FireTam.com: Canada's chief public health officer must resign or be fired | Ezra Levant

Did you know that this whole time, Dr. Theresa Tam — Canada's public health officer — has been working for the Chinese-controlled World Health Organization? Not just as a low-level doctor or bureaucrat. She's actually one of only seven people on the WHO's oversight committee for health emergencies. So, the WHO's well-documented political corruption happened on her watch — when it was literally her job to stop it. She either approved of China's meddling or was wilfully blind to it.

She must resign or be fired. SIGN the petition:

The Populists Next Door No One's Talking About

The new, trailblazing party – the Coalition for Quebec’s or CAQ - governing the French-Canadian province of Quebec deserves more attention than they’ve received this side of the border. In its first year as the province’s governing party, it’s unrepentantly asserted French-Canadian cultural hegemony in Quebec and has barreled over critics in the broader Anglo-Canadian media. This has made them wildly popular in *la belle* province and should make them a big source of inspiration for President Trump and his supporters this election year

C3RF Update – 17 April 2020

This week's update mulls over the inability of Canadian government and its bureaucratic agencies to plan and execute a way out of the Wuhan virus crisis. Rather than this, it persists in pursuing WHO-mandated policies that have put the nation's economy, and the civil liberties of its citizens, into a death spiral. Now is the time to home-in on the data and information available and critically analyse the options available to avoid the crash and burn scenario that is upon us. Unless, of course, negligence and/ or malintent, are the rulers of the day.

In a previous Call to Action we touched on the threat of bank Bail-ins wherein the government has the power to take Canadian's savings based on legislation adopted in April 2018. Canadians were given a false security that bank bail-ins would not affect them. The government is intentionally misleading Canadians and we feel it is vital that we address not only this issue but also the devastating consequences of dealing with the foreign

central "banksters". Please send the pre-written letter (or your own) to the PM and your MP. Instructions within.

COVID-19 UPDATE

Globalists using COVID-19 to usher in UN Agenda 2030 'Brave New World' ten years ahead of schedule

The way we "do life" may never return to normal if President Trump doesn't intervene and take back the reins from these two doctors aligned with the vision of the United Nations, Bill Gates and a host of creepy NGOs like the Rockefeller Foundation and the World Economic Forum. We've already reported on the WEF's Event 201 conference in October last year, where the CDC, WHO, CIA, Johns Hopkins University, NBC and other sponsors convened to map out their global response to a coronavirus pandemic – two months before anyone had heard about a coronavirus outbreak. It's time to let these globalists know its game over. Their cover's been blown.

Mr. President, Stop Listening to the D.C. Swamp Politicians, Deep-State Bureaucrats and Ivy League Eggheads

As anyone with common sense can see, the doctors and bureaucrats are giving you bad advice. The sad truth is they don't care whether their advice destroys this economy, this country and the great American middle class.

Most are big-government-loving liberal Democrats who don't understand the U.S. economy or appreciate the brave business owners of America.

The Ivy League geniuses you're taking advice from have destroyed the greatest economy in world history, in a month. Their computer models are horribly wrong. The world will not end, and millions will not die, unless you continue listening to them.

AG Barr Opposes Bill Gates Proposal for COVID-19 Vaccine Certificates

Attorney General William Barr came out in opposition to a proposal floated by Bill Gates for people to eventually gain certificates for being vaccinated against the CCP virus. "I'm very concerned about the slippery slope in terms of continuing encroachments on personal liberty. I do think during the emergency, appropriate, reasonable steps are fine," Barr said on Wednesday night

Gates' Globalist Vaccine Agenda: A Win-Win for Pharma and Mandatory Vaccination

In 2010, when Gates committed \$10 billion to the WHO, he said "We must make this the decade of vaccines." A month later, Gates said in a TED Talk that new vaccines "could reduce population." And, four years later, in 2014, Kenya's Catholic Doctors Association accused the WHO of chemically sterilizing millions of unwilling Kenyan women with a "tetanus" vaccine campaign. Independent labs found a sterility formula in every vaccine tested. After denying the charges, WHO finally admitted it had been

developing the sterility vaccines for over a decade. Similar accusations came from Tanzania, Nicaragua, Mexico, and the Philippines.

Plans to Re-Open – U.S. Surgeon General Adams DUMPS GATES 'Predictive Contagion' Model

In a stunning turn of events, Surgeon General Jerome Adams explained in an interview on live XM radio, that the Coronavirus Task Force has, effectively, dumped the Bill Gates/CDC/WHO predictive contagion model, and is now working with the real data. This runs contrary to the out-and-out fear-mongering of Dr. Fauci and Bill Gates who have made a media tour, threatening the public that businesses may not re-open for six months to a year, or until and unless governments purchase their conveniently patented, big-pharma vaccination.

The Jig Is Up

Although public health officials rarely admit it, the vast majority of the cases of measles, mumps, chicken pox, whooping cough, and influenza in both past and recent outbreaks, typically from 75-95%, have been in vaccinated individuals ...Many studies have shown that children who come down with and recover from acute diseases with fever, like measles, mumps, rubella, chickenpox, and influenza, are significantly less likely to develop chronic autoimmune diseases and cancer later in life than those merely vaccinated against them.

Xi Jinping's China did this

For 40 days, President Xi Jinping's CPC concealed, destroyed, falsified, and fabricated information about the rampant spread of COVID-19 through its

state-sanctioned massive surveillance and suppression of data; its misrepresentation of information; its silencing and criminalizing of its dissent; and its disappearance of its whistleblowers. There is authoritative and compelling evidence — including a study from the University of Southampton — that if interventions in China had been conducted three weeks earlier, transmission of COVID-19 could have been reduced by 95 percent.

America's Pyrrhic Victory

COVID -19 is far less deadly than many other coronaviruses have been, including SARS, MERS and Ebola, with their death rates of 20-40%, or the Avian flu with a whopping 60% mortality rate, whereas COVID-19 clocks in at a modest 1% or well below, closer to .1%, depending on whose data you trust.

Here then, are the facts stripped of all narrative: In America today, our Constitution and our Constitutional rights have been suspended. Our entire economy has been shut down. Schools have been closed. Churches and synagogues have been closed. Small businesses, the lifeblood of America and of our middle class, are dying in plain sight—many shutting their doors for good as the shutdown drags on.

In the end, we'll see this pandemic wasn't Armageddon after all. It was merely, as Fauci himself admitted, a bad flu, as we do get from time to time. But one of the patients who lies dying is America. And I fear that nothing short of Divine intervention can bring her back.

U.S. Intelligence Estimates Millions of Chinese Deaths From Coronavirus

One way of deriving a more accurate number of deaths in China as opposed to the Chinese government's absurdly low propaganda number is to examine the number of cell phone account closings, which the Chinese government itself reported during the relevant time period. The Chinese

government announced on March 19th that over 21 million cell phone accounts in China were canceled in the past three months,

The U.S. intelligence report's explanation buttressing the estimate of millions of coronavirus-related Chinese deaths is far more plausible: "Cell phones are an indispensable part of life in China and it's only closed when the user is dead."

The CDC Confesses to Lying About COVID-19 Death Numbers

"How many people have actually died from COVID-19 is anyone's guess ... but based on how death certificates are being filled out, you can be certain the number is substantially lower than what we are being told. Based on inaccurate, incomplete data people are being terrorized by fearmongers into relinquishing cherished freedoms."

First, experts told us 2.2 million Americans would die. Then the number fell off a cliff, plunging down to around 200,000. As of April 8, the number of those expected to die from the disease by August 4 was down to 60,000, or roughly a very nasty flu season. The new figure comes from the influential model produced by the University of Washington that the White House regularly cites.

Coronavirus Lies, Dammed Lies and Statistics

As the world begins a second month of lockdown in response to the nightmare known as the coronavirus, it is essential to examine how this mess developed and how we return to some semblance of normalcy. Obviously, the communist Chinese had an interest in creating world havoc. At the time the virus began to spread, there were pollution protests in Wuhan and anti-government protests in Hong Kong. Not coincidentally, both of those protests have ended with the coronavirus lockdown.

End the Lockdown and Set The World Free, Mr. President!

Do it not just for Americans but for all people locked down by governments the world over, and do it now! There's a distinct rumble coming across the fruited plains growing louder by day. If President Donald Trump put his ear to the ground, he'd hear the message: "SET US FREE! People with families to support can't afford to be on government-imposed lockdowns. They have to be out there earning a living. They don't want untrusted government money. They want their own.

Liberalism, Like the Wuhan Virus, Will Never Die

The media are absolutely ghoulish in their hope for hydroxychloroquine to fail. The drug is approved for malaria patients, so it's "safe"; it's simply not approved specifically to treat the Chinese virus. The reason for the media's hostility to hydroxychloroquine is obvious: Trump expressed enthusiasm for the treatment, so liberals are required to take the opposite position. Perhaps we could use this liberal neurosis to our advantage. To re-open the country, we need Trump to come out against it.

George W. Bush Urged Us to Prepare for Future Pandemics in 2005

In September 2005 at the United Nations, a new International Partnership on Avian and Pandemic Influenza was announced -- a global network of surveillance and preparedness that will help to detect and respond quickly

to any outbreaks of disease. The partnership requires participating countries that face an outbreak to immediately share information and provide samples to the World Health Organization. Dr. Anthony Fauci was in the audience.

Rex Murphy with non-COVID news: Meghan (and Harry), you didn't even say goodbye!

Without a wave or a word of “goodbye,” or so much as a Post-it Note on the rented refrigerator — to the good people of Canada and our prime minister, who so generously acted as their hosts, and so obligingly welcomed them into the mild and friendly ethos of B.C. and Canada. “Meghan (I address her personally), you are an actress. Could you not have shed a practiced tear, glided a manicured index finger to histrionically moist eyes, to tell us how sad it was, to leave the place which gave you refuge? Did you even say a thank you to the housemaids? (I’ve watched Downton Abbey. It happens.)

The Jihad of Killing Crops with Bill Warner

Illegal Muslim immigrants are destroying Greece’s olive trees as a form of economic warfare. But the attacks also attack Greece’s heritage, since Greeks have been using and selling olives for 4000 years. But, why do Muslims do this. The simple answer is the same for all questions about Muslims—Allah commands it and Mohammed did it.

Video from UK: Cops threaten journalist for reporting mosque violating coronavirus restrictions

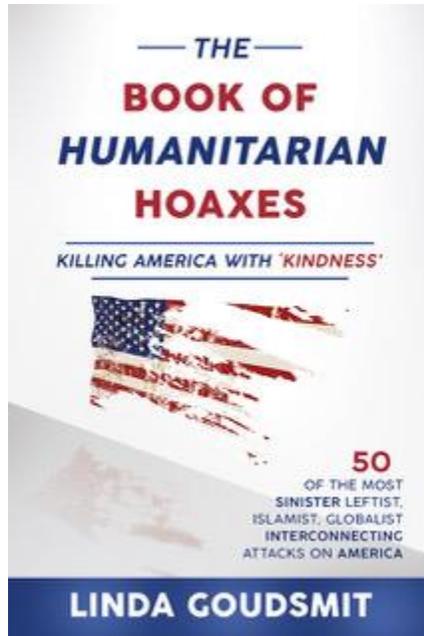

North Yorkshire Police turned up at the apartment of Tom Linden, host of UK Preppers Radio Network, after he issued a complaint to West Yorkshire Police about Muslims flouting the restriction rules by gathering in mosques for Friday prayers. The Book of Humanitarian Hoaxes: Killing America with 'Kindness' exposes fifty of the most sinister leftist, Islamist, globalist interconnecting attacks on America deceitfully disguised as altruism. REMEMBERING

The destruction of Notre Dame Cathedral was a metaphor for the destruction and erasure of our European heritage.

“People mourned for Notre Dame when it was in flames because they value tradition, they yearn for legacy, and they see the past, not as a series of shameful episodes best forgotten, but as the source of what we know and who we are and what we ourselves must now do for future generations. They felt grief-stricken because they want Notre Dame to stand for the rest of time. It will.”

~ **Brendan O'Neill** ~

Why we Wept for Notre Dame by Brendan O'Neill

The vast majority of people recognised that something of immeasurable human worth was under threat. What the widespread humanist concern for the fate of Notre Dame spoke to is people's continued attachment to the ideal of *legacy*, to what is in many ways the founding principle of human civilisation: that we transmit culture and knowledge and art from one generation to the next. We recognised that the flames were consuming more than wood and stone; they were consuming tradition, the past itself. And for all of today's cult of the new, most people recognise that our societies and our lives only make sense as a result of the gains of the past transmitted to us by our elders, which we then transmit to the next generation.

<https://www.spiked-online.com/2019/04/16/why-we-wept-for-notre-dame/>

"Nothing that is worth doing can be achieved in our lifetime; therefore we must be saved by hope. Nothing which is true or beautiful or good makes complete sense in any immediate context of history; therefore we must be saved by faith. Nothing we do, however virtuous, can be accomplished alone; therefore we must be saved by love."
