Ontario and BC threaten dissenting doctors

CPSO ordered Ontario’s doctors not to make any statement that might be considered anti-vaccine, anti-masking, anti-distancing, or anti-lockdown. It forbids them to promote “unsupported, unproven” treatments for COVID-19. The CPSO doesn’t say which treatments, or by whom they are to be judged as unsupported or unproven. Doctors are further forbidden from making comments that might encourage people to act contrary to government health orders.

Canada: The Covid Police State

Canadian attorney John Carpay describes how Canada has turned into a police state where citizens live in fear, and the heroic resistance provided by Pastor James Coates, who was jailed for 35 days because he held normal church services.

Pierre Poilievre's Grilling Of Mark Carney Exposes The Attitude Of Canada's 'Elites'

In Mark Carney's worldview, Canadian energy sector workers need to sacrifice and be part of the 'energy transition.' But Carney can invest heavily in oil in foreign countries. They expect you to ignore this rampant hypocrisy. As you consider the clips above, notice how for all of Carney's attempts to reposition himself as if he was 'educating' Poilievre, and all his verbal evasions, Carney simply couldn't extract himself from the reality that he opposes a pipeline in Canada, while seeking to profit from pipelines in foreign countries. It is that simple.

Bill C-10 Explained

The Trudeau government internet's regulation bill has caused a major uproar in Canada. Canadians from across the political spectrum are sounding the alarm and calling Bill C-10 an attack on free speech. True North's Candice Malcolm explains what Bill C-10 is and how it will affect Canadians.

Toronto 18" terrorist leader denied parole

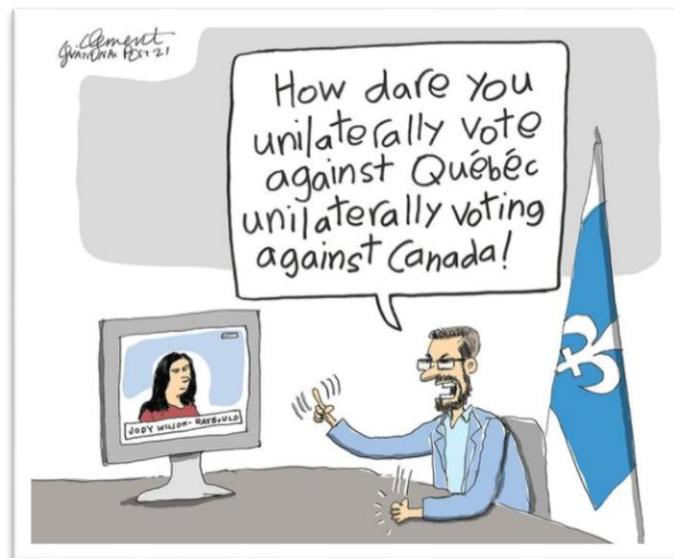

The ringleader of the former “Toronto 18” terrorist group has been denied parole. At a hearing on Friday, the Parole Board of Canada denied Zakaria Amara’s request for day parole, saying there is not sufficient proof he is fit to be allowed in public. In 2006, Amara and 17 other men were arrested for plotting to bomb various high profile targets in Ontario. The plot was uncovered just before the bombs could be placed.

Who speaks for Canada? Not Trudeau, but Jody Wilson-Raybould

This is the worst possible time to be governed by unserious people. The present government is shallow, its management is incompetent, its recklessness (Constitution, budget and vaccines) without precedent and its understanding of the whole country is fatally abridged. They know Ontario, they really know Quebec, and the rest to them is nothing but fog wheat, tundra and a kind of Disneyland — good beaches, Tofino in particular — west of The West.

Is the media narrative getting away from the facts of this story? With Candace Malcolm

The country has been shaken by the apparent gruesome discovery of the remains of 215 children found buried at a former B.C. residential school. Many in politics and media are condemning this as murder, and even genocide. Before we accept the very worst accusations against our country, we should at the very least wait for the report to be released.

<https://tnc.news/2021/06/02/is-the-media-narrative-getting-away-from-the-facts-of-this-story/>

Looking hard at history, not erasing it, is how we honour the memory of the 215

The last school opened in 1976 in Cristal Lake, Ont., well north of Thunder Bay. That school, along with six others, opened under the prime ministership of Pierre Elliott Trudeau. The Kamloops school where the remains of 215 children were found operated until 1978, ten years into Trudeau being prime minister. Do we tear down the statues of Trudeau, rename the airport and mountain named in his honour, for his part in not only perpetuating but expanding residential schools?

Proposed designs for the National Monument to Canada's Mission in Afghanistan

The National Monument to Canada's Mission in Afghanistan will recognize the commitment and sacrifice of Canadians who served in Afghanistan and the support provided to them at home. The Monument will be built in Ottawa, located on the east side of Booth Street, north of the National Holocaust Monument and across the street from the Canadian War Museum.

C3RF Update –4 June 2021

C3RF Update, 04 Jun 2021 remarks on the situational and hypocritical application of Canada's Charter rights and freedoms. How is it that some have "due process" rights that are so sacred they come with \$10.5 million awards if disturbed. Meanwhile, the soiled and sullied amongst us can go whistle unless we pay homage to government priorities, policies and pieties. It's a buffet for some and bread and water for others. Wouldn't be so bad if it's was just us grown-ups that were being deprived. Unfortunately, the powers-that-be have set their sights on our kids and grandkids as they force experimental vaccines into their arms without so much as a parental nod. Time to fight back?

[C3RF Update, 04 Jun 2021 – Fries with your Charter Rights?](#)

Vaccine Notice of Liability – Parents/Child

We need all hands on deck to protect our children from this harmful and deadly "vaccine". School officials, staff and volunteers, are not medical

professionals and, therefore, they are unlawfully practicing medicine by prescribing, recommending, and using coercion to insist that students take this experimental medical treatment.

COVID-19 UPDATE

The manufacturing of fear

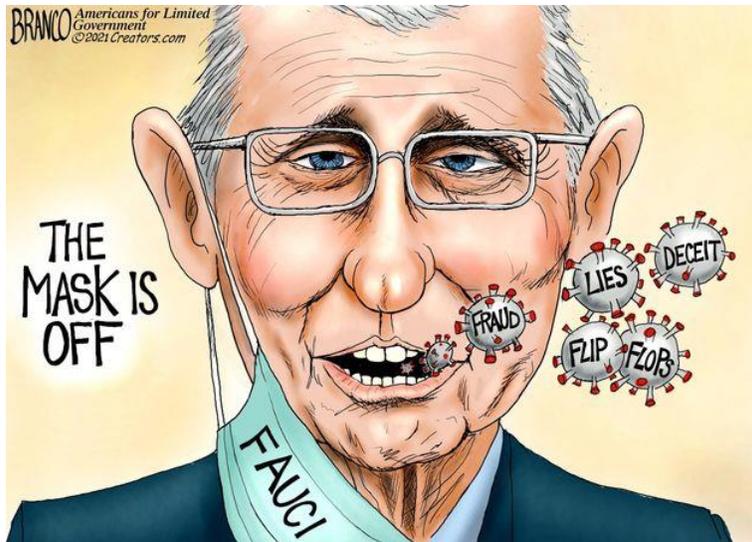

Be afraid. Be very afraid. That is how the media approached Covid. The media have a responsibility to inform us. But they also have a responsibility to be balanced. That didn't happen when Covid first emerged in China. And it didn't happen when it hit the UK. Instead, we were treated to contextless coverage of daily death tolls. Add this to the ghoulish headlines and the scary graphs, and the media had left us adrift in a monoculture of fear. Some of the people I interviewed told me about the considerable negative effect this coverage had on their perception of the world, not to mention their mental wellbeing. The media should serve the public. But over the past year, they have been terrorising us.

Should COVID now be called the 'Fauci Flu'?

The past weeks have rubbed some of the glitter off Fabulous Fauci, the god of all things COVID. Dr Anthony Fauci has been the face of America's COVID response, the all-knowing, all-powerful savior of civilization. For the past year, he has graced magazine covers and was nominated as one of the sexiest men alive. Lately, he is not looking so fabulous, with other adjectives coming to mind such as incompetent, corrupt, conniving, and dishonest. As a trove of his email correspondence recently surfaced, COVID could be renamed as the "Fauci Flu."

https://www.americanthinker.com/articles/2021/06/should_covid_now_be_called_the_fauci_flu.html

What is Gain-of-Function Research?

Gain-of-function research refers to the serial passaging of microorganisms to increase their transmissibility, virulence, immunogenicity, and host tropism by applying selective pressure to a culture. Regardless of the true origin of SARS-CoV-2, the pandemic has demonstrated that global infrastructure is largely unprepared for such an outbreak, and many scientists argue that gain-of-function research could have predicted and allowed the world to better prepare for the outbreak.

Sorry But I'm Not A Lab Rat

Have I had the vaccine? Me? Get vaccinated with a non-vaccine that hasn't got the green light from the FDA? Something that is experimental? To protect me from something that failed to kill 99.6297 percent of people in my "vulnerable" age group (65-85) who were infected? Why must I book passage on the Titanic's maiden voyage? Don't you think it would be prudent to wait until the ship has had a dozen trans-Atlantic voyages under its belt?

The Forced COVID-19 Vaccination of Children: A Crime in Progress

Healthy children and young adults do not need to be vaccinated against COVID-19. Nevertheless, the current administration vaccinates them without informed consent and even using direct coercion (like giving the choice: vaxx or wear a muzzle). About 200,000 kids 12-15 are injected daily. This rate has been sustained since the start around May 12. Additionally, they continue vaccinating older teenagers.

Governments need to stop playing God

Perhaps the bigger problem is that many Western politicians simply do not know their place. In liberal democracies, governments are supposed to recognise there are limits to how they wield power. Yet our rulers seem to believe that if they ordain a suspension of social life by fiat, society will respond in lock step and viral spread will either be shut down or reduced to a trickle. The suspension of social life has done enormous harm.

THE COVID CULT: The United Nations, Nuremburg Codes and Murder

Americans have become soft...life has been good since WWII. The majority of our citizenry didn't notice the slithering snakes of communism over the last 180 years. There were no long lines, no shortages, but then came fear, sold to us by the enemies of freedom. The public complied, they locked down, wore their masks, quarantined, lost their businesses, saw communists destroy cities and businesses, with nary a complaint. Suicide, drugs, alcohol and domestic abuse rose exponentially. The cost of the shutdown was worse than the government lies about Covid-19.

Physicians, scientists believe doctors' group deserves Nobel Prize for finding 'most powerful COVID-19 killer known to science'

Ivermectin's parent drug company Merck owned the patent, but it expired in 1996. Consequently, Ivermectin can be found for a price measured in cents or dollars, rather than hundreds or thousands. Dr. Carvallo summarized the reason for the censorship: "I am afraid we have affected the most sensitive organ on humans: the wallet". In contrast, Gilead-produce Remdesevir, the "only anti-viral treatment for hospitalized COVID-19 patients approved by the NIH COVID-19 Treatment Guidelines Panel," costs \$3,000 per dose.

FREEDOM OF SPEECH

Why free speech matters

The most depressing aspect of writing a book in defence of free speech in the current climate is that those who would benefit most from reading it almost certainly never will, unless it is to misrepresent its contents for ideological purposes. With that in mind, it is worth emphasising that the central argument of my book is for social liberalism and civil discourse, and is not to be taken as any form of support for bigotry or abuse. As I point out, the defence of freedom of speech is our most effective guarantee of equal rights for marginalised groups, and is the only way to see bad ideas successfully refuted.

FBI harasses MassResistance. Agents come unannounced to our Organization Director's home to interrogate him.

The Federal Bureau of Investigation (FBI) has a sordid history of targeting those it disagrees with politically. In recent years that has been Republicans and conservatives. President Trump and General Michael Flynn are only two of its more prominent victims. It is not an exaggeration to say that this so-called "law enforcement" organization has become reminiscent of the East German Stasi and the Soviet Union's KGB. A visit from the FBI can be the beginning of a nightmare for a citizen.

Big Tech's 'No Free Speech' Amendment

Big Tech engaged in blatant election rigging and voter suppression in the 2020 election. And it's marginalizing and suppressing the views of half the country from the marketplace of ideas. Its front group laughably claims that it's suppressing half the country in the name of free speech. A true net neutrality applied to the CCIA's Big Tech bosses would "preserve free speech, access to information — and democracy." Florida's move is a good first step in the war to take back free speech on the internet and force platforms to host political speech in an open and neutral way.

FACEBOOK

Zuckerberg Infected Voting Integrity

Facebook, with the CTCL, was also part of the effort, providing a **guide and webinar** for election officials on how to engage voters. Included were directions to report “voter interference” to Facebook authorities. The company also provided designated employees in six regions of the U.S. to handle questions. Together, the groups strategically targeted voters and waged a voter assistance campaign aimed at low-income and minority residents who typically shun election participation, helping Democratic candidates win key spots all over the U.S.

Facebook Shuts Pro-Israel Jerusalem Prayer Team Page After Anti-Semites Flood Site With 800,000 Hateful

With no prior warning, Facebook shut down the Jerusalem Prayer Team (JPT) page, which at the time was the 22nd most-liked page on the social media platform. Facebook officials refuse to explain why they shut down a page with more than 77 million followers after an unprecedented avalanche of anti-Semitic comments suddenly appeared on it as thousands of Hamas missiles were launched from the Gaza Strip at Israel.

Get it before it's banned: New book about trans athletes taking over women's sports

I'm so proud our latest book. It's called *Unsporting: How Trans Activism and Science Denial are Destroying Sport*. It's co-authored by former Canadian track champion **Linda Blade** and our dear friend **Barbara Kay**, the *National Post* columnist. It's powerful. It's fact-packed. It's persuasive. It's also compassionate. And it stands up for girls and women. Which is why I'm certain this book is going to be banned very soon.

The unbearable annoyingness of Pride

Pride in oneself is the highest virtue in the identitarian era – very odd to those of us who were taught that pride is a sin – and this poses zero threat

to the ruling class. On the contrary, they celebrate it, they fund it, they *cultivate* it, because a hyper-individuated populace that spends more time marvelling over their own navels than they do making political connections with their colleagues or neighbours is a very desirable thing to the rulers of society.

THE MEDIA

ABC News Reporter Was Blunt About Trump, COVID, and the Wuhan Lab Leak Theory

It's *now* a story. It's *now* something that should be investigated by our intelligence agencies. The Wuhan lab leak theory is being peddled as if the media never dismissed it in the first place because the Trump administration ran with it. Every story these clowns do should come with an apology for why they ignored it and why they're wrong. They cannot gaslight us on the Wuhan lab leak story. This isn't breaking news or anything that should shock these people. They knew and ignored it to achieve a political aim. Period. Even out of office, Donald Trump continues to beat these people's faces into the dirt.

Rashard Turner, the founder of a Black Lives Matter chapter in neighboring St. Paul, said he started the branch in 2015 but became disillusioned roughly a year after becoming "an insider" within the left-wing organization. "After a year on the inside, I learned they had little concern for rebuilding black families, and they cared even less about improving the quality of education for students in Minneapolis," Turner said in the video. "That was made clear when they publicly denounced charter schools alongside the teachers union.

THE ENVIRONMENT

EPA says it will declare a desert flower an 'endangered species' that could halt a mine necessary for electric vehicle batteries

The idiotic and expensive plans to force electric vehicles down the throats of drivers have run into an obstacle created by a law that environmentalists demanded. You can't have electric vehicles without lithium ion batteries, and you can't build all those car batteries without a supply of lithium, which some warn will be inadequate soon. Lithium is far from the only problem that makes electric vehicle conversion plans a total fantasy. Electricity production would have to vastly increase, and solar or wind just can't provide that kind of power. Burn more coal? Natural gas? Nuclear power? How about those new factories to build those cars and batteries?

The Oldest Hatred now Fulminates and Flourishes at 1600

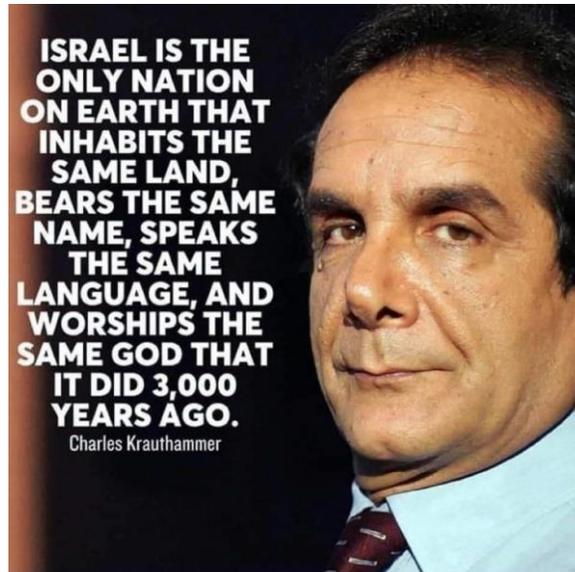

You remember BLM—the Marxist terrorist group rampaging across the U.S. for the past year and responsible for about \$2 billion in property damage, devastating arson, widespread theft, the injuries of more than 240 police officers and destruction of hundreds of police precincts, upward of 30 murders, and the defacement and vandalizing of synagogues, at which they screamed “F... the Jews and Kill the Police.” *That BLM! That Joe Biden!* Interestingly, they never seem to wonder why it is that out of eight-billion people in the world—including 2.2-billion Christians, approximately one-billion Protestants, and 1.8-billion Muslims (the majority in 49 countries), they cannot deal with or destroy the 15-million Jews—seven-million in the U.S., seven-million in Israel, and about one million around the world.

UNITED KINGDOM

The failure to tackle grooming gangs is a national scandal

Police have time to virtue-signal on Twitter, but not to tackle the systematic exploitation of young girls. Much of this damage has been caused by cases where racial sensitivities were prioritised over the facilitation of justice. Under aged white girls – often from dysfunctional family backgrounds and belonging to the care system – were viewed as lost causes. The delivery of justice for sexually exploited girls has been sacrificed on the altar of political correctness.

The elected Democrats have declared war on America in every way possible, and the Republicans do precious little to stop them. They act as though their hands are tied. Would it kill them to unite as a party and fight for what is right? Americans Need To Realize What Time It Is In This Country And Get On Their Knees – Excellent video

The left's refusal to learn from history is nothing new.
