## **Volodymyr Zelensky: what leadership looks like**

Whatever happens next in Ukraine, Volodymyr Zelensky has earned his place in the history books. As Tom Slater argues on *spiked* today, this unlikely war leader – a comedian turned statesman – has reminded us why courage, stoicism and a commitment to national sovereignty matter so much. Zelensky has not only brushed off calls from Western allies to flee Kyiv, risking his life to rally his countrymen – he has also been defiant against his Russian aggressor, resisting the invasion for far longer than most outside observers had expected. Above all, Zelensky reminds us that some things really are worth fighting for.

## **One dead Ukrainian is one too many**

These are a fiercely independent, self-reliant people who value democracy, individual rights and the rule of law; everything that Canadians take for granted as their privileges. We forget that the people of the Ukraine are descendants of the survivors of Joseph Stalin's Holodomor (1932-33). Watching Trudeau and Freeland make speeches about Putin's invasion of the Ukraine and the importance of the rule of law after using unlawful 'emergency measures' to criminalize a peaceful protest of Canadian residents is surreal.

## **Thucydides in the Ukraine**

This conflict over Ukraine's future is also a pivotal point in the shaping of the multipolar post-Cold War world going forward. The past three decades since the end of the Cold War has been a unipolar moment in global politics, and the over-reach of America as an empire to impose on others their version of neo-liberal rule-based order has met the predictable response from those who are unwilling to concede to American hegemony.

The American over-reach with their New World Order vision, and the resistance to it that had been mounting got exposed over the conflict in Ukraine.

## **Putin Accidentally Revitalized the West's Liberal Order**

We are a long way from the ultimate outcome of Russia's invasion, but even if Ukrainian military forces cannot prevail or President Volodymyr Zelensky and his government are killed or captured, it's difficult to see how Putin's broader gamble succeeds. If Zelensky falls, another leader will step forward. Even Russian-speaking Ukrainians have become anti-Russian. Conquering Ukraine will require unspeakable brutality, and even if Moscow succeeds on this count, foreign legions are flowing to Ukraine to assist an insurgency in bleeding Russia's occupation. If Ukraine fends off Russia's assault, it will be welcomed into NATO and the EU.

## **Trudeau Government Say No To Fast-Tracking Ukrainian Refugees**

We speak of the King of Refugee Intake; a political leader who once sent out a tweet encouraging illegal 3rd World refugees to come to Canada; the prime minister who has stone-walled refugees attempting to escape the Russia-Ukraine War of 2022. We reference the greatest political curiosity in Canadian history. This week in Parliament, Prime Minister Justin Trudeau and his Liberal government voted against an NDP Party motion to fast-track Ukrainian refugees.

**If you were Putin ...**

The chiseled muscle of KGB training, brought up by the USSR superpower in the expansive borders over approximately fifty ethnic tongues and enormous landmass - would you wait to take back soil-rich Ukraine with its Black Sea ports? Let's examine.

<https://www.actforcanada.ca//if-you-were-putin/>

## **For those who ask: "Why does Ukraine matter? " This is why Ukraine matters.**

It is the second largest country by area in Europe by area and has a population of over 40 million - more than Poland. Ukraine matters. That is why its independence is important to the rest of the world.

<https://www.actforcanada.ca//for-those-who-ask-why-does-ukraine-matter-this-is-why-ukraine-matters/>

## **Ukraine and the new populism**

Compare this to the behavior of the western elites, rushing from conference to conference to dither about nothing, collapsing before radical attempts to redefine reality itself, and putting all their efforts behind programs – "Agenda 21," "the Great Reset" – that nobody asked for and that nobody will ever accept. This is the behavior of a class that has seen its day -- and knows it. There is, in fact, no comparison between the elites and the new, enlightened populism that is rising across the globe.

## **The Price of Silence**

What you're watching unfold is what happened in every war since the beginning of time... silence. Today, it's the apathetic inertia of sanctioned and affected Russians. In a country of 146,000,000, only 3000-5000 made it onto the streets in protest in the last few days. Only a scant few journalists constructed a letter of unequivocal disapproval of invasion of Ukraine.

# TRUCKERS CONVOY UPDATE

## **Trudeau Backs Down After Banks Scream about Massive Withdrawals**

Trudeau has created a very serious crisis and just rescinding his Emergency Act is not going to make it all better. Trudeau has driven a stake through the heart of the Canadian economy and that means that international capital will be skeptical about trusting Canada as long a Trudeau is in power.

## **Trudeau Reversal Motive Surfaces – Canadian Banking Association Was Approved by World Economic Forum To Lead the Digital ID Creation**

A promotional video from the Canadian Bankers Association (CBA) helps to neatly connect all the dots about why the Canadian government made such a quick reversal in their bank asset seizures in the last 24 hours. And yes, as we suspected, it was almost certainly contact from the World Economic Forum to Canadian Finance Minister Chrystia Freeland that triggered the change in position.

## **Canadian legal group sues Trudeau gov't for using Emergencies Act against peaceful Freedom Convoy**

JCCF president John Carpay called the freezing of bank accounts by the government of Prime Minister Justin Trudeau under the EA as “a gross abuse of government power, used to punish those who supported a peaceful protest for the return of Charter rights and freedoms that were taken away from Canadians 23 months ago.”

Trudeau's use of the EA is one of the "most egregious and disturbing, unnecessary, and unjustified power grabs" used by a democratic government in decades, he added.

## **FINTRAC Destroys Liberals' Narrative - Convoy Funding Not "Terrorism" Or "Money Laundering"**

The great lie around the invocation of the Emergencies Act was totally shattered in testimony before the House of Commons finance committee. Barry MacKillop, deputy director of FINTRAC (Canada's financial monitoring agency) testified under oath that financial support for the Freedom Convoy 2022 organization came from everyday Canadians fed up with COVID restrictions and was not terrorism or money laundering.

## **'Free Tamara': Alberta MLA Calls for Release of Freedom Convoy Organizer**

In his statement, Alberta MNA Drew Barnes said "Lich is a 'political prisoner' and blamed 'partisan media and [the] Eastern elite' for portraying her as a threat to her own country because she embarrassed them. She has been portrayed in the media as a violent criminal, a foreign operative, and an anarchist. Nothing could be further from the truth. She is a former energy worker of Metis heritage, a mother, and grandmother, and sometimes plays guitar in a local band. I can only conclude that she is a political prisoner of a thoroughly disgraced establishment."

## **'Freedom Convoy' organizer Tamara Lich raises concerns about judge who denied her bail**

The judge who blocked "Freedom Convoy" organizer Tamara Lich's release from jail expressed "personal" views and should not have ruled on the case because she ran for the federal Liberals in 2011, Lich's lawyer argues. She also argued Bourgeois's agreement with the Crown that Lich could face significant jail time was based on "pure speculation" in a case where Lich has no criminal record and is facing relatively minor charges and no allegations of violence.

## **Ontario gov't shuts down 39 trucking businesses for taking part in Freedom Convoy**

Despite the revocation of the Emergencies Act, World Economic Forum (WEF) member and Canadian Finance Minister Chrystia Freeland has maintained that some of the powers granted to the federal government through the Act could be made permanent. Included in the measures the government implemented was the monitoring of cryptocurrency exchanges and crowdfunding platforms, as well as the freezing of private bank accounts without a court order.

## **FULL FOOTAGE: Police crackdown on peaceful protesters in Ottawa**

The whole thing lasted for more than 30 hours. Unfortunately, many dangerous police maneuvers were used during this weekend of intervention, injuring several people. This report is in fact a summary of the many hours of police interventions that took place between February 18 and 19.

## **Making sense of Canada's abrupt pivot away from financial terrorism against its own citizens**

Indeed, the government leaders who take their instructions from the multinational corporations in charge of the World Economic Forum, which is to say almost all of them, are so entrenched in their need to use COVID-19 as the pry bar for the Build Back Better agenda, they simply cannot let it go.

Without COVID-19, they can't keep the vaccination push. Without the vaccination push, they can't keep the vaccine passport process in place. Without the vaccination passport registration process to track and monitor human behavior, the governing authorities cannot fulfill the mission of a comprehensive digital identity and social credit tracking system. Indeed, everything they seek is contingent upon keeping the premise of COVID-19 alive.

## **Antifa site praises axe attack on Coastal GasLink site in northern B.C.**

Although the attack on critical infrastructure in B.C. took place while the Emergencies Act was still in effect, Prime Minister Justin Trudeau did not apply it to track down the suspects involved or to freeze their assets like he did with the Ottawa trucker convoy demonstrators.

## **Venezuela With Ice Hockey – Canada Becomes A Dictatorship**

Americans have always had a slightly patronizing view of Canada. We have regarded it as a sometimes overly nice, rather innocuous democracy where things were perhaps too clean and people perhaps too civil. It was the USA but with all the rough edges that define the American character sanded off. No more. That Canada died some time ago. Today's Canada is a police state run by a dictator who will accept no resistance to his edicts. Trudeau's response to dissent? Crush the dissenters.

<https://andmagazine.substack.com/p/venezuela-with-ice-hockey-canada>

## **Canada: Fascist or Communist?**

We should not, then, be distracted by irrelevant distinctions and scholarly niceties. Whether the government is fascist or communist is moot. Under the current administration, a working coalition between two far-left parties, the Liberals and the enclitic NDP, Canada bears all the hallmarks of a repressive, oligopolist state that is laboring to permanently entrench itself. Canadians have reaped the country they deserve.

## **Ukrainians Coming To Canada To Escape War Must Leave Within Two Years**

Can it be that the Ukrainians do not fit the utopian model that Justin Trudeau is carving out for Canada? In this we recognize an historical affinity. His approach is so very socialist – there are those who fit the social model, and those who do not. The latter are to be shunned. Over a six-year period, battle lines have been drawn. Not by the public– but by government. We observe the identity of the ostracized. Canada's working class for one. Conservatives, Christians, Anglophones, "Old Stock" Canadians, Pro-Lifers. Namely, those who refuse to buy into the woke socialist revolution being perpetrated upon our nation.

## **6 Facts About Trudeau That'll Make Your Blood BOIL!**

Is there anything you can do to cool it down? Yes. Being brave enough to do what's right. Holding the line to keep your freedoms is tough but it's a hell of a lot easier to than trying to regain your freedoms once you've allowed them to be taken away from you. 'In these moments of an existential crisis, all prime ministers are obligated to bring the parties together, not to throw fuel on the fire, not to call protesters names, not to call them...extremists or racists.' "It's the right to protest in this country. It's a responsibility, though, of the parliament and our prime minister and our governments to dialog with these citizens. These are not enemies of the state. These are frustrated Canadians."

**C3RF Update, 04 March 2022 – Elite Capture**

This week's update analyzes the impact of politics on Canadian public institutions and agencies. From the military to public health and beyond, if initiatives and projects don't meet muster with PMO apparatchiks they become non-starters. The whole process, however, becomes a national problem when these same minions are captured by well-monied interests that couldn't care a fig about Johnny and Jane Canuck. Indeed, they are not even above making everyday citizens political prisoners and throwing away the key.

## ACTION REQUIRED

### THREE UPCOMING BILLS – URGENT YOU WRITE

You need to be aware of and understand the consequences of the following 3 upcoming Bills that Trudeau is trying to pass and that will end all freedom in Canada.

- **Bill C-36: An Act to amend the criminal code and the Canadian human rights act**
- **Bill C-11: Digital Charter Implementation Act, 2020**
- **Bill S-233: An Act to develop a national framework for a guaranteed livable basic income**

Although it is safe to assume that all 3 bills will pass in the House of Commons, you should still write to your MP stating that you are against it.

Investment giants, BlackRock and Vanguard, two of the world's "Big Three" asset managers, also are among the top three shareholders of COVID vaccine makers Pfizer, Moderna and Johnson & Johnson — which means the two investment giants stand to benefit from these companies' soaring profits and the resulting rise in those companies' stock prices.

## **The Experts, Science, Medicine—All Amazing, All Fallible**

It turned out that the Mt. Everest of information the “experts” withheld from the public, aided and abetted by their lapdogs in the media, were startling facts about the vaccines themselves—all scrupulously documented by writer Kelleigh Nelson—including the prediction that “because of the jabs, the immune system is dying. The result will be high incidences in various countries of tuberculosis where it is now dormant. Tumor cells are no longer under control causing increased numbers of cancers—as evidenced by pathologist Dr. Ryan Cole of Idaho—as well as viruses, herpes, Epstein-Barr, cytomegalovirus (CMV) which kills babies in the womb, toxoplasmosis, and a horrifying number of other illnesses.”

Now that they've got most people cowering behind the sofa or under the bed because of the fake covid threat, they have introduced two new threats to the menu: war and storms. Remember that ruining the global economy is an essential step on the route to the Great Reset. The rhetoric coming from Washington and London certainly suggest that both Biden and Johnson are desperate to exacerbate the situation, cause more terror, push up energy prices and terrify everyone.

## How to Talk to Your Conspiracy Denialist Friends

Vaccine mandates and passports are a prelude to the Fourth Industrial Revolution and the Internet of Bodies. The topic of the Fourth Industrial Revolution is thoroughly documented on government websites and in other official sources. We might have a better chance at getting through to our conspiracy denialist friends by pointing them in the direction of policy papers that openly talk about the Fourth Industrial Revolution vs. by trying to talk to them about the harms of vaccines

We may also point them in the direction of the “conspiracy theories” of the past that came true. While there is no official proof of graphene oxide or nanotechnology in COVID injections, there are plenty of official scholarly papers talking about both in other medical applications, including vaccines.

## THE MEDIA

### Real war vs. phony war; turn on the news bubble machine

“The CIA infiltrated the media.” That statement wore out its welcome decades ago. The media ARE the CIA. The only proviso, if you want to call it that: most reporters are too stupid to realize who they slave for. I mention this because we’re not getting war news, we’re getting CIA news.

Now on the other hand, here is a WRITER—I don't know who he is; his handle is *Good Citizen on Substack*. I'll tell you this. If I could, I'd appoint him to head up negotiations between Russia and the Ukraine in a New York minute. Screw in your brain tightly and read what he recently laid down in one of his carpet bombing runs:

## THE ENVIRONMENT

### Stop these fuelish policies

Putin is unlikely to fear energy competition from Danish windmills, Spanish solar panels, or Australian ethanol. Russia is building gas pipelines while Biden and his green friends closed the Keystone XL pipeline (to deliver oil from Canada) and declined to renew U.S. gas drilling leases. The USA even became an importer of Russian crude oil and petroleum in 2021. And if the two superpowers of Eurasia do decide that this is the time to enlarge their empires, we will not stop them with net-zero energy, wind power, battery-powered tanks, a biofuel navy, or submarines on the never-never.

## Germany's Energy Woes

Not only has Germany shut down most of its existing nuclear power plants and aims to continue on mothballing its fleet of coal power plants, Chancellor Olaf Scholz announced he was suspending gas delivery from the Russian-German Nord Stream 2 natural gas pipeline, which will surely only further exacerbate Europe's energy supply and potentially destabilize Europe's economy.

### Exploring Biodigital Convergence

What happens when biology and digital technology merge? In the coming years, biodigital technologies could be woven into our lives in the way that digital technologies are now. Biological and digital systems are converging, and could change the way we work, live, and even evolve as a species. More than a technological change, this biodigital convergence may transform the way we understand ourselves and cause us to redefine what we consider human or natural.

Biodigital convergence may profoundly impact our economy, our ecosystems, and our society. Being prepared to support it, while managing its risks with care and sensitivity, will shape the way we navigate social and ethical considerations, as well as guide policy and governance conversations.

Biodigital convergence is opening up strikingly new ways to:

- change or create other organisms
- alter ecosystems
- sense, store, process, and transmit information
- manage biological innovation
- structure and manage production and supply chains
- change human beings – our bodies, minds, and behaviours
