeply inculcated ideas about propriety and

good form and knowing one's place. One can only wish that those who have not yet decided to capitulate to the Religion of Peace should stop worrying so much about keeping a stiff upper lip and instead grow a spine, find their voices, and have this guy's back. Now. For soon it'll be too late.

Tommy Robinson: Continued harassment and intimidation of my family by media working with far left

Language warning: in order to explain the total depravity of the people sent to harass and terrify my kids, I quote some very foul racist language used in tweets by someone else. Facebook's Tommy Robinson takedown

So now not only has Facebook banned Tommy Robinson, but the website has also implied that those who praise and support Robinson are also banned, all without a shred of evidence. Not one screenshot, not one quote even, and all of the documentation that *was* a part of Robinson's five years of posting, all of the evidence that proves that the Luton native does not espouse violence against Muslims or use dehumanizing language to describe Muslims, has also been erased. It is Facebook's word against his, and his followers are also implicated in the slander by association.

Amazon Bans Tommy Robinson’s Book, ‘Mohammed’s Koran’

Some will applaud this as the ultimate and laudable demise of “Islamophobia,” but it is actually far more insidious. If the motivating ideology of jihad terrorists cannot be criticized or even discussed openly, jihad terrorists will have an absolutely free hand. They will act with impunity, secure in the knowledge that any criticism of their activities will be shut down the same way Tommy Robinson was shut down.

Whatever anyone thinks of Tommy Robinson or the Qur’an, this is a serious matter that anyone who cares about the freedom of speech should be extremely concerned about.

Now They’re Coming for Tommy

In a shocking twist today, the Government have decided to recharge Tommy Robinson for the same incident. His two charges are breaching a reporting restriction and causing anxiety to the Muslim man that is now convicted of child rape. This comes a week after Facebook removed Mr. Robinson from their platform in a hope that his movement is quashed.

Disgrace: After Tommy Robinson Exposed BBC Corruption, UK to 'Recharge' Him for Last Year's Non-Incident

The Tommy Robinson saga is a long one, but the latest chapter began on February 23, when he pulled back the curtain - or shall we say turned the tables? - on the BBC with a breathtaking documentary, *Panodrama*, in which vile *Panorama* presenter John Sweeney, who had planned a

definitive, but fake, “exposé” of Tommy, was exposed not only as a preposterously dishonest excuse for a journalist but as an all-around unsavory human being. Tommy’s hidden-camera video of Sweeney, which I wrote about [here](#) on February 26, should have resulted in Sweeney’s immediate termination and initiated a thorough parliamentary investigation of the BBC. Instead, it’s resulted in several major actions *against Tommy* by corporate and government players around the world.

FREEDOM OF SPEECH

Trump Promises Executive Order Denying Funds to Anti-Free Speech Universities

President Trump vowed to issue an executive order protecting free speech at America’s universities Saturday. “We reject oppressive speech codes, censorship, political correctness and every other attempt by the hard left to stop people from challenging ridiculous and dangerous ideas. These ideas are dangerous,” Trump said. “Today I’m proud to announce that I will be very soon signing an executive order requiring colleges and universities to support free speech if they want federal research grants.”

How Social Justice Ideologues Hijacked a Legal Regulator

I would not be the person I am without freedom of thought and expression. I will not be told what to say or what to value—especially by the regulator of what is supposed to be a body of independent lawyers. Compelling speech is unconscionable regardless of the principles a person is made to parrot. Today, we are being told to promote “equality, diversity and inclusion.” But once this line has been crossed, the content doesn’t matter. And tomorrow, we might be asked to pledge allegiance to some other ideological doctrine.

MUSLIM WOMEN'S DAY

How Best to Celebrate Muslim Women's Day?

I don't know exactly what we're supposed to do for Muslim Women's Day, but my guess is that we give them what Mohammed did. This means their testimony is worth only half a man's; that we may beat them if they speak out too loudly; that their husbands get off lightly for cheating; that the women get far worse for it; that we force all the ladies into hijabs; and that if any woman is happily married, we allow three other women to share her husband with her. Is this for or against them?

ISLAMOPHOBIA

Codifying Islamophobia

An Islamic "expert" states that Islamophobia is racist, it is bigoted, it causes Muslims harm, suffering, or hurt feelings. Warner makes the same point as I've made elsewhere; that Islamophobia has no metaphysical power to physically harm anyone. It has the potency of the term "jerk" or "doofus." Muslims in the UK, however, are demanding full legal protection

from "Islamophobia," and the definition of "Islamophobia" has finally been articulated:

"Islamophobia is rooted in racism and is a type of racism that targets expressions of Muslimness or perceived Muslimness."

<https://edwardcline.blogspot.com/2019/03/codifying-islamophobia.html>

Virtue Signaling at its Sickest

If something happens – however trivial – that can be presented as an example of infidel-on-Muslim transgression, all rules are off. Or, rather, all the rules are turned entirely upside down. To prove they're not Islamophobes, millions of Brits gang up on a helpless teen. Bailey McLaren, a 16-year-old working-class boy from Yorkshire jumped on Jamal, a 15-year-old Syrian-born classmate, in the schoolyard. Although nobody was seriously harmed in the fracas, the British media rushed to report at length on it. Because Bailey held Jamal down while pouring a bottle of water on his face, he was described as having committed an act of "waterboarding." Because Jamal was Syrian, Bailey's action was characterized as "racist."

James O'Keefe of Project Veritas on the Power of Media, and the Public's Right to Know at Any Cost—

Journalism today is just all about opinion. It's all making moral judgments about the news, and we're not really getting any actual raw information. And in fact, arguably, journalists think that you shouldn't have the raw information, that the raw is dangerous that it creates herd instincts, it could create prejudice. But what happens is social-media companies are starting to censor raw information, that the wrong information would lead to the wrong public-policy solution.

Amazon Now Banning Books Based on Political Content

As recently as 2010, Amazon had an unambiguous free-speech policy: "Amazon believes it is censorship not to sell certain books simply because we or others believe their message is objectionable." Now, Amazon is deciding which political views are acceptable and which are not.

It continues to sell the bomb-making manual known as *The Anarchist's Cookbook*, the Unabomber's Manifesto, and justifications of terrorism by Al-Qaida, Osama Bin Laden, and Hezbollah. It also sells black nationalist manifestos by Elijah Muhammad, Marcus Garvey, and Louis Farrakhan.

GERMANY

New Law Banning Child Marriage Declared Unconstitutional

German courts are increasingly deferring to Islamic law because either the plaintiffs or the defendants are Muslim. Critics say the cases — especially those in which German law has taken a back seat to Sharia law — reflect a dangerous encroachment of Islamic law into the German legal system. In November 2016, for instance, a court in Wuppertal ruled that seven Islamists who formed a vigilante patrol to enforce Sharia law on city streets did not break German law and were simply exercising their right to free speech.

They believe that a black man, woman or child's place in life is to serve an Arab master, and it does not matter to them whether that black is a Christian, or fellow Muslim."

SOUTH AFRICA

The Sky Over South Africa is Dark with Gathering Vultures

White farmers in South Africa go back to the 1600s when their white ancestors drained the swamps, leveled the jungle, dispensed with malaria and other diseases, and build roads, railroads, homes, hospitals, airports, schools, and modern infrastructure whereby South Africa became a great nation—until greedy Blacks (with some greedy Whites) stole everything that wasn't nailed down. The conditions are ripe for revolution as millions of Blacks and Whites are hungry, out of work, and living in shanties as they watch ANC leaders living behind gates in plush mansions, driving around in expensive Mercedes from which they dispense fistfuls of money out of their trunk to the low-level thugs.

The free man seeks his own good first, but he does so that he may seek it for others as well. Indeed, the free man is selfless enough to lay down his life for it. As with love, freedom is not selfish, nor boastful, nor arrogant. It seeks not to rule others, nor to take away anyone else's freedom, but rather to serve freedom's cause for everyone who will have it. Pity those who do not value freedom above all else, for to them, all else will soon be lost.
