

THE BATACLAN MASSACRE

PARIS, FRANCE

NOVEMBER 13, 2015

“The ultimate test of a moral society is the kind of world that it leaves to its children.”

~ Dietrich Bonhoeffer ~

Friday was Paris's worst day since Nazi tanks rolled down the Champs-Élysées. It was worse than Charlie Hebdo, but it followed the same theme. Another city has lost control of its life and vitality to a cowardly resident evil breeding across every border in Western Europe. While leftists still cling to their Bush-Cheney conspiracy theories, blaming them for all the worlds' ills including the current rise of ISIS, the fact remains that on President Obama's watch, global terrorism has risen by a staggering 80% in just the last year alone. Sadly, the president has had nearly seven years to destabilize the Middle East, Maghreb and beyond in unprecedented ways

This is a war unlike anything we have previously experienced or read about. This is a world war declared by ISIS in order to clash with the entire world: with anyone who does not adopt its inflexible and closed-minded thought patterns and anyone who

does not drink from the same fountain. Its objective is to take countries back to the Stone Age and transform the members of the Muslim diaspora and Muslim minorities into living bombs. This war is a comprehensive plan to eliminate the right to differ in opinion or belief, as well as any possibility of coexistence and progress. This war is a pitch black night that is trying to extinguish the lights of liberty and dignity.

All it takes is a pack of benighted wolves that have drunk from the river of absolute hatred. Obama's decision not to become too involved in the ISIS crisis allowed 'Al Baghdadi's state' to feel safe and secure the minute it declared itself. It allowed it to seize oil fields, regulate tax collection and use the banks and the armies that it took control of. It allowed it to build itself strongholds and recruit extremists capable of placing technology in the service of ISIS' hatred and destruction program. It allowed ISIS to woo extremist officers from armies near and far, and gave it the time to set up planning centers and war rooms and create new generations of suicide attackers.

Contrary to the trite bumper sticker stating "War is Not the Answer," sometimes war is the only answer.

The Barbarians Are Inside, And There Are No Gates

by Mark Steyn

As I write, Paris is under curfew for the first time since the German occupation, and the death toll from the multiple attacks stands at 158, the vast majority of them slaughtered during a concert at the Bataclan theatre, a delightful bit of 19th century Chinoiserie on the boulevard Voltaire. The last time I was there, if memory serves, was to see Julie Pietri. I'm so bloody sick of these savages shooting and bombing and killing and blowing up everything I like - whether it's the small Quebec town where my little girl's favorite fondue restaurant is or my favorite hotel in Amman or the brave freespeecher who hosted me in Copenhagen ...or a music hall where I liked to go to hear a little jazz and pop and get away from the cares of the world for a couple of hours. But look at the photographs from Paris: there's nowhere to get away from it; the barbarians who yell "Allahu Akbar!" are there waiting for you ...when you go to a soccer match, you go to a concert, you go for a drink on a Friday night. They're there on the train... at the magazine office... in the Kosher supermarket... at the museum in Brussels... outside the barracks in Woolwich...

The names of the people responsible for the massacres in France

The names of the people responsible for the massacres in France are as follows:

- **François Hollande, president of France**
- **Angela Merkel, prime minister of Germany**
- **David Cameron, prime minister of the U.K.**
- **Stefan Lofven, prime minister of Sweden**

As well as most of the other prime ministers and European heads of state. Oh, and we must include the pope, too, who insistently called on Europe to take in more Muslim refugees.

THIS IS WHAT A TRUTH TELLER SAYS:

Just Who Are the Murderers Here?

The following talk by Paul Weston, the leader of Liberty GB, focuses on the role of Western political leaders in the mass importation of hostile aliens into the heart of Europe. Their actions have made violent conflict inevitable, and unless Europeans rise up and demand political change in the near future, the demise of Western Civilization becomes a real possibility. Mr. Weston warns European public officials, and particularly those in the UK, of the judicial consequences that await them if they continue on their current path:

THIS IS WHAT THE POLITICALLY CORRECT WOULD SAY ON CUE:

- **This atrocity has nothing to do ...with Islam. In fact, it is primarily an attack ON Islam.**

- **We express our deepest sympathy to those Muslims whose religion has been so maligned.**
- **We apologize to you for this insult to your great Prophet and for the suffering it thus causes you. Ah, your pain must be great.**
- **Let us stand in solidarity to say: this attack is not about Islam. It represents an inversion of the great religion of peace!!!!**
- **What a great tragedy it would be if this attack were used to say that Europe should slow the mass importation of so many Muslims onto our shores.**
- **What a tragedy if this attack were used to say that Islam has no place in Europe.**
- **We stand together to celebrate Islam!**
- **We stand together to declare that the great peace of Islam shall reign in Europe, and that we shall all understand its true meaning!**

ALLAHU AKBAR!

The City of Light Goes Dark

Who does not love Paris? Puritans do not love Paris. Puritans hate, music, song, dance, poetry, fun and love. Today, such people are represented above all by extremist Muslim doctrinaire fundamentalists. They seem to despise women without veils; call music Satanic; regard painted images as an insult to an angry God; consider football a sin, and a restaurant serving wine as the embodiment of evil. They do not respond to a life-affirming bustle and the ideals an open, tolerant, democratic, liberal, humanitarian, egalitarian West. When Sir Karl Popper wrote, at the end of the Second World War in 1945, his two-volume classic, *The Open Society and its Enemies*, he laid bare the evils of totalitarian systems, both left and right -- Communism and Fascism. He would never have guessed that soon a Third World War would be taking place between radical Islam and the West.

Muslim Roulette by Bosch Fawstin (ex-Muslim)

A is A. Islam is Islam. There is no such thing as 'Good' Islam vs 'Bad' Islam. Islam is a totalitarian religion, while Muslims are individual human beings who may or may not practice Islam faithfully. I've come to the conclusion that there are active Muslims and there are passive Muslims, the faithful and the unfaithful, the submitted and the un-submitted in Islam, but there is No obvious way to tell the difference between them, which has its benefits for those who are committed to spreading Islam by any means necessary. Mohammed said 'War is deceit' and practiced it, and Muslims have followed their leader in using deception against non-Muslims to this day. When Islam, the very antithesis of peace, is sold to us by Muslims and their useful idiots as being the very definition of peace, and actually gains traction, it would have made Hitler blush.

Paris: A Fool's Paradise Is a Wise Man's Hell

Morality is not linear and progressive, especially if we are charting the behavior of mankind. It is a jagged line, soaring to phenomenal heights and astonishing depravity. We cannot expect the passage of time to elevate people's behavior. There are no universal values that we all share, whether in the realm of political autonomy or the human right to life. It's a fool's paradise to think otherwise. Ask Vladimir Putin about the Crimea. Ask ISIS about the rights of captives. Ask a Muslim imam for an unqualified condemnation of the Paris terror attacks. To use "universal values," the "twenty first century" or the year being 2015 to formulate strategy is to walk from a fool's paradise straight into the hell of Paris, Madrid, New York, Washington, or Buenos Aires... A wise man understands we are already there.

Dear Despicable Politicians Subverting Our Safety for 'Refugees'

You're disgusting human beings, all of you. I'm speaking to every President and Prime Minister who opened the borders to "migrant refugees" in hopes

of scoring political points and earning yourselves an extra pile of the feels. Some of you seem to think those “warm fuzzies” are worth allowing potential terrorists into our countries (read ‘Refugee’ is Actually Infamous ISIS Agent Now Being Hunted in France). These “migrants” who are masquerading as poor helpless victims? The majority are military aged, strapping men, so pardon me if I’m not donning awareness ribbons. If you think these people are anything other than thousands of Trojan ponies, you’re all fools. Paris is a horse-kick to the face

Islam is not a race, so hold off on playing the “racism” card for just a sec. Islam is a religious and political system that runs counter to our own. The tenants of Islam cannot peacefully coexist with any other political or religious system in the world. Period. (read 5 Reasons the Qur’an Can Never ‘Coexist’ With the Constitution...Ever). To pretend Islam can merge with western civilization is to purposefully blindfold oneself with a bleeding heard-adorned handkerchief. No matter how much leftists refuse to see the horror of terrorism, it will still continue. Refusing to utter “Islamic terrorists” will not make them disappear. Islamic terrorists are real, they’re laughing at the very people who refuse to acknowledge them. They’re not sneaking across borders, they’re being welcomed into countries with open arms. Open arms from *you*, our elected leaders, not by the people.

The Islamist Tantrum

129 people are dead in Paris because Europe decided to make a fetish of its tolerance for intolerance and allow the religious distempers of its Islamist communities to fester over many years. That's what happens when you sanctify political tantrums, explain and appease them, refuse to name them, try to look away.

Caninophobic Muslim Suicide Bomber Blows up Hero Police Dog

An anti-terror police dog has died after being blown up by a female suicide bomber during a firefight with suspected ISIS militants behind the Paris massacre. The seven-year-old Belgian Shepherd named Diesel was killed during a raid by up to 100 police and soldiers on a flat in the French capital this morning. Islamists like to taunt non-Muslims as being dogs, but they have made themselves less than dogs. A dog like Diesel has more value than all of them combined together will ever have. Her life is worth far more than theirs ever will. In her own way she contributed to mankind, while Muslim terrorists only seek to destroy human civilization for the sake of their barbaric beliefs.

Why France?

France's population of 66 million is now approximately 10 percent Islamic. As night follows day, when Muslim populations surge, so does support for jihadism and the sharia supremacist ideology that catalyzes it. The reason is plain to see, even if Western elites remain willfully blind to it: For a not insignificant percentage of the growing Muslim millions in Europe, infiltration – by both mass immigration and the establishment of swelling Islamic enclaves – is a purposeful strategy of conquest, sometimes referred to as “voluntary apartheid.”

<http://www.citizenwarrior.com/2015/11/why-france.html>

Why Muslim Migrants Always = Terrorism

Of such people ask a simple question: can you cite one time in history in which large numbers of Muslims have willingly assimilated into a non-Muslim culture? Just one? In fact, I don't know of even one instance in which large numbers of Muslims were ever shaken from Islam other than by the sword, and that wasn't done very much, if at all. There was an attempt by a group of medieval Christian missionaries to peacefully convert Middle Eastern Muslims, but the effort was found futile and abandoned after a short time.
