"The greatest challenge we face today is to witness the injustice and callous disregard for our rights and freedoms and not allow this to diminish our light. Now, more than ever, the world needs our light, our love, and our wisdom. This is a time to be visible with our values and be the change we wish to see in the world."

National Council of Canadian Muslims gets support from CAIR, asks Trudeau for help to fight Quebec secularist bill

Quebec's Bill 21, passed in 2019, outlaws the wearing of religious symbols — the hijab, kippah, turban and cross — by most public servants while on the job. The National Council of Canadian Muslims (NCCM) along with the Canadian Civil Liberties Association is fighting to have the bill nullified by the courts because it violates fundamental human rights. The NCCM also said the bill unfairly targets Muslim women. NCCM said Monday that it is gathering signatures on a petition to have Prime Minister Justin Trudeau intervene after a Muslim teacher in Quebec province was removed for wearing a hijab in the classroom.

Veteran Rebel News Reporter ASSAULTED by Justin Trudeau's Security Detail as Canadian PM Arrives at an Event

Rebel News is suing Canadian Prime Minister Justin Trudeau's security team after a group of officers assaulted and illegally detained one of the outlet's veteran journalists as Trudeau arrived at an event in Toronto earlier this month. Ezra Levant, the founder of Rebel News, called the incident "the worst thing that has ever happened to a Rebel News Reporter in our 7 years," pointing out how the outlet had seen "street thugs and Antifa members" attack their reporters over the years, but "never a government thug" – until now.

Canadians should have "zero trust" after feds spied on 33M devices

According to Blacklock's Reporter, Public Health Agency of Canada (PHAC) secretly spied on 33 million mobile devices of unsuspecting Canadians to monitor its lockdown measures. The details of the plan were revealed on Monday. Canadians must demand accountability from PHAC for tracking their devices without consent and should have "zero trust" in what the government is telling them.

Health Minister complains of hate mail over allowing grocery stores to allow vaccine passports

People's Party of Canada leader Maxime Bernier also has some strong words for Shephard's complaints. "It's too bad the minister needed a huge public backlash to realize the stupidity of her decision and to reverse it,"

Bernier says. "Anyone with a brain and with a minimum of compassion would not have adopted such an abhorrent policy in the first place." Instead of complaining about letters, she might want to reflect on the anguish she caused among New Brunswickers and all Canadians when she escalated the level of discrimination and segregation that millions of them have had to endure because of authoritarian government policies during this pandemic."

COVID Is the Virus. Wokeness Is the Disease

COVID is its perfect storm. Public health justifies government diktats, broad bureaucratic discretion, incoherent policies, rituals such as wearing masks that lack actual benefit, and directives that limit individual agency in the name of the collective good. Vaccine mandates are the ultimate form of cancel culture, literally erasing the unvaccinated from their jobs, education, travel, and social standing. Canada is sick. COVID is the virus but wokeness is the disease. It is time to cure this country.

Dr. Charles Hoffe delivers a dose of reality you can't afford to miss

Dr. Charles Hoffe's speech was certainly loud and clear...that you and especially your children do not need to rush out and get the Covid-19 vaccine and in fact your chances of being severely injured is far greater than what the so called "health officials" are saying. Dr. Hoffe pleads with people to do their research before injecting themselves with this highly experimental mRNA technology because he has witnessed firsthand the destruction it can potentially bring.

MP Rachael Thomas Is Right To Push Back Against Demonization Of Unvaccinated Canadians

Given that new cases of COVID are now more prevalent in those who are fully vaccinated than those who are not, and given the symptoms of the omicron variant are less severe than previous versions, perhaps it's time to change the dialogue. The idea of restricting access to unvaccinated individuals is more about coercion and demonization than it is about public health.

Facebook says it was wrong to ban Canadian Conservative MP Mark Strahl's Christmas message

"Today, Facebook declared that my ad to wish my constituents a Merry Christmas and Happy Holidays 'didn't comply with their Discriminatory Practices policy.' The text with the ad literally said: 'From my family to yours, have a Merry Christmas and Happy Holidays!'" Strahl said in a statement. "We successfully appealed, however, this is a glaring example of censorship and overreach by tech giant companies who control so much of the online space."

Citizens in Canada and around the globe have witnessed abhorrent tyrannical behavior surrounding the coronavirus and vaccines, as well as an ongoing dismissal of leftist violence. Whether or not one agrees with the way the activists chose to express their justified anger over Canada's tyrannical coronavirus measures, the media and leftist politicians have zero moral authority to judge anyone. Major Russ Cooper (Ret'd) rolls in hot with an active police constable, Erin Howard, and a criminal defense attorney, Nicholas Wansbutter, to discuss legal jeopardy as police officers are ordered to enforce pandemic emergency measures. If related edicts, decrees and mandates lack the evidence they need to be considered "demonstrably justified", can they be seen as unconstitutional? Is it time for the public to close ranks with those who "serve and protect" them to demand the investigations required to substantiate the curtailment of their Charter rights and freedoms? Are we living in a "one party state" that has decided to forego these individual liberties? Strap in for an eye-opening ride as we seek answers.

COVID-19 UPDATES

“The entire orchestrated COVID-19 fear campaign has been a psyop designed to regress the world population to childish compliance in an effort to reorder the world and achieve totalitarian planetary governance. It has been horrifyingly successful, and will continue unless the rational adults in this world stand up in opposition. Men and women have no idea they are participating in their own destruction. They are useful idiots for the globalist megalomaniacs running the op. Like lemmings, they mindlessly repeat the ridiculous talking points, explanations, and totally manipulated statistics of their masters. Garbage in – garbage out.”

Before allowing your child to be injected, listen to Dr. Robert Malone's urgent warning about children

Before you vaccinate your child, which is irreversible and potentially permanently damaging, find out why 15,000 physicians and medical scientists around the world signed a declaration publicly declaring that healthy children should NOT be vaccinated for COVID-19. On behalf of these MDs and PhDs, Dr. Robert Malone MD, who has devoted his career to vaccine development, provides parents a clear statement outlining the scientific facts behind this decision. These are the issues parents need to understand, says Dr. Malone. (Posted at the Global Covid Summit December 2021)

Declaring War on the Unvaxxed

I'm sick and tired of wearing masks. I'm sick and tired of vaccine mandates. I'm sick and tired of hearing the dire warnings and broken promises of politicians and incompetent public health officials. For almost two years they've ordered us around like children and told us what individual freedoms we must sacrifice if we are to ever win the war against COVID-19. Now a new variant, omicron, has knocked us backwards again.

Lancet science paper destroys false narrative of covid vaccines, reveals vaccinated are perpetuating the pandemic

Government nor courts are equipped to mandate medical treatment

The courts are flooded with lawsuits to both block government from imposing medical mandates and, on the flipside, to allow government to enforce medical mandates. The problem is that neither the government nor the courts have sufficient power or medical expertise to coerce individuals to receive treatment, invasive or otherwise. The discrimination is now against individuals who invoke their right to rely on natural immunity against what can amount to a virulent cold virus.

Forcing People Into COVID Vaccines Ignores Important Scientific Information

Questioning the competence and integrity of government bureaucracies like the FDA doesn't make someone a bad person or a spreader of disinformation. Government bureaucracies can be wrong, and historically the citizens of democracies have viewed it as not only their right but their duty to scrutinize public officials' decisions. Dissent is an integral part of the sacred compact between government and governed that underpins a

free society, and Americans allow the current regime of censorship to continue at their extreme peril.

Judging Fauci

While Fauci, who whines that attacks on him are attacks on science, is the greatest killer of this new century, the story is out there for all willing to see it. He helped create the disease. He has blocked safe, low-cost, effective treatments that would have saved tens of thousands of lives while making the drug companies insanely rich with dangerous vaccines. In the meantime, he has created the unnecessary climate of fear and hysteria that has ruined the lives and livelihoods of millions of Americans. It's time for him to be held to account.

People may finally be seeing the light on COVID mandates

The credibility of the U.S. government, the U.S. scientific community, the CDC, and the FDA are at stake. The Chinese continue to work on bio-weapons, and we need to quickly depoliticize the virus so we can prepare for the next attack. The "pandemic" will not end until "we the people" demand that the virus and the handling of it be depoliticized.

Studies Proving Generic Drugs Can Fight COVID Are Being Suppressed

Since the summer of 2020, U.S. public health agencies have continually shut down the use or even discussion of generic treatments that are minimally profitable. Recently the FDA rapidly approved Merck's expensive new anti-viral Covid-19 drug, molnupiravir based on a single study of modest benefits in mildly ill outpatients, and the Biden administration swiftly agreed to pay \$700 per course of treatment despite the fact the medicine costs about \$20 per course to manufacture, according to WHO.

It's always about the money.

Are athletes more at risk from COVID or vax side-effects?

I doubt that any of these conclusions or recommendations will be taken seriously. Political pressure for worldwide vaccine mandates will continue to make double-digit billions of dollars and buy more political clout for Big Pharma. The continuation of COVID fear propaganda provides a huge political advantage to the left, and the societal and economic chaos it created to date has empowered a progressive ruling class who claim only they have the wisdom to save us if we temporarily suspend our freedoms until they can implement their "Build Back Better" plan, paving the way for *The Great Reset*.

ONE WORLD ORDER

The reality of One World government

The rough beast whose hour has come round at last is the replacement of America's constitutional republic with global governance. A critical mass of the country's public servants, corporate heads and boards, academics, think tanks, religious leaders, and financial influencers has intellectually accepted and promoted the loss of America as a sovereign nation. From one of America's best-known families:

"Some even believe we [Rockefeller family] are part of a secret cabal working against the best interests of the United States, characterizing my family and me as 'internationalists' and of conspiring with others around the world to build a more integrated global political and economic structure — One World, if you will. If that's the charge, I stand guilty, and I am proud of it. "

Trans Swimmer Lia Thomas Is a Cheat — Period

In her 1650-meter freestyle win, Thomas beat second-place finisher and teammate Anna Kalandadze by more than 38 seconds. That means that the women who had held those records no longer hold them. They have been stripped of their records because the University of Pennsylvania, like other universities, allows biological men to join women's swim teams. That is the ruling of the woke cowards of the NCAA, who have decreed that all women's teams, in all sports, must allow men to compete in women's sports. More than 90 percent of Omicron cases in Denmark are vaccinated, shocking data reveals

Denmark currently has one of the top infection rates in the world and the second highest Omicron rate in Europe, behind the U.K., which has similar

More than three-quarters of Danes who came down with Delta or another variant besides Omicron between November 22 and December 15 had at least one shot, according to the SSI data, and 73 percent were fully jabbed or boosted.

POLAND

Will Poland Have to Defend Europe from Islam Again?

For the violent border-breachers, there is Warsaw's willingness to refrain from the use of lethal weapons until further notice. This may not be much, but compared to the alternative, or even to the many battles since 1621, it is not a little thing, either. Nevertheless, there is a lot to gain from practicing the effective closing of a border. The Polish example has become a valuable lesson for the entire continent. As in centuries past, what is difficult but unavoidable for Poland is proving to be crucially important for the future of Germany and the rest of the European Union.

Many of the January 6 defendants were arrested after dawn raids on their homes, with the FBI stripping them bare (both homes and people). They've been held for eleven months in appalling conditions (more on that in a moment), without bail and without trial. The Democrats have gone too far. They're undermining the Constitution and destroying civil liberties protections unmolested by Republicans under the darkness of a secret select committee. BLM, Christmas, and corruption

Then there's hypocrisy. While not wanting to buy from them, BLM has unhesitatingly accepted large amounts of money from the "white" businesses they disparage. Amazon, Apple, Coca-Cola, Google, Microsoft, and many others have donated millions of dollars to BLM. The money was eagerly taken, no boycott there. But imagine the enormous protest if those companies funded an organization promoting exclusively white-owned businesses. The BLM mission goes much deeper than boycotts. Their objective is nothing less than the destruction of our economy and the elimination of capitalism -- frequently referred to, by them, as "white capitalism" or "white-supremacist-capitalism." Destruction is no exaggeration.

OTHER ARTICLES

The inhumanity of identity politics

This year, more than any other in recent times, we've had an unsettling glimpse of the inhumanity of identity politics. In the US context, the Rittenhouse trial and the Waukesha massacre captured the grim dehumanisation that identity politics has given rise to. Everything is now filtered through the identitarian narrative. Crimes, trials, world events, the moral worth of victims, the moral worth of people – everything.

None of this is accidental. It is the inexorable, depressing endpoint of a politics that deprives us of our individualism, of our humanity, and which instead accords us goodness or brands us as bigoted depending on our skin colour, our sex, our accident of birth, or our beliefs. The ruthless reorganisation of humankind into the neo-racialist boxes of 'privileged' and 'oppressed' has stoked division, inflamed hatred, generated violent sentiment, and undercut the old liberal ideals of equality and fairness. Standing up to identitarianism will be one of the most important causes of 2022.

Powerful Backlash Building Against Woke Anti-Americanism

All this obscures the fact that the Cold War and the dissolution of the U.S.S.R. were the greatest and most bloodless strategic victories in the history of the world. The greatest consequence of them is the triumph of capitalism in the world, in particular in China and Russia. It is the best system because it is the only one that is aligned with the almost universal human ambition to have more.

What Happened to the Riots?

The disappearance of the Left's riots confirms what many have suspected: that they were centrally planned. On the surface, this was hard to believe. Antifa looked like Darwin's waiting room, a gaggle of meth-mouthed degenerates, many with criminal records and obvious mental health problems. They were augmented by ordinary street thugs, amped up by the anti-police rhetoric of Black Lives Matter. The fact that Antifa and BLM violence can be unleashed and put back in a bottle is itself worrisome, as the financiers and shot-callers are mysterious.

Tariq Ramadan: Update on Islam's Golden Boy

How many more girls and women in Geneva remain too "disgusted" and "ashamed" for what they allowed themselves to endure from their respected "prof" Tariq Ramadan to come forward even now? How many more Muslim women in Paris who were admirers of the famous "scholar" Tariq Ramadan and were invited to discuss the subject of Islam in his hotel room with the great moralizer, and then were choked, beaten, raped, and threatened, will never come forward, out of shame, disgust, horror, a desire not to share such humiliations with a husband, children, friends, the public? A permanent sword of Damocles hangs over the head of the once seemingly invulnerable Tariq Ramadan. No one deserves it more.

The COVID Scam: The Progressive Path to Power, and Tyranny

COVID-19 is probably the greatest and most successful swindle in history. By comparison, Carlo Ponzi and Bernie Madoff were pikers. The COVID scam has affected most of earth's 7.8 billion inhabitants, consumed trillions of dollars, and achieved a level of government control unprecedented in modern democracies.

The COVID "pandemic of fear" is a *con*, perpetrated by those in power to extend and expand their power. Their scheme is simple. Take a new flu-like respiratory virus created in China, COVID-19; tout it as a threat to all human life; suspend (temporarily, of course!) personal liberty and freedom; then justify their tyranny by asserting a need to protect all Americans from death by virus. When the threat recedes, redefine the terms, demand vaccine passports, and booster shots to maintain public fear. As new viral variants evolve such as Delta or Omicron, resume draconian measures including masks and lockdowns, more boosters, and loss of employment if unvaccinated.

The erasure of liberty

The problem with the current discussion, however, is that one side says this kind of thing was the dastardly plan all along (the Great Reset, etc), while the other says that upholding public health is the most important thing of all, and anyone who squeals 'But what about freedom and democracy?!' is essentially a granny-killer. We urgently need to cut through these opposing but equally moronic takes and argue that the drift away from liberty may not be a conspiracy, may not be the concrete plan of a conscious, plotting elite, but it is real nonetheless, and it will have real consequences for individual sovereignty, community solidarity and the right of all of us to make choices and weigh up risks as we see fit.
