### **Manitoba pastor in hiding after warrant issued**

Christian pastor Tobias Coates spent over a month in maximum security prison after refusing to comply with Alberta's restrictions on religious freedoms. "My parents faced persecution in Germany for homeschooling their children because they wanted to protect us from the 'political agenda' of public schooling. That is what pushed them to move to Canada. "If I go back further in my lineage, I have ancestors who were persecuted, jailed and in some instances killed under the tyranny of the Soviet Union for their devotion to Christianity." They took a stand for their religion, and now I find history is repeating itself."

## **Pastor Artur Pawlowski's contempt of court hearing**

Yesterday, Pastor Artur Pawlowski faced the judge for a pair of contempt of court charges, two weeks after his shocking SWAT-style arrest on a wet and busy Calgary highway. This is a legal battle of a lifetime. Not just for Artur, but for all Canadians. Every single one of us should have a keen interest in the outcome of this case — our Charter right of religious freedom hangs in the balance.

## **Notice of Liability for School Superintendents, School Board Executives, School Principals, Teachers and Administration**

We now contend the risk associated with COVID-19 vaccinations is extremely dangerous to the health and well-being of all children and this form of treatment unnecessary. Any coercion or pressure tactics used for students to be vaccinated contravenes the Nuremberg Code, the Helsinki Declaration and the Canadian Charter of Rights and Freedoms.

## Notice of Liability – Schools

School officials, staff and volunteers, are not medical professionals and, therefore, they are unlawfully practising medicine by prescribing, recommending, and using coercion to insist that school children take this experimental medical treatment. Students are at nearly zero % risk of contracting or transmitting this respiratory illness and are instead buffers which help others build their immune system. The overall survival rate is 99.997%. We MUST protect our kids.

## Student Mask/Covid Exemptions

Students are at nearly zero % risk of contracting or transmitting this respiratory illness and are instead buffers which help others build their immune system. The overall survival rate is 99.997%. The extreme measures are unnecessary and doing severe harm to our children. **Sign and send letter of exemption:** Notify your child's school officials that your child will no longer wear a mask, use hand sanitizer, participate in social distancing, or take the experimental vaccine.

## **Justin Trudeau takes a knee to the 'nation' of Quebec – Rex Murphy**

It is more than provoking, with so much of Canada in the midst of an ill-managed COVID crisis; in the brutal experience of tens of thousands of businesses, now dead or dying; in reckless financial expenditures; with a Parliament that mimics more a neighbourhood takeout than a deliberative assembly — pickup or delivery for all major announcements; with scandals galore from WE to military harassment allegations; with pending internet censorship legislation; is it not more than provoking that this fundamental and core assault on the country's Constitution is being so complacently received? Quebec can unilaterally alter the Canadian Constitution, the prime minister says. So who speaks for Canada?

## **Head of Canada's progressive 'Anti-Hate' network warns of 'sick rumours of violence aimed at Jews' after recent antisemitic violence – Barbara Kay**

Ordinary Canadian Jews immediately absorbed the shock and ominous implications of the exponential rise in expressive antisemitism. Every Jew I know is feeling anxiety and fear. But Bernie Farber, chair of the Canadian Anti-hate Network (Antihate.ca), mocked our concerns. Last Tuesday, Farber took to Facebook to scold those "[s]preading sick rumours of violence aimed at Jews" as "fearmongering" and "the worst kind of nonsense." He said advocacy groups for Jews, Palestinians and Muslims "should speak in one voice to condemn it." "It," to be clear, being Jewish fear-mongering. These Nazi-trackers seem not to—or perhaps have chosen not to, as Farber's post suggests—to grasp the reality that the head office for genocidal hatred of Jews, whose rhetoric makes Hitler look ambivalent, has shifted from Berlin to Gaza, with branch offices all over the world, staffed by fellow Islamic supremacists and abetted by privileged white progressive BDS allies in academia.

## **Straight-Out Jew Hatred': Canada's Jewish Community Shaken By Antisemitic Incidents**

Pro-Palestinian demonstrations in every major Canadian city have included attendees holding hate-filled signage and violent outbreaks. At Nathan Phillips Square in Toronto on May 15, chants were heard of "death to the Jews" and "we will finish what Hitler started." "For the first time since the Holocaust, it is now socially acceptable again to be a Jew-basher," said educator Richard Bass. He said in an interview that he believes this has come about because people "have become emboldened by the intolerant 'liberal left' ideologies that have gained more and more momentum."

## **Health Bullies Muzzle Canadian Doctors**

What would happen to a doctor who criticized measures now widely recognized as inhumane, such as isolating children from their families in the case of possible COVID contact, or preventing family members from visiting care home residents for over a year? Is the CPSO certain that its own recommendations, if thoroughly investigated, would escape designation as "unsupported, unproven treatments"? Officials have studiously ignored the well-known deleterious health consequences of their harsh directives while continually stoking public fear with daily death announcements and warnings about second, third, fourth, and future variant "waves."

## **Emergency dept. doc: They're rejecting my COVID vax adverse reaction reports**

All five of his reports have been rejected by his local Medical Officer of Health, which he claims threatens public safety by filtering out potentially valid reactions based on technicalities which apparently included missing documentation that he doesn't necessarily have access to in the ED, such as vaccine lot numbers and time of administration. As such, Patrick, along with hundreds of other concerned doctors, have joined forces and started the Declaration of Canadian Physicians for Science and Truth. Their mandate is to continue to put their patients, not the CPSO or any other authority, first and uphold the Hippocratic Oath of "First, Do No Harm."

## **Vancouver Mayor Stewart's Cowardly Komagata Maru Apology**

To the globalist Mayor and Council: your hysterical condemnations and theatrical displays of virtue signaling will not persuade my fellow patriots and I to accept the brave new world of economic ruin and demographic replacement that you have so glibly signed onto. We will not go along with your agenda of selling our future out and condemning Canada's past.

## **How Telling The Truth On Campus Gets You Persecuted**

If the deconstructionists, postmodernists, and adherents of critical theory are correct that our intellectual and cultural traditions are inaccurate, immoral, and incoherent, what's the point of even having a university? They have, in effect, argued themselves out of their jobs. Our leaders must demonstrate the courage to curb what is killing us. What we need are politicians who demonstrate the kind of courage displayed by Lindsay Shepherd.

## **Royal Canadian Mint cancels Frederick Banting coin after directive to confront 'colonialism, patriarchy and racism'**

Banting was awarded the Military Cross for heroism during the First World War. He then went on to head the research team that discovered how to make artificial insulin in 1921. He was later awarded the 1923 Nobel Prize in Medicine for his work, and famously sold the patent for the insulin for a dollar.

## **C3RF Update –28 May 2021**

C3RF Update, 28 May 2021 analyses Canada's rapid descent into despotism over the course of the past year. It would appear that the age-old tactic of using false narratives to spark fear and division is alive and well. Problem for the fear-mongers, though, is that the "Chuck Norris effect" kicks in sooner or later to free the truth and turn the tables.

## **China is being evicted from Alberta universities.**

Alberta has taken the first step on behalf of Canada to ban China from our research universities. This comes just a few days after it was revealed that seven Canadian researchers were helping China with Ebola research - and Alberta is going to put an end to that behaviour. The next step is for other provinces to follow suit - especially B.C. which has huge partnerships with China through the University of British Columbia. It's sickening how deep China's reach is in this country, and it is time to put a stop to it.

# **COVID-19 UPDATES**

## **Who Is Klaus Schwab?**

As soon as the "pandemic" began, the term "COVID-19" was already being repeated about every ten seconds, or in other words about 9,000 times a day, on every station. A few months later, the term was being somewhat replaced by "vaccine." The expressions being intoned were in fact the words of Klaus Schwab, with his World Economic Forum said to be creating a great new opportunity for humanity, but really attempting a massive attempt at global dictatorship. A statistically mediocre virus was transmogrified (in Schwab's imagination) into an impending Doomsday machine.

## **James Delingpole speaks with Dr Reiner Fuellmich**

## **Disable the Fear Campaign**

The increase in wealth accumulation during the lockdown period is documented by the Institute of Policy Studies (IPS) in Washington, D.C., a progressive organization. Highlights include:

- Among the nation's 657 billionaires, wealth increased \$1.3 trillion since the Covid lockdowns

- 80 million Americans lost work between March 21, 2020-March 21, 2021
- 18 million Americans are collecting unemployment
- There are 43 newly minted billionaires since the lockdowns (i.e., Airbnb, Door Dash, Snowflake), added to the 614 existing ones
- Combined wealth increase of the 15 billionaires with the greatest growth in absolute wealth was \$563 billion or 82%
- Topping the chart were Elon Musk (\$137.5 billion richer, Jeff Bezos (\$65 billion richer), and Mark Zuckerberg (\$47 billion richer).

## **Does refusing the Corona vaccine show a lack of solidarity?**

One of the main sponsors of the vaccination lobby and industry is the multibillionaire *Bill Gates*. Together with his "Bill & Melinda Gates Foundation," founded in the year 2000 and regarded as one of the most generous foundations in the world, he invested more than 20 billion dollars in vaccines in the past ten years. Already in 2015 at a TED Conference, he warned about a new deadly infectious disease saying, "If anything kills over 10 million people in the next few decades, it's most likely to be a highly infectious virus rather than a war." Gates pointed out that "somebody who wants to cause damage could engineer a virus;" especially respiratory diseases he characterized as "very scary." In 2016 his foundation invested "20 million dollars in the mRNA technology of Moderna." In the late summer of 2019, when COVID-19 was not yet an issue, the "Bill & Melinda Gates Foundation" publicly emerged as investor in BioNTech."

## BIG TECH

### The Patriot Post: DeSantis Takes on Big Tech

The bill, SB 7072<sup>1</sup>, will allow Florida residents to sue Big Tech companies that fail to follow or enforce their content rules with transparency. According to a press release from the governor's office, "This reform safeguards the rights of every Floridian by requiring social media companies to be transparent about the content moderation practices and give users proper notice of changes to those policies, which prevents Big Tech bureaucrats from 'moving the goalposts' to silence viewpoints they don't like." It creates a provision for the state's attorney general to take action against a social media company should it violate this law.

## THE MEDIA

## **We need to talk about those journalists who praised Hitler**

Once again we can see the double standard that is always deployed in relation to anti-Jewish hatred. Imagine if it was discovered that a reporter for the *Daily Telegraph* had tweeted approvingly of a genocide against black people. Or if a writer for the *Wall Street Journal* was unveiled as a loather of Muslims who fantasised about their removal from the face of the Earth.

## **'Florida Woman' Saner than Media**

Before the media turned Jones into their next Erin Brockovich, they might have done 10 seconds of Googling to find out that Jones' past includes stalking, battery on a police officer, repeated incarcerations, an institutionalization, an ankle monitor, a restraining order and court-ordered medication. And that's long before the DeSantis administration hired her as a web designer.

# **ANTIFA/BLM**

## **BLM founder Patrisse Cullors resigns**

The woman who sits atop 60 million dollars' worth of donated funds, after the unexplained departure of her ostensibly charitable organization's co-founders, failing to file legally required financial disclosures, and buying a multi-million-dollar real estate portfolio, surprised everyone yesterday by announcing her resignation

# THE ENVIRONMENT

## **Environmental Threats Based on Invisible, Remote Subjects to Create Fear: Greenpeace Co-founder**

The co-founder of Greenpeace says in his new book that alleged environmental catastrophes and threats are based on subjects that are either invisible or extremely remote in order to create fear, forcing people to rely on experts to tell them the truth. "It dawned on me that the great majority of scare stories about the present and future state of the planet, and humanity as a whole, are based on subjects that are either invisible, like CO2 and radiation, or extremely remote, like polar bears and coral reefs.

## **The African slavery behind the leftists' green dreams**

Electric cars are fun to drive: zippy, filled with cool gadgets, quiet, and exhaust-free. They also fund slavery, China, pollution, and environmental degradation — and that's not even mentioning the inconvenience factor of slow charging and cold-weather failures.

## **The huge, destructive green lie**

"Green" power is inefficient. The need for backup power to use when the sun doesn't shine and the wind doesn't blow means costly firing up of alternative means of power or risking brownouts. Those fossil fuel power sources, when allowed to run continually, cost far less versus intermittently powering them on.

## CHINA

### **In Bhutan, China Takes Disputed Territory Without Firing A Shot**

Since the CCP faced little consequence for its territorial expansion in the South China Sea, it was emboldened to deploy a similar gray zone operation high in the Himalayas. The kingdom of Bhutan is a small nation of 800,000 people, resting on the eastern edge of the Himalayas. It's a beautiful and peaceful country, with the majority of its population practicing Tibetan Buddhism. Unfortunately, this tiny nation is straddled between China and India, two superpowers in Asia. Bhutan has no other option as a tiny country but to endure China's gray zone invasion in silence. It can afford to antagonize neither China nor India. But foreign powers, especially the United States, shouldn't remain silent for three reasons.

## ISRAEL

### Why Don't You Support Israel? With Stephen Harper

Israel is one of the most free and most prosperous countries in the world. Not only is Israel a booming economy and a wellspring of innovation, it is the only democracy in the Middle East. So why is it so controversial to support the Jewish state? Stephen Harper, the 22nd Prime Minister of Canada, lays out several fundamental truths about America's most critical ally.

## SPAIN

### Spain Relives Its Ancient History with Islam

Spain is reliving its ancient history with Islam. North Africa's Muslim invaders are following the same strategy that led to the Islamic conquest of Christian Spain in the eighth century. Ongoing reports indicate that

Muslim migrants from North Africa are illegally entering and flooding Spanish territory. In just 2020, 23,000 migrants invaded Spain's Canary Islands, representing a 234-percent increase. Once arriving on Spanish territory, such migrants invariably engage in unsavory and downright criminal behavior, such as gang rape, and create enclaves, or *ribats*, where police fear to tread.

## UNITED KINGDOM

### **Watson Video: The Uglification of the World**

Paul Joseph Watson is back with another blistering commentary in his latest short video. This time he takes on the "aesthetic terrorism" being unleashed on London by its incompetent Mayor Sadiq Khan and overrated pop artist David Hockney in their purported effort to beautify the city. In fact, as Watson notes, their uglification of the city is intentional: "They want you nihilistic, they want you depressed, they want you rootless. They want you to feel miserable and powerless."

## **Insurrection Obsession**

If you think we'll find out who the mystery cop who killed Ashli Babbitt is, think again – they'll probably give him a medal. Maybe we can see the video footage the government is hiding – because you know that if it was useful, it would have been released by now. Maybe they can explain how people are trespassing when the police let them in...to a public building. Maybe we can find out why Antifa/BLM rioters got their charges dismissed but those loitering on Capitol Hill get felony charges and denied bail. And maybe Jen Psaki can circle back and explain how zero is a number when explaining how her statement that a number of officers were killed is not a total lie.

## **Tebow, Trump, and DeSantis**

If ESPN, *Sports Illustrated*, *Washington Post*, *New York Times*, and CNN went after say Barack Obama, Stacey Abrams, and Colin Kaepernick with the exact same unreasoned hatred and nasty vitriol that they bring to Tebow, Trump, and DeSantis, we know how their words and conduct would be labeled: Racist. Racist. Racist! There would be a federal commission in D.C. to study the leftist media's hate. The Left's double standards regarding major political issues, especially race, are creating deep and dangerous divides in America.

## **The Great Jewish Divide**

KKK, David Duke, Senator Byrd, slave-ownership, voting against the abolishment of slavery and against MLK's civil rights movement of the 1960's - proud and well-documented history of the Democratic Party. American liberal Jews vote for and fund this Democratic Party. How can we explain this craven desire to throw ourselves onto the sword in the name of wokeness? Who would applaud this desperation for acceptance

into a club of liberal ideals that includes vile Jew-hatred? And why in the world would a political party with such a vast anti-Semitic ledger and clinically Israel-allergic membership be valued at such a premium by Jews themselves?

The Middle East dispute has never been about land. Israel is the size of New Jersey. It is slightly larger than El Salvador. ### **Blue Pill or Red Pill – Choose Wisely**

The blue pill provides comfort -- at least in the short term. It dulls our sense of reality and inhibits our ability to reason. It provides a sense of security -- even if it's only an illusion. Conversely, the red pill offers a life of struggle. It requires that we cope with the world as it really is -- not as we wish it were. It allows us to choose our own path. We can languish in sloth -- with 200 cable channels at our fingertips. Or we can strive for greatness. The choice is ours.
