DON'T JUST LOVE CANADA - ACT FOR CANADA!

“The real damage is done by those millions who want to 'survive': the honest men who just want to be left in peace; those who don't want their little lives disturbed by anything bigger than themselves; those with no sides and no causes; those who won't take measure of their own strength, for fear of antagonizing their own weakness; those who don't like to make waves—or enemies; those for whom freedom, honour, truth, and principles are only literature.”

After Restricting Your Personal Freedom, Governments Are Going After Your Financial Freedom

Inflation is the hidden tax governments will use to expand their power, keep the population desperate, and lower our standard of living. Let there be no confusion at this point: Governments around the world are deliberately attempting to turn their societies into more authoritarian states, seeking to restrict personal freedom and turn back the rise of free speech that the internet has enabled.

In Canada, Liberty at the Covid Crossroads

Canada is now a dictatorial regime, in many ways reminiscent of the former Soviet Union. And the Charter of Rights and Freedoms is cosmetic cover for the enactment of political absolutism. Grey areas don't mean much to citizens who have been deprived by government decree of their constitutional right, however moot, to participate in common life, travel, work and enjoy the fruits of now-threatened liberty

Vaccine Passports Will Create a 'Global Digital Infrastructure of Surveillance'

Vaccine passports mandated by governments will create a highly intrusive surveillance system that not only forces Canadians to reveal their health information but can also track their whereabouts.. "Privacy forms the foundation of our freedom. If you value freedom and liberty, you value privacy," she said. "We have to stand up for our freedom and we have to stand up for privacy."

'It's absolutely appalling': Unvaccinated Canadians become social outcasts and the new persecuted minority

PM Trudeau said all federal workers would be compelled to get fully vaccinated but, as it turns out, that's not the case. According to an article in the Toronto Sun, roughly 70% of the federal workforce will be exempt from getting vaccines, including: federal judges, meat inspectors, park wardens, postal workers, tax auditors, Commons and Senate staff, soldiers, sailors and air force personnel, and Canada Post employees, among others. Canada doesn't even pretend to follow logic any longer. Just full-on medical fascism for the majority of Canadians.

China-Compliant Canada Protects the Pathogen Pipeline

After getting fired from the National Microbiology Lab and Public Health Agency in Winnipeg, Chinese agents are still on the job. Dr. Qiu maintained close relations with four institutions involved in China's biological weapons development, including the Wuhan Institute of Virology (WIV). On one of her many trips to the WIV, Dr. Qiu dropped off a cargo of deadly pathogens, including Ebola and Nipah viruses. When the "policy breach" became public, the Royal Canadian Mounted Police (RCMP) escorted Dr. Qiu and her husband Keding Cheng from the NML and they haven't been seen in public since February of 2020.

Legal Group Sues Ontario Government Over Vaccine Passport Mandate

In a statement, Jorge Pineda, staff lawyer at Justice Centre for Constitutional Freedom, said Ontario's vaccine mandates are "ethically wrong" and "illegal," and the group plans to argue in court that the

measures “take away the long-standing rights of citizens to make informed decisions about their own medical care.” “The Supreme Court of Canada has found that the Charter protects the right to bodily autonomy and informed consent; this is the law, and it is indisputable,” Pineda said.

Assisted dying: a warning from Canada

Our society needs to place more value on humanity, in all its forms. We should trust doctors to do everything they can to help people live and thrive instead of giving patients a ticket to their death. We should concentrate our efforts on offering everybody as peaceful, pain-free and dignified a life as humanly possible.

Charter is being “violated and abused” by COVID policies: former Newfoundland premier

Brian Peckford is the last living premier involved in the construction and adoption of the Charter of Rights and Freedoms. Now, the former Newfoundland and Labrador premier says the Charter and parliamentary democracy are being “violated and abused” by governments whose pandemic policies have taken aim at freedom of expression, freedom of assembly, and other Charter-guaranteed rights as well.

C3RF Update 22 October 2021

This week's update takes a look at the failure of political, medical and educational authorities to live up to their oaths of office. The end result is the re-focusing of priorities away from the individual and towards narratives that benefit well-heeled and monied corporate entities and/ or voting blocs. In the end, Charter-guaranteed individual rights are sacrificed for the "common good" and related agencies "redline" as the bond of sacred trust between them and John and Jane Q Public is broken. How long before that same public says NO!?

Advance Medical Directive

If you are concerned about the possibility of one day ending up in the hospital as a result of an emergency and being administered the jab without your permission, then print off and sign this Advance Medical Directive and attach it to your medical card. It clearly states your non-consent to ANY COVID-19 vaccination, testing, ventilators or Remdesivir as is your right, should you be hospitalized and unable to verbally communicate with the medical professionals. Also, if you need treatment for COVID-19, you choose to use effective alternatives such as antivirals, vitamins C & D3, quercetin, zinc, HCQ, ivermectin and inhalers.

COVID-19 UPDATES

Just because Klaus Schwab and Thierry Malleret and their friends say that we are now entering the Fourth Industrial Revolution and our world will be changed for ever, this doesn't mean that it is so. We don't have to accept their New Normal. We don't have to go along with their fearmongering. We don't have to take their vaccines. We don't have to let them implant us with smartphones or edit our DNA. We don't have to walk, muzzled and submissive, straight into their transhumanist hell. We can denounce their lies! Expose their agenda! Refuse their narrative! Reject their toxic ideology! Resist their fascism!

Why are Covid-19 Treatments so Controversial?

Viagra began life as a high-blood-pressure medication. Hair-restorer Rogaine was originally an ulcer pill. The sleep aid Trazodone was intended as an anti-depressant. Medical history is filled with stories of repurposed drugs yielding useful or even miraculous results. Yet in the midst of a global pandemic that has taken millions of lives, innovation of this sort has become all-but officially forbidden. Dedicated physicians seeking new ways to treat their patients during the early stages of Covid-19 using inexpensive over-the-counter or repurposed medications have been harassed and bullied by the scientific/medical/regulatory establishment.

COVID is not serious enough to warrant vaccine mandates

For the vast majority of the world's population, COVID is nothing more than a day or two of the sniffles. It's just not a serious disease that calls for mandates for mass vaccination. It's true that COVID is very contagious, but

so is the common cold, and no one ever thought of shutting down the world before to prevent people from catching the sniffles.

Aborted fetal cells and vaccines – a scandal much bigger than Pfizer’s whistleblower ever imagined

The fetal cells referred to in Pfizer’s emails were HEK293T cells, obtained from the kidney cells of a female fetus in 1973. In reality, all the currently authorized COVID-19 vaccines are made using aborted fetal cells, including Moderna’s. Moderna also used HEK293T cells in their proof-of-concept tests to see if the genetic instructions contained in these vaccines would be effectively taken up and produce the required spike protein. The use of aborted fetal cells in vaccine production has been going on for over 50 years, starting in the mid-to late 1970s. Antigens for several childhood vaccines are grown in aborted fetal cell lines MRC-5 and WI-38.

The Unvaccinated Are Looking Smarter Every Week

As time has passed with this pandemic and more data accumulates about the virus and the vaccine, the unvaccinated are looking smarter and smarter with each passing week. It has been shown now that the vaccinated equally catch and spread the virus. Vaccine side effect data continues to accumulate that make the risk of taking the vaccine prohibitive as the pandemic wanes. Oral and IV medications (flccc.net) that work early in the treatment of COVID-19 are much more attractive to take now as the vaccine risks are becoming known, especially because the vaccinated will need endless boosters every six months.

Mandate or Freedom: An open letter to corporate CEOs

Are you going to order your employees to take the COVID vaccine? Are you going to fire those who won't? Are you going to take away their freedom, for a vaccine that has already caused 700,000 injuries? And by the way, that number represents vast underreporting. The well-known Harvard Pilgrim study concludes vaccine injuries should be multiplied by 100 to arrive at a true number.

Pfizer Whistleblower Reveals Why She Finally Decided to Come Forward

Melissa McAtee, a quality auditor at Pfizer, said in a Project Veritas interview made public last week that internal Pfizer emails from high-level employees instructed workers not to reveal to the public the role aborted fetal cells played in the development of its coronavirus vaccine. "We want to avoid having the information on the fetal cells flouting out there," one email read, which added that the company looked to steer clear of raising the issue to policy makers and the media.

A Viral Conversation with a True Believer

"We're all in this together" has been endlessly repeated throughout the pandemic – often in the same breath as we're told to stay home and are barred from interacting with nearly anyone or doing any of the things we once did "together." Far from bringing us together, one of the perverse aspects of society's response to Covid-19 has been to drive people of different views even farther apart. Preserving one's intellectual elbow-room to think and judge has been hard enough for independent minds like David

Solway. Even harder, and far sadder, has been attempting to converse with people who could benefit from a few fresh thoughts.

The media described ivermectin as horse dewormer or animal paste, seemingly unaware that it is an FDA-approved medication for human use and was once honored with a Nobel Prize. THE GLOBAL RESET

The Specter of One World Government Looms Large

The U.N.'s Agenda 2030 is still in place, and the clock is ticking toward its empowerment — only eight years and two-plus months to go. This Agenda is for a new world government, which will implement the policies of the Agenda. This new government on our horizon explains many of the failures in policies in these first months of the Biden administration. The failures are based not so much on mistakes as on deliberate sabotage to weaken our country, dilute the power that undergirds our sovereignty, and prepare us to accept one-world government.

https://www.americanthinker.com/articles/2021/10/the_specter_of_one_world_government_looms_large.html

How does a Great Reset get accomplished?

What is the Great Reset? It is a global campaign to consolidate control over economies and governments under a single umbrella, and it's on the agenda. The Great Reset is no conspiracy. Proponents told us what they were doing at the World Economic Forum, the International Monetary Fund, the United Nations, and more. From John Kerry to Al Gore to Joe Biden's own campaign slogan, Build Back Better, U.S. politicians have advertised their implicit participation in this global movement to hijack capitalism in the name of global societal planning.

FREEDOM OF SPEECH

Lars Vilks, Lonely Hero of the 'Cartoon Wars'

When historians come to write their histories of the early 21st century, one of the strangest parts to understand may be the chapters on the “cartoon wars” — a phenomenon that people of the time actually talked about with a straight face. Even with dread. These wars spilled out from a single Danish newspaper’s publishing of cartoons of the prophet of Islam in 2005, after which embassies and people were attacked and mobs had their way. whatever our societies might like to profess — the sword, or rather the scimitar, is in fact mightier than the pen. Those people in the cultural and artistic worlds who have accepted that are flourishing. It is the people who would not accept it who are dying out.

Mark Levin: AG Garland signed 'one of the most egregious violations of your liberty' with school board memo

Mark Levin told viewers the memo will likely go "down in history as one of the most egregious violations of your liberty." "Make no mistake," he went on. "Parents in this country, they will spy on you, they will gather intelligence on you; they will track you and the organizations you belong to. A special phone number is set up so a teacher or a bureaucrat or a union or whoever thinks if you're threatening or harassing them they will set loose the FBI to come to your home and interview you."

ANTIFA/BLM

Driving Thumb-Sucking Antifa Activists Out Of Their Smelly Mommies' Basements

Have any been wondering why Antifa activists haven't been 'peacefully' protesting, pillaging, rampaging and burning down shops and other private property of late? They've gone full-bore into a new kind of bullying behind the skirts of women, including Antifa activist/hacktivist, namely Nandini Jemima, aka cat woman and "what's his face" Chad Loder, until, that is, Don Bongino came along to flush them back into the sewer from which came.

Saying Ngo to Antifa

Then there are other journalists - real journalists - who, usually for chump change, risk danger, even death, to uncover the truth about Islamic terrorists, Mexican drug cartels, Russian oligarchs, and the like. Needless to say, Andy Ngo belongs in the latter group. One of the most damning indictments of today's mainstream media is that while Antifa ran amuck all over America for months on end, highly paid talking heads routinely

whitewashed the ferocity, leaving it almost exclusively to one man, Andy Ngo, to tell the world what was really going on. The reporter who knows Antifa best tells its story.

It's a miracle! Apparently climate crusaders are immune to COVID!

Getting close to the hive gathering known as COP26, the Glasgow Times passed on glad tidings that the 30,000 attending from all over God's plague-pocked world "will not need to use the Scottish government's vaccine passport system to enter the conference." If you try to eat a doughnut inside a Tim Hortons without "showing your papers," you are a reckless villain. Travel by the planeload to Glasgow, spend two weeks huddled with multi-thousands exempted from the COVID commandments, and you are a planet-saving hero.

While Western Nations Kill Energy, China Builds Coal Plants By The Dozen

The Chinese Communist Party understands that blackouts could injure its hold on power. That "the world will succeed, or fail as one" is irrelevant. The Party must go on. Chinese authorities went on to explain that "energy security" is the basis for a "modern energy system," and that, given the plentiful abundance of coal in China, "it is important to optimize" its use while intensifying domestic oil and gas exploration. In other words, the world can pound sand, we have a nation to rule.

Politicians have contorted themselves in recent years to avoid mentioning the i-word. It was the same story after Reading, London Bridge, Manchester and every other Islamist atrocity. Nasty tweets did not kill David Amess

A committed public servant has been killed in a suspected terrorist attack, but because it appears to be the wrong kind of terrorism, the one that the great and good for some reason feel deeply uncomfortable talking about, even though it is the most prevalent and deadly form of it we face today, we have spent the weekend talking about civility, social media and online anonymity. We desperately need to shake our political and media elites out of the profound moral muddle they are in. Lives depend on it.

Parents and Schools

Whether the current Administration is the most corrupt in the history of our nation, I leave to those better qualified to decide. But, as we know from the influence peddling of Hunter Biden and the recent revelations of Merrick Garland's son-in-law's business ties to the teaching of critical race theory, there is no question as to its corruption.

School parents will save America

I recently saw a yard sign that read "I don't co-parent with the government", and perhaps a truer statement was never made by an enraged parent. The actions of school systems around the country to overstep their delegated authority and dabble in indoctrinating the children have been a catalyst in the activated parent movement. Where economic lockdowns and electoral malfeasance have failed to engage much of the public, messing with the kids has succeeded. If we're to push back against the absurdities of our times and course-correct while we can, it is very likely that enraged parents will be the ones to save us.

We Got Here Because of Cowardice. We Get Out With Courage

Every day I hear from people who are living in fear in the freest society humankind has ever known. Dissidents in a democracy, practicing doublespeak. That is what is happening right now. What happens five, 10, 20 years from now if we don't speak up and defend the ideas that have made all of our lives possible? Liberty. Equality. Freedom. Dignity. These are ideas worth fighting for. If cowardice is the thing that has allowed for all of this, the force that stops this cultural revolution can

Braveheart: William Wallace Freedom Speech

Wallace: Sons of Scotland, I am William Wallace.

Young soldier: William Wallace is 7 feet tall.

Wallace: Yes, I've heard. Kills men by the hundreds, and if he were here he'd consume the English with fireballs from his eyes and bolts of lightning from his arse. I am William Wallace. And I see a whole army of my countrymen here in defiance of tyranny. You have come to fight as free

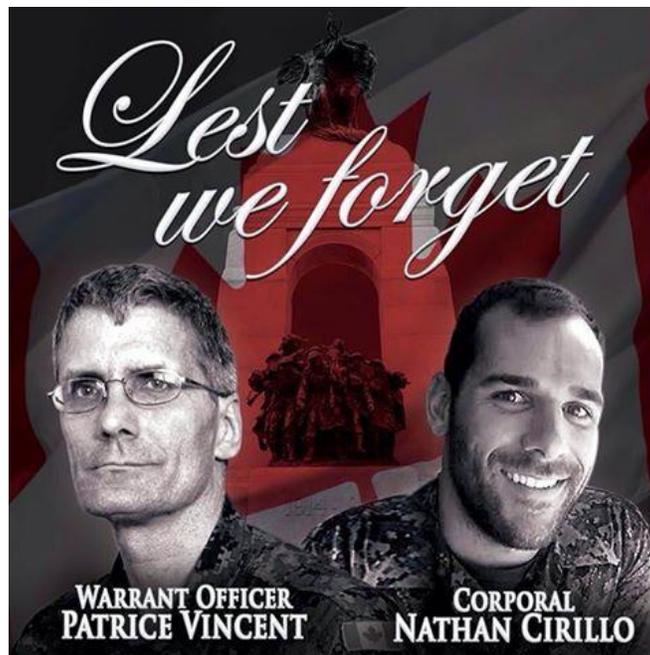

men, and free men you are. What would you do without freedom? Will you fight?

Veteran soldier: Fight? Against that? No, we will run; and we will live.

Wallace: Aye, fight and you may die. Run and you'll live -- at least a while. And dying in your beds many years from now, would you be willing to trade all the days from this day to that for one chance, just one chance to come back here and tell our enemies that they may take our lives, but they'll never take our freedom!!!
