CANADA

Macdonald Falls by Mark Steyn

The Macdonald Monument, honoring Canada's first prime minister, stood in Place du Canada (that's Dominion Square for us old-school types) for 125 years - until this weekend. The mob has now torn Sir John A Macdonald from his handsome baldachin, and, as he hit the ground, they had the additional joy of beheading him.

POLICE STATE: Canadian journalist arrested on the street for breaking story on crooked mayor

It's not just Patrick Brown breaking his own rules. It's now the Peel Regional Police who are acting as Brown's personal enforcers. What an outrage. And complete silence from left-wing civil liberties groups, opposition politicians and — worst of all — the entire Media Party. Not a peep from the CBC, the Toronto Star, the Globe and Mail and certainly not the Canadian Association of Journalists. This is shocking.

Report of the IPG on the arrest of Rebel News Reporter David Menzies

The freedom of the press is a foundation of Canada's democratic society, and it must be protected at all costs. As outlined in the Canadian Charter of Rights and Freedoms, all Canadians are guaranteed the fundamental freedom of "thought, belief, opinion and expression, including freedom of the press and other media of communication."

If Trudeau's proposing Socialism, the people must be allowed to vote on it

Canadians elected a Liberal and what we got was a revolutionary socialist. At least in Venezuela, the people knew what they were voting for in Hugo Chavez. If Trudeau wants to take Canada down the dark and ruinous path of socialism, he must directly put it to Canadians for a vote.

Court of Appeal shuts down liberal bill for unlawful interference in justice system

Attorney General David Lametti was cited by the Federal Court of Appeal for meddling in legal proceedings for his own government's advantage. According to Blacklock's Reporter, the pandemic relief Bill C-17 was struck down by Justice Marc Noël for being "intolerable" and unlawful in its interference in Canada's justice system. Bill C-17 was introduced by the Liberals on June 10 as an omnibus bill and it included a law called "Time Limits and Other Periods Act".

Hezbollah's Dirty Money and Illicit Activities in Canada

Earlier this summer, Italian port authorities in the city of Salerno announced that they had discovered a hidden shipment of 84 million pills of Captagon, an illegal amphetamine drug worth 1.4 billion Canadian dollars, in one of the largest drug seizures ever.

While Italy has remained quiet about the likely culprit, given the size of the find, it didn't take long for Middle East analysts to identify a main player in the drug trade: Hezbollah. Hezbollah is still very much active in the country.

C3RF Update – 11 September 2020

This week's update ponders the question, "should Canadians be fearful for free speech?" The question is a valid one as author and science professional, Patrice Nishikawa, notes that despotic regimes have a nasty habit of dealing harshly with those who criticize their policies and ideologies. The trend is clear in Canada as even the objective knowledge gleaned from the hard sciences is being set aside to be replaced by re-imagined pseudo-realities like the "resilient economy". How far can we be from Pol Pot's Cambodia or Mao's cultural revolution if we maintain this tack? Would it be better to "re-imagine" our political leadership and act to make it so. Read on and join the related writing challenge.

TOP ELECTION STORIES

Desperately Derailing Donald by Victor Davis Hanson

The effort to stop President Trump is growing comical. In terms of bombshells, what does the Left do after the 2016 suit to decertify voting machines, the FISA court abuse, the effort to sabotage electors' votes, the first impeachment drive, the Logan Act gambits, the Emoluments Clause joke, the 25th Amendment ruse, the Russian collusion hoax, the 22-month-asleep-at-the-wheel Mueller and his "all-stars," *Ukraine! Ukraine!*, the second impeachment drive, and the 2020 trifecta of Trump as Typhoid Mary, Bull Connor, and Herbert Hoover? The point is, in Jussie Smollett fashion, the demand for scandals is outrunning the supply and time grows short.

How to Steal an Election

The political power generated from a document like the "Transition Integrity Project" report introduces the threat of terror and street violence as a "normal" or "expected" outcome of the upcoming presidential election. Here is what you will see, hear and read in the next few weeks: "Yes, expect violence in the aftermath of the election, because now that is the new 'normal.' Trump made us do it...." Who is paying the bills for TIP and its affiliates?

BLM/ANTIFA

Color Revolutions are Not About Color

The organization Black Lives Matter (BLM) is not about black lives. BLM is a Marxist organization disguised as a civil rights organization. Instead of improving race relations, BLM exploits racial tensions to collapse America from within and replace our constitutional republic with socialism/communism. BLM is the ultimate humanitarian hoax being perpetrated on unsuspecting Americans who still believe that BLM cares about black lives. They don't.

The problem with socialism, communism, Islamism, and globalism, is that NO LIVES MATTER except the lives of the ruling elite! Citizens' individual rights and freedoms are forfeited to the state. The individual is not valued in collectivism, only the state and what the state deceitfully labels "the greater good" matters.

Antifa's violent, organized tactics are getting exposed

It turns out they're not just creepy stalkers and "security," some are actual killers. The latest news from Portland is that Antifa's denizens stalked and shadowed young Aaron Danielson, who was murdered in cold blood by "100% Antifa" Michael Reinoehl, who was later rubbed out by the Portland cops as he resisted arrest upon apprehension. Now they've gone big. And if this kind of *modus operandi* -- killings, illegal censorship, violence, as well as Chavista historic background isn't reason enough to declare war on them and shut them down, what is?

https://www.americanthinker.com/blog/2020/09/antifas_violent_organized_tactics_are_getting_exposed.html

Emperor's New Clothes, Anyone?

And so it follows that these leftists—in their demonstrated respect for life—would teach their own children and grandchildren that if they don't like someone's opinion or style or philosophy, it's perfectly acceptable to:

- Light that person's car on fire,
- Punch that woman in the face and knock out her teeth and then throw her to the ground,
- Smash the windows of this guy's homegrown business and steal all his goods,
- Blind that offender with a laser beam, or...
- Shoot him or her dead.

Indeed, this is what leftists are teaching their children and grandchildren by their unmistakable approval, indeed embrace, of the violence by BLM and Antifa over the past several months—a crime for which all of them should be indicted!

Black Lives Matter Led to Record Number of Mass Shootings

Beyond the violence of the riots, which have included firebombs, shootings, stabbings, and multiple assaults on police officers, random drivers, shopkeepers, and anyone in the way, the Democrat political movement led cities to pull back police or tied up officers with the riots. Gang members got the message and ramped up looting and territorial battles. The BLM riots aren't just a struggle session or cancel culture. They're doing a lot more than terrorizing diners or burning down stores. The BLM riots and movement are killing people.

Theodore Roosevelt:
Anarchist is the enemy of
humanity

“When compared with the suppression of anarchy every other question sinks into insignificance. The anarchist is the enemy of humanity, the enemy of all mankind, and his is a deeper degree of criminality than any other. No immigrant is allowed to come to our shores if he is an anarchist; and no paper published here or abroad should be permitted circulation in this country if it propagates anarchist opinions.”

COVID-19 UPDATE

The Lockdown Has Gone From a Mistake to a Crime

The lockdown is a crime. But even more upsetting is that it is supported by so many Americans. This country is unrecognizable to those of us who lived through the 1968-1970 pandemic, which killed, according to the Centers for Disease Control and Prevention, approximately 100,000 Americans -- the 2020 equivalent of 170,000 Americans. Nothing shut down. Not one mask was worn.

Breaking Back with Katie Hopkins

"I have considered ending my life" tells a man I have only just met, tears falling fast now as his most private thoughts spill out on my shoulder. There have been many moments like this. Big strong men show me pictures of their little children on their phones and cry for their failed marriage that could not withstand the loss of their job and all that goes with it. As I travel about and people remember what it is like to be together and laugh with each other, emotions flow. Lockdown is so much more than a physical cruelty. It is emotionally that people have been damaged the most.

THE ENVIRONMENT

Wildfires in California emitting more CO2 annually than cars

Since California has lost nearly 1.67 million acres to wildfires through August 31 this year and based on the assumptions above, about 131.2 million tons of carbon dioxide have been emitted to the environment in eight months due to wildfires. California had 15.1 million vehicles registered in 2018. Assume all are fuel burning for this exercise. According to the U.S. Environmental Protection Agency, fossil fueled cars emit 4.6 metric tons per year (22 mpg and 11,500 miles driven

per year basis). That means California cars emit 76.4 million tons (not metric) of carbon dioxide annually.

Extinction Rebellion: radical reactionaries.

Extinction Rebellion and their ilk want us to turn back the clock. They seek not a new world but a kind of new feudal order. They want mankind to retire from innovation and advancement and shrink in number. In the name of freedom, progress and the advancement of the prospects of the world's poorest, leftists should oppose them. The globe cannot afford to immediately and completely ditch fossil fuels. More precisely, its poorest inhabitants cannot afford to. It is they who will most sharply feel the consequences of the often gas-filled pipeline of economic growth being turned off. Middle-class activists in rich Western countries, in contrast, will cope.

FREEDOM OF SPEECH

America's Sacred Freedom of Speech on Life Support

What exactly do I have to say that Facebook finds offensive, threatening, and so in violation of their liberal "community standards?" Is it the fact that I suffered under communism for 20 years, with millions of others, escaped it, and tried my hardest to expose its tyranny? Is it the fact that the left is trying to install socialism/communism here in America and we, the survivors of such a tyrannical regime, are flies in the globalist ointment?

After 9/11: can we still talk about Islamist terror?

Islamist terror still poses a huge security threat. But it's becoming more difficult to discuss it openly. There should be strong pushback against those who wish to restrict the boundaries of much-needed discussions on radicalisation, extremism and terrorism. We need to be able to identify and comment on unusual behavioural patterns and religiously inspired ideological motivations. There is simply no room for thought-policing or political correctness in the realm of counter-extremism.

AROUND THE WORLD

FRANCE

Will France Finally Rain Justice Down on Islamic Terrorists?

The terrorist killers are alleged to have shouted, "We have killed Charlie Hebdo; we have taken revenge for the sake of the Prophet Mohammed." But they are mistaken. Charlie Hebdo remains published. It again courageously published in its current September issue a dozen cartoons first published in Denmark in 2005 and bravely asserts, "We will never lie down; we will never give up." However, caution is necessary. C.H. is published under conditions of absolute secrecy, in a secret location; the staff is surrounded by armed guards and security measures. Special doors and code words are used, and the journalists are threatened with death.

ISRAEL

How the Trump Plan Makes Peace Possible

The Trump plan cannot ensure a peace deal and does not expect one soon. Its virtues lie in exposing the falsity of conventional views about the Middle East; pointing to what is truly precluding peace; offering ample rewards for overcoming those obstacles; and ending policies that incentivize the conflict's perpetuation. It advances U.S. interests in the region by sending sympathetic and constructive messages to the Palestinians and forthrightly supporting the security of the capable, democratic U.S. ally, Israel.

SWEDEN

The Violence Is "Extremely Serious"

The police statement did not mention that two boys were raped, tortured and nearly buried alive in a cemetery close to Stockholm. The atrocity added to the growing number of so-called "humiliation crimes". These are crimes where the victim is not only robbed, but also violently humiliated to

demonstrate the power of the perpetrator. Another such humiliation crime, for instance, took place in Gothenburg in October 2019, when a criminal gang forced their victim to kiss the gang leader's feet, while they filmed him. After that, they stomped on his face until he lost consciousness.

Dad's Arrest Exposes Support Network Behind Alleged Honor Killers by Phyllis Chesler

Late in 2007, 18-year-old Amina and 17-year-old Sarah finally ran away with two friends, boys, who wanted to help save their lives. Strangely, Tissie went along, possibly in order to spy on them for Yaser. After she returned home, Tissie implored her daughters to come back. She assured

them that Yaser would not harm them. They returned—and within hours, on Jan. 1, 2008, Yaser allegedly shot them to death in his taxicab. One of the dying girls called the police, said that her father had shot them both, and that they were dying

ARTICLE OF THE WEEK

A homage to ordinary working people by Rex Murphy

Who was in the hospital taking your temperature? Who drove the trucks bringing food and medicine to the hospital? Who fixed your car? Who grew the food? Who processed the oil and gas that kept your condo warm and your car in motion? Who is the person at the grocery store stacking the shelves?

It seems as though protesters have their day every day. I'd like society to start paying attention to those who do not protest. Ordinary working people matter. They are the life of the country, and they are of all beliefs, backgrounds and races. They are us. We are them.

Organization of Islamic Cooperation, Muslim World League sign deal to combat 'Islamophobia'

"Islamophobia" is a propaganda term that is used for two unrelated phenomena: vigilante attacks against innocent Muslims, which are never justified, and honest analysis of the motivating ideology behind jihad violence and Sharia oppression of women and others. The goal of this conflation is to inhibit such analysis and intimidate people into thinking it's wrong to oppose jihad terror. And it's working great. This agreement is meant not to "remove misunderstandings," but to increase them, and to foster ignorance and complacency in the guise of educating people so that they won't victimize innocent Muslims, which every civilized person knows not to do already.
