### **Canada: University Uses Critical Race Theory to Fight ‘Islamophobia’**

The term “Islamophobia” is an illegitimate conflation of two distinct phenomena: crimes against innocent Muslims, as in the case of the Afzaal family, which are never justified, and honest analysis of the motivating ideology of jihad terror, which is always necessary. Islamic advocacy groups and their leftist allies have been insisting for years that such analysis, too, constituted “Islamophobia.” Such analyses are what Left-fascists want to stamp out.

## **Censored Docs On Deadly Viruses Stolen From Winnipeg Lab To Wuhan Released By Canadian Authorities**

Qiu and Cheng were last publicly seen at a memorial service for Dr. Frank Plummer, the former head of the national lab who died in February 2020. Canadian scientist Frank Plummer who headed the NML ended up dead a week after *GreatGameIndia's* report on the RCMP investigation was published. Plummer is associated with another key individual to our investigation – the Dutch virologist Ron Fouchier. Known as the creator of the world's deadliest virus, Fouchier isolated the SARS Coronavirus and smuggled it out of Saudi Arabia, which was then sent to Frank Plummer.

## **Pastor who kicked out COVID police in Canada roars into Manhattan**

The obvious absurdities of COVID restrictions infuriate Pawlowski, who sees an evil agenda behind the contradictions. "In Canada to this day, prayer is illegal. But you can go to IKEA and abortion clinics and marijuana stores. I could bring my whole church to IKEA and have services there. But if one person comes to my church, I can be arrested. This is not about a virus! It's about control."

"I have millions in penalties and may go to jail, but you don't see me depressed or terrified. Joan of Arc said, 'Act and God will act.' I pray we will rise up like a pride of lions. When a lion roars, other lions are attracted."

## **Time to debate cancel culture**

A statue of Britain's wartime Prime Minister Winston Churchill was defaced outside Edmonton city hall last week. For those whose pathetic grasp of world history doesn't include the Second World War, here's a refresher. Churchill stood up to real fascism when the world was threatened by a

totalitarian regime that murdered millions in death camps. It's not up to hooligans to define this country. Millions of Canadians fought for freedom in that war. Thousands gave their lives. They looked to Churchill as a leader. That's why he was honoured.

## **Only 'fully vaccinated' travelers may skip Canada's mandatory two-week quarantine**

Allison Kindle Pejovic, a lawyer for the Justice Centre for Constitutional Freedoms (JCCF), told LifeSiteNews that distinguishing between vaccinated and unvaccinated punishes the latter. "Canada's statement that it intends to relax the quarantine hotels and 14-day quarantine rules for the vaccinated population creates a two-tiered society which punishes those who do not wish to or cannot receive the experimental COVID-19 vaccines," she said.

## **Practicing surgeon and professor fired by College of Medicine for voicing safety concerns about COVID shots for children**

Dr. Christian's suspension comes just days after he issued a statement warning of the risks of giving the experimental COVID-19 injections to children. "Both the western world and the idea of scientific inquiry itself is built to a large extent on the principles of freedom of thought and speech. Medicine and patient safety can only regress when dogma and an elitist orthodoxy, such as that imposed by the Saskatchewan College of Medicine, punishes doctors for voicing concerns," Mr. Cameron concludes.

## **There are much better explanations for the 200+ deaths at Kamloops Indian Residential School**

The overall point we want to make about the reporting on the discovery of 200+ bodies at the Kamloops Indian Residential School, is that Canada's media are extremely biased, lazy and irresponsible. All are clamouring for an apology from the head of the Catholic Church, Pope Francis. If anyone should be apologizing to Canadians, it should be the loudish Canadian media. After all, Canada's federal government gave our private media hundreds of millions of Canadian taxpayer money in subsidies in the past two years to keep them afloat. Shouldn't Canadians expect some sense of responsibility in return? Apparently, the subsidized media don't think so.

## **The Liberal Party of Canada: Following the Democratic Party Template**

In Canada, the decision-making process in government is also becoming a mirror image of the approach of their Democratic brethren: whatever their predecessor supported (and Stephen Harper was a great friend to Israel), Liberals have worked very hard to reverse, in the same manner as Democrats' every decision seems to be based on reversing whatever position Donald Trump adopted. Liberals are also quite prepared to embrace any policy or bias that improves their chances for re-election and Liberals can count well enough to know that Muslims now outnumber Jews by a 2 to 1 margin. Hence, Jewish support matters very little in their electoral calculus.

## **Canada's Senate Has A Chance To Redeem Itself By Stopping Bill C-10**

If you can control the internet, you can control a society, and slowly move to criminalize your political opponents and narrow the bounds of 'legitimate' political debate and expression of opinion. While governments are usually excited to brag about their legislation, the Liberals seemed ashamed of C-10. And, in a final affront to Canadians, they passed it in the middle of the night: *"At 1:30 am, Bill C-10 passes 196-112."*

Canadian Prime Minister Justin Trudeau's government [proposed](#) legislation on Wednesday, Bill C-36, that is aimed at combating "hate speech" and "hate propaganda." ## **C3RF Update – 25 June 2021**

C3RF Update, 25 Jun 2021 likens Canada's transition from a liberal democracy to a police state to the Neil Young song that spoke of going "out of the blue and into the black". Forget about the creative and free "blue" spaces the country used to inhabit, it seems we now occupy a Wuhan virus landscape that is both restrictive and centrally controlled. Thing is, the narratives that are keeping us in a "black" space are quickly falling away as the pesky truth of things just keep surfacing. It looks like the truth really is a lion that is fully capable of defending itself.

"Major Cooper In Hot" is a new C3RF video venue that sees major Russ Cooper (Ret'd) rolling "in hot" on issues related to our own, hard-won fundamental Charter Rights and Freedoms. In the first such session he teams up with problem-solver and national treasure, Julius Ruechel, to attack the false narratives surrounding the Wuhan virus lockdown and vaccine roll-out strategies. Julius Ruechel proves to be an able wingman as his related, published analyses, prove more potent than bombs, rockets and cannon fire in demolishing the lies and misinformation surrounding the need to stop-up our economy and civil liberties - even as our children are placed in jeopardy with experimental gene therapies

# COVID-19 UPDATES

*"There will be, in the next generation or so, a pharmacological method of making people love their servitude, and producing dictatorship without tears, so to speak, producing a kind of painless concentration camp for entire societies, so that people will in fact have their liberties taken away from them, but will rather enjoy it, because they will be distracted from any desire to rebel by propaganda or brainwashing, or brainwashing enhanced by pharmacological methods. And this seems to be the final revolution."*

## **Vaccines: When the Boomer generation's wisdom meets the Millennials' will to submit**

What explains this maniacal drive to criminalize doctors with more impressive credentials than Fauci's? That man has not seen a patient in over thirty years. Fauci has lied to the Senate and the public since January

2020. He suppressed the millions of doses of HCQ that Peter Navarro had acquired and would have possibly saved hundreds of thousands of lives.

Fauci did the same when he meddled so destructively in the AIDS crisis and refused medication to about 20K afflicted gay men that might have saved their lives. The man has the blood of hundreds of thousands of lives on his hands. He should be in prison.

## **Fear Is Contagious and Used to Control You**

Governments are using fear to control and manipulate their citizens. That has now been admitted by members of the Scientific Pandemic Influenza Group on Behavior (SPI-B), a subcommittee that advises the Scientific Advisory Group for Emergencies (SAGE) in the U.K. And they should know, because they advocated for it, and now say it was a regrettable mistake.

## **Renowned Pathologist: Myocarditis Diagnoses Should Halt Covid Vaccine (Interview)**

Dr. Roger Hodkinson makes it clear that physicians are under incredible pressure to keep their mouths shut or lose their livelihoods. “In my profession, the colleges petrify individual physicians. I’m using that word advisedly. Petrify,” he warned. “Because at the click of a finger, you can lose your livelihood, and it’s almost impossible to get it back. And it will bankrupt you...” The physician continued to powerfully place blame on anyone who is silent but knows better:

## **Inventor of mRNA Interviewed About Injection Dangers**

In the video above, DarkHorse podcast host Bret Weinstein, Ph.D., an evolutionary biologist, interviews Dr. Robert Malone, the inventor of the

mRNA and DNA vaccine core platform technology and Steve Kirsch, an entrepreneur who has been researching adverse reactions to COVID-19 gene therapies. Malone is the scientist that actually invented the technology that makes the COVID jab possible and he spills the beans on just how this introduction has been ethically compromised to make informed consent absolutely impossible for the average person.

## FREEDOM OF SPEECH

*"Free speech is hate speech and hate speech is free speech. It's for the speech you hate, the speech you revile that the alternative to free speech is 'approved' speech and that necessarily means approved by who?"*  
~ Mark Steyn ~

### Hating on Speech

In this episode, we look at Justin Trudeau's attempt to bring back section 13 of the Canadian Human Rights Act – an anti-free speech law Mark worked tirelessly to have repealed a decade ago – as well as the latest in Chinese infiltration. We also recognize a non-wanker copper in Manchester,

and speak to People's Party of Canada leader Maxime Bernier about his arrest by wanker coppers in Her Majesty's overseas dominion.

## **Bosch Fawstin - Drawing Muhammad - Does Islam Have a Sense of Humour?**

Bosch was born into a Muslim family but rejected Islam when he was 16. Since he was a child he had natural artistic flair and he has used that creativity to mock and ridicule Islam and to promote Free Speech. He has probably drawn Muhammad more than any other artist. Bosch came to public attention in 2015 when he was the winner of the AFDI Mohammad Cartoon Contest, organised by Pamela Geller and Robert Spencer. As he accepted the award in Garland, Texas, two Muslims tried to kill him but were shot dead by undercover cops.

## **HUNTED: The Relentless Persecution of Louis Duxbury (Duckie) – this is a MUST WATCH**

The 2017 murder spree to which Duckie responded on Facebook was conducted by three Islamic terrorists, claimed the lives of 11 people, and injured 48 others (21 critically). It was the third Islamic terror attack to take place in London in 2017. A young medical student, Louis Duxbury, 20 years old at the time, was worried about his girlfriend during the terror attack and vented his frustration on Facebook. The video he created was full of anger towards authorities and jihadists. This same young man has no history of violence. He has friends of all nationalities and religions who have been willing to repeatedly testify on his behalf. But after fellow student Matthew Dace reported the video, Duxbury was expelled, arrested and thrown into prison.

## **The hatred behind Stop Funding Hate**

So what is to be done? One possible solution would be to play in the game Stop Funding Hate is showcasing. In that world, a small group of us would single out Stop Funding Hate, pointing out that it is a hate-group — because it hates the free press, among much else. We could then go a step further, and target any and every company that has ever cooperated with such a hateful group. We could lobby, petition and harass them, while stressing that Stop Funding Hate is racist, homophobic, sexist, misogynistic and much more. At this stage, facts or details needn't matter, for the winds of righteousness would be beneath our wings.

# **NEW WORLD ORDER**

## **A Beginner's Guide to the UN New World Order**

Even though the term New World Order [NWO] has been popping up in the media every now and then for over 30 years, few people could tell you what it actually means. Perhaps the most visible expression of the NWO is the United Nations. It was founded in 1945 to "unite nations". We are asked to believe this has a benign purpose, but think about it. If all nations are "united" then independent sovereign nations will cease to exist. We would end up ultimately under the control of a One World Government with power further and further removed from individual citizens.

As everything is political these days, another transgendered athlete, qualifying as an alternate on the US cycling team, summed it up. ### **Saudi Crown Prince Mohammed bin Salman rattles Muslim clergy, challenges sources of sharia**

This is huge. Those of us who have had hopes that Saudi Arabia can be transformed from a sponsor of hard-line jihad into a modernizing force in the Islamic world have cause for optimism. I have from the start of his reign seen Crown Prince Mohammed bin Salman as attempting something similar to what the Meiji reformers did in Japan, following its 19th-century opening to the West. I am guessing that he and his advisers have studied their success closely, for he is adopting the same basic approach: labeling modernization as a "restoration."

The Democratic Socialists of America have several members in the US congress and well over a hundred in state and local government. In Nevada DSA has taken over the state Democratic Party and is in process of doing so in Florida, New York, Texas and several others...Maybe there would be more outcry about this state of affairs if more people realized that DSA is a communist organization with strong ties to hostile foreign communist organizations. ### **Pro-Trump Jan. 6 'political prisoners' rotting away in dedicated DC prison, without bail or trial**

According to leftist journalist Glenn Greenwald, this repeated formulation of an "armed insurrection" is "crucial" for the Democrats, not only because it attempts to maximize fear of the party's political adversaries but because it "empowers the state with virtually unlimited powers to act against the citizenry." "What we know for sure is that no Trump supporter fired any weapon inside the Capitol and that the FBI seized a grand total of zero firearms from those it arrested that day — a rather odd state of affairs for an 'armed insurrection,' to put that mildly," he concluded (source).

Joseph Bolanos is bereft. He has not been charged, and insists he has committed no crime. But like thousands of other law-abiding Americans who went to Washington on Jan. 6 to see the president speak, his life has been ruined by a hysterical witch hunt for phantom domestic

terrorists. The violence that day was terrible and those responsible are being prosecuted to the full extent of the law, as they should be. But the overkill stinks of the sort of political purge you see in Communist China. Meanwhile, the violent rioters and looters of the "Summer of Love" continue to get off scot-free. ### **What do Cancel Culture and the #IslamophobiaIndustry have in common?**

What do Cancel Culture and the #IslamophobiaIndustry have in common? An unholy alliance in their desire to destroy Western culture and the Judeo/Christian ethic upon which it stands, by bullying us into obedience and silence. They both try to silence objections by screaming *racism* when you disagree with their world view. In both ideologies, there is no acceptance of the teaching that all people are born with equal intrinsic value and all life is sacred. Together Cancel Culture and Islamophobia will destroy freedom.

### **The Books Are Already Burning The question is only: How long will decent people stand by quietly and watch it happen?**

Fear of ostracism is rational. But we are now living in a world in which evolutionary biologists are threatened with losing their platforms for engaging in debate about the source and treatment of a deadly virus; in which prize-winning composers have been professionally ruined for saying arson is bad; in which authors are editing already-published books to placate online mobs. That should scare us far more than losing friends or status.

That is precisely the reason it is so important to stand up and say: no. To say: progress comes only when we have the freedom to disagree. To say:

It is outrageous that tech platforms are censoring such debates and that some journalists are cheering them on. To say, in public: enough. In my case, that means making sure to publish those voices who have been shut out of so many other channels that ought to be open to them.

## **The world's most dangerous terrorists**

Hezbollah is the most successful terror group in history. The Lebanese Shia militia may not have conquered as much territory as ISIS nor attracted so many recruits, but since its founding in 1985 it has fought Israel for almost 40 years, and it has fought it well. In May 2000, Hezbollah expelled the IDF from the "security zone" it had occupied in South Lebanon for nearly two decades; in 2006 Hezbollah then fought it to a military stalemate. In doing so, the "Party of God" did more than just inflict casualties on its long-standing enemy. Since Israel's crushing defeat of the combined Arab armies in the 1967 Six Day War, no one thought an Arab force could do more than just terrorise or harass the Israelis. Hezbollah proved them wrong.

## **British imperialism didn't destroy India**

The true impact of the British relationship with India was not economic, but cultural and social. It is an undeniable fact that the political and legal

systems which constitute the machinery of the modern Indian state to this day are inherited from the British. The economic "great divergence" between the West and the rest of the world was a universal feature of the 19th and 20th centuries, not something special and peculiar to the relationship between India and Britain. Colonial rule brought relative peace to the subcontinent.
