PM Trudeau Implementing “The Great Reset” in Canada

The Great Reset (July 2020) is the latest policy document written by Klaus Schwab, WEF founder and CEO. Schwab describes how the coronavirus has disrupted both economic and social infrastructure and it provides an opportunity “to create a more inclusive, resilient and sustainable world going forward.” The WEF has advanced a post-COVID plan to be implemented over the next 10 years. By **2030**, countries will have reformed to adhere to the objectives set by the economic and social governing bodies of the United Nations (U.N.).

Out of touch mainstream media has lost the trust of Canadians

You can criticize Skelly for many things, but being unhappy with mainstream reporting isn't one of them. From the very first day of Skelly's protest, the narrative to paint the small business owner as a lawbreaker and even a racist had already begun to emerge in the press. Throughout this pandemic, the Liberal government has looked on as the media lauded and even praised mass demonstrations in the name of progressive values, while hypocritically shaming others seeking to exercise those same rights.

Please support Adam Skelly through the Adamson BBQ Legal Defence Fund

This campaign has never been about the existence of COVID measures but the asymmetric way they treat big business and the little guy. Amidst the slough of politicians, media and citizen fear mongers supporting irrational COVID "public health orders" that shut down small businesses while allowing corporate big-box stores to remain open... one small business is standing up for the rights of the "little guys" like you and me to get out

and earn a living too. Support Adam Skelly – one brave person fighting for our freedoms.

Criminalizing Everything with Andrew Lawton

A pastor, a politician and a restaurateur are among those charged for their protests against government lockdowns in the past week under the guise of public health, revealing the criminalization of everything and everyone who dares to stand up for their civil liberties. True North's Andrew Lawton talks about the charges laid against Ontario MPP Randy Hillier, Pastor Henry Hildebrandt, and Adamson BBQ owner Adam Skelly, plus the bigger picture issues at stake.

Trudeau Said The Government Didn't Fight Omar Khadr In Court Due To Potential Cost.

When the Trudeau Liberals decided to give \$10.5 million of your taxpayer dollars to Omar Khadr, Justin Trudeau said it was about saving Canadians the cost of continuing the fight in court. He claimed that continuing the fight – rather than paying Khadr – could have resulted in Khadr getting even more. However, as noted by Canadian Veteran Brock Blaszczyk, the Trudeau Liberals have spent \$43 million in legal fees in their ongoing fight against Canadian Veterans in court:

Leaked Document From Chinese Company Corroborates CSIS Security Concerns

A leaked document from a major Chinese company with Canadian operations offers evidence that corroborates with security concerns Canada's intelligence agency has raised over foreign state-owned enterprises. The document, recently obtained by The Epoch Times, is a directive by the China National Petroleum Corporation (CNPC). It was issued in August to its overseas offices in more than 10 countries, including Canada. As previously reported by Epoch, the directive asks the offices to "urgently destroy or transfer sensitive documents" relating to "overseas [Chinese Communist] Party-building activities."

Eyes on Canada 1.0

Despite the differences, Canada has always stood shoulder to shoulder with America in times of war and peace. They stormed the beaches of Normandy together with the Allies on D-Day. It was the Canadian embassy in Tehran that, despite significant danger to themselves, hid and protected American diplomats during the Iranian revolution of the late Seventies. Canada has the longest unprotected border in the world, and Canada is partnered with the United States in the air defence of North America through the North American Aerospace Defence Command (NORAD). Canadians and Americans should both be grateful for each other – as a family.

C3RF Update – 5 December 2020

This week's update takes a closer look at the "Wuhan virus fatigue" that, apparently, is responsible for a second wave of the contagion. The charge can be seen as being somewhat opportunistic, however, as it is being made by those in charge of crisis response. How convenient for them that their proposed fix entails making those who are suffering through their lockdown strategies simply perk up a bit and suffer even more. Is it any wonder that some are awakening from their slumbers to question their trust in their leaders and such lop-sided approaches to problem solving?

POST-ELECTION STORIES

"A Fading Culture"

Those who are hoping that a Biden Administration will rid of us the division and prejudice that have characterized the last four years, and return us to some halcyon period, are mistaken. Mainstream media will no longer be in attack mode nor will late-night television hosts, so the temperature may appear to abate. But the causes for the dysfunction we have felt do not lie with Mr. Trump but are a consequence of attempts to alter the culture that has made us a success.

Frauds, Crooks and Criminals

“It’s important for every America citizen to understand that you are now facing, for the first time, hybrid modern warfare, where the enemy is unseen, it’s stealthy. Be aware America, be afraid, be concerned, rise up. We cannot let this election, these treasonous acts, this coup d’état, to stand.” Do just what the Left does, take control of the language. This is much worse than the usual lying, cheating and fraud. Use the words: modern warfare, coup d’état and treason.

Las Vegas Oddsmakers are Never Wrong

I don't know what the Supreme Court will decide. But bettors all over the world know in our guts exactly what happened. The fix was in, no different than that famous NY Giants-Philadelphia Eagle fix in 1978 at the Meadowlands. Trump was robbed. This election was stolen.

THIS is why the Georgia Senate election is the LAST LINE in the fight for freedom

'Lifelong Democrat' and Georgia State Representative Vernon Jones says if Republicans lose the Senate races in Georgia, it will be hard for America to recover: "if the Senate goes, this country goes," he says. Jones explains why Georgia is the last line in the fight for freedom, and he shares a powerful message about party politics: "I didn't leave my party; my party left me."

Facebook is censoring information about the election

Twitter has been more heavy-handed than Facebook when it comes to censoring ideas and information from the conservative side of the spectrum, but don't think for a minute that Facebook isn't involved. Just today, I grabbed screenshots of Facebook going after a video showing ES&S machines transferring vote ratios between precincts in Philadelphia.

An 'Enigma' Theme Runs Through the 2020 Election

The Democrats have been practicing for this election for a long time but, until this year, they had to keep relatively secret the fact that they had the code to make elections break in their direction. This year, they abandoned secrecy. Their conduct and the possible outcome are reminders of both the British "Enigma" dilemma and of Elgar's Enigma funeral march.

Gen. Flynn's warning to America: 'If we don't get this right, our country is done. It's over'

Lt. Gen. Michael Flynn said that America stands at a crossroads that will determine whether it survives as a free nation or becomes something "unrecognizable." "What's happening in this country should never happen, and there's no doubt in my mind we are going through a crucible of history, and if we don't correct what it is that's happening in the next

couple of weeks, then I hate to really even think what will happen in our country going forward into the latter part of December and certainly into the next month."

Trump gave 'the most important speech' of his life

President Trump appeared before the American people on Wednesday to give what he described as "the most important speech I've ever made." The president explained that our once sacred "Election Day" has turned into an election season, with opportunities for "lots of bad things." While he was warned away from declaring a "premature victory," Biden was treated as the victor before the election happened. "In fact, they were acting like they already knew what the outcome was going to be. They had it covered, and perhaps they did, very sadly for our country."

BIG TECH

The Great Disruption

The original disruptors had been concerned with empowering the end user to command the system, but the new disruptors were reversing the process that had taken users from terminals to personal computers, instead reducing a multitude of devices to terminals leaking data that made them easier to profitably manipulate. The early internet was empowering, but the internet of the Google, Amazon, and Facebook era is disempowering by design. It works by limiting your options and then using what it knows about you to push you in the direction it wants you to go. Early computers had practically demanded programming skills. The new setup programs you.

COVID-19

The coronavirus vaccine is a brilliant breakthrough. Its creation and approval in record speed are testament to human ingenuity in the face of crisis. But what happens after vaccination? The vaccine should rightfully be seen as leverage by those of us who want our freedoms back. There will be no excuse for the kind of all-out assaults on public life and everyday liberty that we have lived through this year once the vaccine has been rolled out (some of us believe there was no excuse for such authoritarianism in the first place...).

But we must remain vigilant. The elites' diminishing of democracy, their lack of trust in individuals and communities to decide for ourselves how to deal with challenges like Covid-19, is fundamentally a political problem, not a health one. The vaccine might do away with the pandemic in its current form, and that's great, but it won't resolve the elites' contempt for the masses. That fight goes on.

Renowned scientist tells Laura Ingraham the COVID-19 vaccine is 'downright dangerous' and will send you 'to your doom'

In his interview with Ingraham, Bhakdi described as "utter nonsense" Dr. Anthony Fauci's claim earlier Wednesday during a live interview on *The Story* with Martha MacCallum on the Fox News Channel that 75% of Americans would need to be vaccinated against COVID-19 in order to achieve herd immunity. Bhakdi added, "Someone who says this has not the slightest inkling of the basics of immunology." In response to Ingraham's final question, "So you think the COVID-19 vaccine is unnecessary?" Bhakdi replied: "*I think it's downright dangerous. And I warn you, if you go along these lines, you are going to go to your doom*" (emphasis added).

IMPORTANT

COVID19 FACTS:

The virus can travel 6', it can not travel 6'1" or greater. It can live on all surfaces except anything that comes in the mail from Amazon. It does not live in Target, Walmart, Home Depot, Lowe's or any grocery store. It's harmless in protests, riots and looting. It is only deadly in bars, restaurants, churches, synagogues, small businesses and hair salons... and it can not live on your food as long as you get it to go.

ANTIFA

TIME WARP: 1969/70 Anarchy ... Recycle 2019/20

Antifa is the Weather Underground of 50-years ago, just without the bombs — YET! Same guerilla tactics; same goal: destroy America. Anti-military and anti-police back then; primarily anti-police now, but anti-authority of any kind. The handwriting is on the wall though. America needs to step up and stop the insanity.

IMMIGRATION

EU: New Pact on Migration and Asylum

"Migration has always been and always will be part of our societies. What we are proposing today will build a long-term migration policy that can translate European values into practical management. This set of proposals will mean clear, fair and faster border procedures, so that people do not have to wait in limbo. It means enhanced cooperation with third countries for fast returns, more legal pathways and strong actions to fight human smugglers. *Fundamentally it protects the right to seek asylum*".

AUSTRIA

Political Islam in Austria

For the first time a political leader has referred to Political Islam. Chancellor Kurz of Austria has called out Political Islam as a criminal conspiracy that needs to be discussed and made illegal. Political Islam is responsible not only for acts of jihad, but also gives it moral and financial support. This is a major step forward. Instead of seeing jihadists as mentally ill, they are acknowledged as part of a political group dedicated to the destruction of Austria. Kurz also makes the point that European countries need to unify, since no one country can defeat Political Islam.

What Happened to Boris Johnson?

One minute he was crashing along like a sexually profligate rhino looking for a Brexit mate, full of Get Brexit Done, and doing splendid things like

proroguing (suspending) Parliament and firing treacherous MPs who were working AGAINST the will of the people. He swung back into Parliament with a massive 80-seat majority. And he was all about giving hard workers the breaks they deserved. And then came COVID. And Boris turned into a turnip in a toupee.

What is “American Good” Today?

The outstanding author, Linda Goudsmit, shared her thoughts with us on the spiritual battle in her article “Good versus Evil”.

“Changing minds and hearts” can be used for construction or destruction. If you believe in a sovereign constitutional America and individual freedoms, you are appalled by election fraud and Covid hysteria. If you believe in globalism and the promises of social justice and economic equality echoed by the MSM, you become a soldier against conservatism and rationalize your criminal behavior because “war is deceit.”

World leaders join Ukraine in marking the anniversary of the Holodomor (Ukrainian Genocide)

On November 28, the memory of the innocent victims of one of the greatest tragedies in the history of the Ukrainian people - the Holodomor of 1932-1933 was honoured. This crime of the Soviet government is one of the most brutal and large-scale crimes against humanity of the 20th century. This was a famine genocide deliberately inflicted on Ukrainian people in 1932 and 1933 by Bolshevik Communist, Joseph Stalin.
