CANADA

The Wrath of CAHN

Canada is among the world's most tolerant and peaceable countries. The Canadian Anti-Hate Network wants you to believe otherwise, however, working tirelessly to convince Canadians their country is a seething hotbed of (mostly white, right-wing) hate groups. John Klein lays bare the hypocrisy, intolerance and damage done to individuals and free speech rights when a small group of political activists model themselves on a much larger American group and appoint themselves as our country's figurative judge, jury and executioner.

Trudeau's convicted criminal in cabinet wants to regulate your news and Netflix

Keenan Bexte of Rebel News reports: The Liberal Minister of Heritage has been in the spotlight recently. His repeated, blundering appearances in the media have drawn international ridicule, as he has tried to explain away his Soviet-style plot to censor the media and news that you consume.

What's the Point of a UN Security Council Seat with Anthony Furey

Justin Trudeau has made it his mission for Canada to win a temporary seat on the UN security council. Is it worth the time? Is it worth the money? True North's Anthony Furey says it's only worthwhile if Canada actually stands up for liberal democratic values.

Trudeau-Appointed Ambassador To China Has Multiple Investments Tied Into Interests Of China's State-Owned Corporations

"Dominic Barton's extensive, mainly foreign financial interests conflict with Canada's best interests, and his so-called blind trust and ethics screen are so full of loopholes they do nothing to prevent him from profiting from his decisions and actions as Canada's ambassador to China," said Duff Conacher, Co-founder of Democracy Watch. "The federal government should replace him with an experienced foreign service officer who has no financial conflicts of interest."

C3RF Update – 7 February 2020

C3RF Update reports on Senate Chamber feedback to your Bill S-202 (Conversion Therapy) letter-writing campaign. It appears that you caught the Senators off guard with some asking for "solid science" that justifies claims that false assumptions may be informing their legislation. The fact that they lack such knowledge is understandable given the loud voices and biased reportage that control the narrative and shut out such politically incorrect information. A fact that the update goes on to demonstrate through the Canadian main stream media's own programing.

FREE SPEECH

France Quietly Reintroducing the Crime of Blasphemy

France is rapidly going from *laïcité* (secularism) to *lâcheté* (cowardice); from freedom of expression to unconditional surrender. France keeps trying to procrastinate while Islamism thrives on the elites' rapidly abandoning their Judeo-Christian values. Today, in France, the country that always sanctified freedom of expression and the right to criticize religion and ideologies, some within the justice system are quietly and *de facto* reintroducing the crime of blasphemy.

Katie Hopkins is vile but she should not be banned

One of the many great things about freedom of speech is that it allows us to see what people really think. And that is empowering. It means that the rest of us – the potential audience to an individual's speech – can use our intelligence and our principle to counter that speech, to criticise it, to ridicule it, to prove it wrong. Freedom of speech doesn't only empower the speaker. It also empowers the audience. It allows us to exercise our moral judgement.

ANTIFA

How and Where Antifa Organize and How They Are Funded

Antifa is not like a corporation with head offices, board of directors, shareholders and retail outlets. They are a domestic terrorist organization that wants to force YOU into believing in a communist state, where YOUR rights would be non-existent, and THEIR rights, wants, desires and actions would be rule of "law". Antifa is not a single based, single focused organization. Rather, they employ various methods, means and messages to terrorize the public. They have different "branches" and different leaders who specialize in these areas, to create a network of terror. I will expand on the leaders in another article because it is vast and nationwide, focusing in different areas.

HUNGARY

Orban says no Muslim migrants in Hungary and liberalism is over, joins US religious freedom alliance

Mass Muslim migration, political correctness, the stifling of free speech, multiculturalism (declaring all cultures equal), anti-Christian and anti-Israel/Jewish sentiment, and tolerance for Islamization have now become the hallmarks of contemporary "liberalism." (Classic liberalism, however,

represented the opposite of all that.) Accordingly, the so-called “populist” Viktor Orban has declared liberalism to be over.

Muslim dad: I’d rather go to jail than allow my son to attend LGBT school lessons

A Muslim father in the United Kingdom says he is prepared to go to jail rather than be forced to keep his son in a controversial pro-LGBT sex education program. Jabar Hussain, 51, is the first parent to face prosecution after keeping his son, Amin, out of school for months rather than allowing him to attend lessons that promoting homosexual and transgender ideology through the “No Outsiders” program.

UNITED STATES

Well done, Democrats

Voters know that Congress has overstepped the mark. Because they know that presidents have been involved in far worse, and not been subject to impeachment. They remember that Ronald Reagan was complicit in the Iran-Contra weapons-selling scandal, and that George W Bush waged a war in Iraq without good cause. This is why it is increasingly clear to them that the impeachment of Trump is motivated by far more than the rights and wrongs of his dealings with the Ukrainian president. It is, rather, a politically motivated attempt to depose Trump. This attempt to decide the president’s future in the Senate, rather than at the ballot box, is likely to have pushed Trump even closer to winning a second term.

Mitt Romney: From Mormon to Moron in One Easy

In an emotional speech on the Senate floor Wednesday, Romney said his "faith led him to his decision." Bollocks, as the Brits would say. It was jealousy, spite and anger that "led him to his decision", not "faith" or "conscience", of which he usually displays so very little. Romney went from Mormon to Moron in one easy vote, and shouldn't be let away with it.

Nancy Pelosi shamed herself at Trump's State of the Union address

Your mumbling and sneering smiles throughout President's Trump's powerful address were bad enough, but your decision to tear into shreds your copy of his speech and drop it like a dead fish was shameful beyond measure. In one sense, Pelosi's distress is understandable. Trump's address was long because he had a long list of big accomplishments to cite, and every Republican standing ovation had to drive her closer to the edge. She often seemed to be talking to herself, and finally snapped.

The Hate America Project

"The 1619 Project is a major initiative from the *New York Times* observing the 400th anniversary of the beginning of American slavery. It aims to reframe the country's history, understanding 1619 as our true founding, and placing the consequences of slavery and the contributions of black Americans at the very center of the story we tell ourselves about who we are." In other words, in its very conception, the 1619 Project is an historically illiterate lie, whose self-evident purpose is to erase the actual foundation of the nation born in 1776 and memorialized by Lincoln as a "new nation conceived in liberty and dedicated to the proposition that all men are created equal."

Center for Security Policy Press releases primer on Islamic doctrine versus the US Constitution

Dr. Stephen Kirby focuses on six key Amendments to the Constitution as enshrined in the Bill of Rights. In choosing these six, he both educates and horrifies any who may not have been aware of the sheer physical brutality of shariah, even aside from its explicit and tyrannical antipathy to individual liberty, free speech, and concepts such as equality of all before the rule of man-made law and government by consent of the governed.

Some Islamists cannot be saved

We need to accept that some people have irreconcilable differences with our way of life. We also need to understand that some of these people will do whatever they can to terrorise us, and that they cannot be saved, cured or deradicalised. We need to be at least as resolute in defending our way of life as they are in their attempts to destroy it. These people need to be deactivated, not deradicalised.

Muslims Celebrate! Harvard Declares Koran 'Best Book on Justice'

The official website of the World Muslim Communities Council said on social media that, after lengthy, scientific studies that closely examined the rules of justice contained in the Noble Koran, the American university of Harvard has ranked the Noble Koran as the best book on justice.... In its final evaluation, Harvard University's Classification Committee cited verses

from the Noble Koran which confirm that the Noble Koran is a book replete with the rules of human justice ... and that Islam has no room for injustice but rather includes tolerance and respect for the other.
