## **Chinese ambassador urges Liberals to approve Huawei 5G tech**

Prime Minister Justin Trudeau has dragged his feet on a Huawei ban for some time now, making Canada the only Five Eyes nation to not have prohibited the company. Several telecommunications companies including Bell and Telus have already committed to not use Huawei hardware in their 5G infrastructure over concerns that Beijing could use the tech as a backdoor to spy on Canadians.

## **Do Not Support China's Huawei, Cripple It Instead**

China, with control of 5G, will be in a position to remotely manipulate the world's devices. In peacetime, Beijing could have the ability to drive cars off cliffs, unlock front doors, and turn off pacemakers. In war, Beijing could paralyze critical infrastructure. There is no mystery to how Beijing thinks it will grab control of the store. The Chinese will use Huawei Technologies. "5G" is shorthand for the fifth generation of wireless communication. In the very near future, dominating the wireless world will be tantamount to dominating the world. That is *not* an exaggeration.

## **A Glimmer of Hope: Crisis Brewing In the Ranks As More Police Officers Stand Up To Say "NO". Participate**

Do not underestimate the importance of what is going on. As more police officers around the country cross their arms and say "NO", the regime will lose the hands and boots that are required to enforce its tyranny. By standing up for our Charter of Rights and Freedoms, these brave individuals are depriving tyranny of its oxygen. Police chiefs, politicians, and public health officials cannot lock you in your homes and deny you access to your life without the active participation of all those below them in the institutional hierarchy. This is a major crack in the institutional support for this tyrannical regime.

## **New Brunswick Order Allowing Banning Unvaccinated From Grocery Stores Violates Human Rights: JCCF**

The Justice Centre said that the right to food is a fundamental human right enshrined in various international documents, including Article 25 of The Universal Declaration of Human Rights and Article 11 of the International Covenant on Economic, Social, and Cultural Rights. "Potentially depriving citizens of food constitutes an act of cruelty. It is discriminatory, unconstitutional, and likely an offence under international law. No one should be barred from the ability to purchase food to feed their family."

## **Only nine countries more restrictive than Canada with COVID measures**

Canada is the tenth most restrictive country in the world when it comes to overall government COVID-19 measures, according to the University of Oxford's COVID-19 Government Response Stringency Index. Currently, Canada's score sits at 69.91, making it more restrictive than countries such as Iran (61.57), Russia (60.65) and China (59.72).

## **Men Should Not Be Shamed on Dec. 6**

Sadly, the Montreal Massacre anniversary has become a state-sanctioned occasion for anti-male posturing. For men looking on, the message is clear. No matter how many men die in Canada and globally, whether through suicide or violence or in loving self-sacrifice, there will never be a day to honor them. Even Nov. 11 war memorials, as Lépine indicated in his suicide note, have been "equalized." While men's sacrifices for their society go unremarked, the bad behavior of a few men is magnified and made all men's responsibility.

## **Muslim-Liberal Party Caucus Speaks To The Future Of Canadian Society**

It turns out that a religious-based Islamic caucus has been established within Parliament. Cultural Action Party bets our bottom dollar that 99% of Canadians have never heard of this committee. Liberal Muslim MP's Omar Alghabra, Ahmed Hussen, Iqra Khalid and others meet on a regular basis to address Muslim community issues. A Zoom meeting posted on YouTube delivers the contents of one of these meetings. It begins with a prayer: *"In the name of God the most gracious I want to welcome everyone to the Muslim-Liberal caucus meeting."*

## **Toronto school board takes lunacy to a whole new level by Rex Murphy**

Why stop at two goals when a hat trick beckons? Marie Heinen and Nadia Murad were not enough. The latest from TDSB concerns its Integrity Commissioner, Suzanne Craig, recommending the censure of one of the board's own trustees, Alexandra Lulka. Lulka, who is Jewish, had strongly condemned a collection of "resource materials" about the Israeli-Palestinian conflict that were distributed to teachers by a student equity program adviser, Javier Davila. In a Tweet, Lulka condemned the material as being

“virulently anti-Israel and even anti-Semitic.” “I was outraged to discover that some of this material justifies suicide bombings and other forms of terrorism,” she tweeted. “This is reprehensible.

## **Conversion Therapy Bill Passed in House, Senate Without Debate or Study**

Campaign Life Coalition president Jeff Gunnarson outlines a scenario to express his concern with Bill C-4 which passed in the Senate on December 1: “Six-year-old Johnny’s progressive teacher indoctrinates the classroom with a series of gender identity lessons. One day soon afterward, little Johnny comes home and tells his parents he wants to begin identifying as a ‘girl’ and start wearing a dress and make-up to school. They gently say ‘no’ and affirm him in his biological, God-given sex. The bill’s definition of ‘Conversion Therapy’ is broad enough to include exactly this kind of scenario. Parents can now face five years in prison for this common-sense parenting,” he said.

## **C3RF Update 10 December 2021 – Lawless laws**

This week's update homes in on the careless, even lawless, passage of Bill C-4 (Conversion Therapy). The Charter and its promise to respect the "rule of law" and treat all citizens equally was blown out of the water with this legislation as some are afforded choices while others are denied. It simply comes down to whether or not those choices are in line with the preferred narrative-of-the-day and tickle the fancy of favoured voting blocs. One can't help but ask given all of the other unconstitutional mandates that the Wuhan virus is generating, why do we have a Charter at all?

[C3RF Update, 10 Dec 2021 – Lawless laws \(canadiancitizens.org\)](https://canadiancitizens.org)

The conversation on "lawless laws" continues in this "Let's Talk" session with Laura-Lynn Tyler Thompson. The interview commences at the 19:30 minute mark and delves deeply into how laws "with no force or effect" place law enforcement officials in jeopardy. After all, using the "following orders" excuse to justify such enforcement measures has already been ruled on and failed - in the 1947 Nuremberg Trials.

## **Time to Hold the LIEable Media to Account!**

The time has finally come. The Media Notice of Liability is ready to go and we are calling on all Canadians to take action!

It is time to hold the media to account! They have ethical journalistic standards to meet. When they are in violation of those standards there must be consequences. The media, all levels including the local town rag, are being used to strip Canadians of their freedoms. It is critical that we understand that without the media, the government would not have been able to pull off the biggest scam in the history of the world.

**Pentagon Source Tells UTT Covid Intentionally Released by Chinese as Bio Weapon**

Two general officers inside the Pentagon confirm the COVID virus was created at a Chinese government laboratory in Wuhan, China, was weaponized, and was intentionally released. This information comes from a source inside the Pentagon who directly overheard these conversations. The source will not go public for fear of retribution by the government. If true, the implications of an intentionally released biological weapon against the United States are massive.

## **The Fauci Who Cried Wolf**

Long after it was clear that COVID was dangerous nearly exclusively for older people and the obese, Fauci lied, just as he once lied about AIDS being a risk for heterosexuals long after it became clear that it was almost entirely a problem for gay men and intravenous drug users. Instead of devoting massive resources to shutting down bathhouses and shooting galleries to stop the spread of AIDS, and blanketing older Americans with protections in the case of COVID, Fauci repeatedly claimed that everyone was at risk.

## **A Call Out to Physicians**

Regarding the legal system, judges need to continue the process of halting the madness. A number of gutsy judges have already put a halt to vaccine mandates across the country. It is time for the rest to weigh in. The media will come after you for your decision, but you swore to uphold and defend the Constitution of the United States. Was that just for show, or do you remember the ideals you had when you entered the profession? You too need to dig deep, look at the literature and history, and ask why we are forcing people to take an essentially useless and investigational jab causing by far the most harm in vaccine history.

## **A Microchip Containing Your Vaccine Passport Information Can Now Be Embedded In Your Hand**

Once vaccines become mandatory for an entire population, vaccine passports will be absolutely necessary for anyone that still wants to live anything that even resembles a “normal life”. Petitioner has sought prosecution of AstraZeneca’s (Covishield) manufacturer Bill Gates, his partner Adar Poonawalla and other Government officials and leaders involved in the murder of a 23 year old man, who lost his life because of vaccination. But now it is up to us, the people, to resist the criminals and bring them to justice. Where are the veterans and members of the military, and those in law enforcement, who will not comply with these mandates? ## **Obsessing Over 'The Health Of The Nation' Conjures Some Very Dark Places**

Hatred of vaccine dissidents expresses itself first in marginalization and demonization. Then it advances to punishment. The larger end game appears to have little to do with public health. Canada's New Brunswick province has given food stores the right to ban the unvaccinated. Austria is proposing fines or imprisonment. True, Western democracies are not killing vaccine refuseniks. It is enough, so far, to tighten the screws gradually. But there is a stench in the air.

## **VAERS Data Indicates the Covid Vaccines Have Killed At Least 140,000 Americans**

We can say with a considerable degree of confidence that based on the VAERS figures, it is very likely that the Covid vaccines have killed or directly contributed to the deaths of at least 140,000 Americans. To give us a sense of perspective, in less than 12 months more than twice as many Americans perished by vaccines than lost their lives during the whole of the Vietnam war. By claiming the lives of so many people in such a short time, the Covid vaccines are the deadliest pharmaceuticals ever released into wide circulation.

Here is a non-exhaustive and continuously growing list of young athletes who had major medical issues in 2021 after receiving one or more COVID shots. Initially, many of these were not reported. We know that many people were told not to tell anyone about their adverse reactions and the media was not reporting them. They started happening after the first COVID vaccinations. The mainstream media still are not reporting most, but sports news cannot ignore the fact that soccer players and other stars collapse in the middle of a game due to a heart attack. In the fall of 2019, I was a professor of ethics and ancient philosophy; I taught students critical thinking + the importance of self-reflection, how to ask good questions and evaluate evidence, how to learn from the past and why democracy requires civic virtue. Fast forward to September 16, 2021 when I received a "termination with cause" letter after I questioned, and refused to comply, with my employer's vaccine mandate. I was dismissed

for doing exactly what I had been hired to do. I was a professor of ethics questioning what I take to be an unethical demand. You don't have to look very hard to see the irony.

### **Journalism is now a crime**

Assange is being criminalised for doing journalism. Yes, his publishing methods were unorthodox. Wikileaks published reams of classified documents, without filters or the editorial choices that would usually be made by a newspaper or news website. But the means he came by this information was actually quite run-of-the-mill. The 'conspiracy' and 'espionage' Assange stands accused of by the US amount to his attempt to cultivate sources, get more information out of them and keep them anonymous. Or, as it's usually known, 'journalism'.

## **Antisemitism and Islamophobia: a double standard by Melanie Phillips**

Claims of moral equivalency are bogus. Bigotry is based on falsehoods, not fact. Although the anti-Semitic far-right exists, much of today's antisemitism comes from the left, which assumes itself to be the acme of virtue and therefore incapable of bad things, and from Muslims, whom the left deem to be victims and therefore incapable of bad things. Moreover, admitting the enormity of antisemitism within the Muslim world would shatter the fiction western liberals believe as unchallengeable truth that, in the Middle East, the Jews of Israel are human-rights abusers while Palestinian Muslims are their victims.

#### **The other, more alarming, Peng Shuai-like disappearance story**

What is more troubling than Peng's disappearance is the 2018 disappearance of Meng Hongwei, the head of Interpol. It is not that his disappearance is "worse" than Peng's, but the fact that there was no official or unofficial response to his vanishing. Interpol simply accepted the "effective immediately" resignation letter Meng submitted through China and did nothing except "strongly encourage" China to provide more information.

The Nuremberg trials after WWII made horribly clear the sadistic "experiments" the Nazis had performed on people. So, in 1947, the modern Nuremberg Code was born. The document prescribes core norms for human experimentation. After 225 long and fruitful years of this terminology, "right" and "left" are now empty categories, meaning little more than "the blue team" and "the green team" in your summer camp's color war. You are not "a supporter of free speech" if you oppose free speech for people who disagree with you.
