### **Is Trudeau's Canada the Globalists' Laboratory For Crushing Dissent by Madeline Weld**

When Prime Minister Justin Trudeau combined tyranny with absurdity by invoking the Emergencies Act for what was essentially a parking and noise problem in downtown Ottawa created by Freedom Convoy 2022, he should have been called out by the media. Furthermore, the House of Commons should have nipped this gargantuan power grab in the bud by refusing to pass a motion to confirm it. Trudeau’s Liberal party, after all, forms a minority government, and a united opposition by all the other parties could have killed Trudeau’s version of “l’état, c’est moi.”

## **Oh, Canada! Our Home and Native . . . Dictatorship! The WEF is “Trampling Our Freedoms”**

The current regime in Ottawa has become the most dangerous, lawless government in Canada’s 155-year history as an independent nation. Canadian politicians’ wild misuse of state authority is a sure sign of their desperation—a desperation born of their futile attempt to stop the sudden crumbling of the pseudo-pandemic narrative. The COVID-19 story has been a ruse from its inception, planned over many decades and constructed on a bed of lies. In the end, the current Canadian government, like so many rotten regimes in the past, will be relegated to the dustbin of history.

## **Author of Emergencies Act questions whether threshold was met for its use**

“Emergencies legislation is designed to be legislation of last resort. “It’s explicit on that. It is designed to be used when there is no other legal authority available,” said Beatty. “Ask how we got to this point. The police were called upon to deal with a breakdown in our political system. We can criticize how they did their job but it should have never been necessary for them to fill the breach in the first place.” Beatty added that since the law was triggered by Trudeau it could now become easy to invoke once again to curtail civil liberties even further.

## **Trudeau Reversal Motive Surfaces: Canadian Banking Association Was Approved by World Economic Forum to Lead the Digital ID Creation**

Justin Trudeau and Chrystia Freeland essentially broke the financial code of Omerta, by highlighting how easy it is for government to seize your bank accounts, credit cards, retirement accounts, insurance, mortgages, loan access and cut you off from money (without due process).

The unintended consequence was an immediate and clear reference point if government did the same action with a digital ID in place.

## **CBC Brand Justin Trudeau's Opponents In European Parliament Racist**

Canada's state-funded CBC News has a job to do. In order to justify a billion dollar annual subsidy from the Liberal government, strict adherence to an agenda must be maintained. Those who verbally attacked Justin Trudeau are all racists. And far be it for Trudeau-funded CBC to stop there. Have you heard the news? The 705-seat EU Parliament is infused with white supremacy and neo-fascism.

## **Netflix series 'How to become a tyrant' provides lessons for Canadians**

Challenged by a peaceful protest that inconvenienced some Ottawa residents, Prime Minister Trudeau declared a national emergency, froze the bank accounts of hundreds of Canadians who had donated to a cause disliked by the Prime Minister, and unleashed police brutality on unarmed citizens in Ottawa. The *de facto* nationalization of most media; the vilification of an unpopular minority; citizens abused through a fake emergency; the freezing of bank accounts; the jailing of political dissenters. The state that starts to abuse its citizens gets a taste for it. Canada's politicians are likely to escalate this to higher levels.

## **Pastor Artur Pawlowski wins bail appeal after nearly 50 days in jail**

In this exclusive interview I joined Nathaniel Pawlowski, Artur's son, to discuss this legal win, the family's hopefulness that Artur will be home soon, and the sudden and unexplained transfer of his father from the Calgary Remand Centre to Edmonton's Remand Centre late last week.

## **Rachael Thomas suggests Trudeau is a dictator — Rosemary Barton comes squealing in his defence**

Unvaccinated Canadians remain prisoners in their own country due to Trudeau's travel restrictions. Trudeau froze the bank accounts of peaceful Canadians for minor donations to a just cause. And he has yet to admit the invocation of the Emergencies Act and suspension of Canadians' civil Liberties was unjustified, even after FINTRAC admitted the Convoy posed no threat.

## **Canada's Heritage Minister says online censorship bill will help free speech!!!**

The minister was asked if it was a priority for the internet censorship bill not to infringe Canadians' rights. He said that freedom of expression is a fundamental right and is "at the core" of the bill. "But I'll tell you something else," Rodriguez said. "Actually there are a lot of people who don't want to share what they think anymore, who are afraid of going online to speak freely because of the negative and violent reaction they may get. I think in some ways this will really help freedom of speech."

## **Some Liberal MPs unhappy with Liberal-NDP pact**

One Liberal MP commenting on the Liberal Party's drift to the left said, "(a)lready the Liberal Party has been too far left. Now, it's official, we have

joined this ultra-left." As Trudeau's party continues to move in a more left-wing direction, MPs are concerned that 'blue liberals' will find a home with the Conservative Party even if a right-wing candidate becomes the CPC leader.

## C3RF Update, 01 Apr 2022 – One Stop Tyrant Shop

As an added bonus and for those wondering how we got here, a "One Stop Tyrant Shop" is offered that itemizes many of the individual initiatives that have been pulled off the shelves and used to both scare and herd us. They have all been chronicled in C3RF "Updates" over the past four years and, when laid out chronologically, prompt the question - were they rolled out in accordance with a plan?

## Your Excellency, please dismiss Prime Minister Trudeau

Canada has found itself in a Constitutional crisis as the government-of-the-day, under Prime Minister Trudeau, has persistently elected to sideline the Charter Rights and Freedoms of everyday Canadians. The latest instance of this reality involved the invocation of the Emergencies Act as an initial reaction to Freedom Convoy 2022 trucker protests. Absent any attempt to dialogue with this group on the matter of terminating cross border

operations by unvaccinated truckers, the Prime Minister moved to freeze all related financial accounts even as police were brought in from across the country to manhandle and arrest peaceful protesters. These measures deprived these Canadians of their Charter rights to free assembly, movement and speech as they sought to redress their valid grievances.

## **What to do About Central Banksters & the Social Credit System**

Trudeau's vicious attacks and inhumane treatment of Canadian citizens and his anti-democracy, pro-tyranny agenda has created massive pushback in the EU. The recent Parliamentary meetings in the EU have revealed that Canadians have powerful and strong allies throughout Europe, who called out Trudeau on the world stage, for his hypocrisy and authoritarianism. Prior to Trudeau speaking the majority of the parliament left in protest of him. The room was nearly empty but that did not stop Trudeau from delivering a grand performance or the CBC from fabricating a story and saying he received a standing ovation.

## **TRUCKERS CONVOY UPDATE**

*"When they stop flowing on the roads of the world, the human societal network stops flowing in turn: the truckers are the red blood cells in the circulatory system of human society as we know it."*

## Profiles in Courage: The Canadian Truckers

Through gentle resistance, the Canadian truckers and protesters inflicted an injury to the principle of authority that awakened the world to the realization that totalitarianism hinges on compliance, showing that We the People *must* stand up and take back our freedoms from the self-proclaimed "elites" to end our enslavement. Badass tyranny resister Pastor Artur Pawlowski urged Canadian truckers to hold the line, and pilot Greg Hill explained why summoning courage was so pivotal at this moment in history. And summon courage they did, becoming a catalyst that would spark Freedom Convoys around the globe.

## **Convoy organizer, BJ Dichter, calls success in Ottawa just the start**

He said that what really got him upset was the enforcement of the QR codes and the COVID digital passport – things, he said, he was concerned would become the basis for “an entire surveillance state.” “That was going to lead to massive tracking beyond what is normally done,” he said.

He insisted that the convoy was only the start of his efforts to wake Canadians up to what is happening in our country. For now, though, he has to wait out the recuperation of his ankle surgery in February, having broken both the fibula and tibia slipping on an Ottawa sidewalk.

## **Justin Trudeau needs to answer to our Canadian Veterans and Canada**

Justin Trudeau had ample time to speak to the truckers of the FreedomConvoy2022. In fact, the convoy leaders begged him to come to a table and talk on multiple occasions. Justin Trudeau's government and the media instead chose to smear the whole protest by the actions of 1 or 2 acts out of thousands of people. All the damages resulting in this are on Justin's hands due to his negligence and lack of leadership.

## **Ontario cop charged for posting video praising truckers**

A Durham police officer who posted a video of herself speaking in support of the Freedom Convoy as it headed towards Ottawa is now facing charges under Ontario’s Police Services Act. With her charges, Howard becomes the latest police officer to face punishment or investigation for supporting the convoy protests.

## **Trudeau Uses Violence Against Peaceful Protestors - Part 2**

Most Canadians understand that Canada is at a critical crossroads. Will we allow the Canadian ruling political class to continue to spiral our country into a Venezuelan-like collapse? Or will Canadians of all backgrounds and political beliefs unify to protect freedom of thought, freedom of speech and protect our fundamental rights like the Freedom Convoy set out to do? Which will you chose? End The Mandates, End The Passports.

## **Treating Canada's Freedom Convoy Truckers and Their Supporters as Terrorists**

Justin Trudeau was just warming up with his warrior attack on religious freedom in Alberta. Trudeau's outrageous treatment of the Canadian Truckers and their supporters has put a conspicuous international stain on the reputation of Canada's Prime Minister. The Coutts 14 is the main group being put on display to embody the concept of Truckers as terrorists and insurrectionists.

## **Freedom Convoy 2022 – Truckers for Freedom – To Our Magnificent Heroes with Dr. Francis Christian**

## **China Launched Massive Cyberattack on Ukraine in Lead Up to Russian Invasion: Report**

China launched a massive cyberattack on vital Ukrainian infrastructure in the lead up to Russia's invasion, according to a report by UK media outlet The Times. The attack included efforts to degrade Ukrainian military and nuclear facilities. More than 600 websites owned by the Ukrainian Ministry of Defense in Kyiv weathered thousands of hacking attempts coordinated by the Chinese Communist Party (CCP), according to the report.

# **COVID-19 UPDATE**

## **Biggest Lie in World History: The Data Base is Flawed. There Never Was A Pandemic. The Covid Mandates including the Vaccine are Invalid**

The legitimacy of both the Pandemic Treaty and the QR Verification Code under WHO auspices rests on the presumption that the alleged "Covid-19 Pandemic is Real" and that the "mRNA vaccine constitutes a SOLUTION to the alleged Covid-19 pandemic." Both initiatives are based on outright fraud and corruption. Here is the evidence:

## **The tragic folly of lockdown**

Politicians argued that the draconian lockdowns were needed to protect lives. From the excess-mortality data, we now know they were not. Instead, they have contributed to the enormous collateral damage that we will have to live with for many years to come. It is tragic. By ignoring basic,

long-standing principles of public health during the pandemic, most nations marched down the path of folly together. The leaders of those nations will be fine, except for some early retirements. The devastation on children, the poor, the working class and the middle class, on the other hand, will take decades to repair.

"It is our duty and right to restore our world by removing the power from the destructive leaders and placing it back into the hands of the people. The New World Order is no longer conspiracy. The globalists will come to our rescue from the calamity they have created. They say you will not own anything, but you will be happy. So, what else could you possibly ask for?

If there is anything I hope to accomplish in this life, I pray it will be getting people to understand that there are those in authority who have made evil and imminent plans for every human being on this planet. Without any doubt, the most heinous plot ever devised by mankind. These plans are not mere proposals, but a course of action being taken as we speak with many notable world leaders taking part.

## **ISLAMOPHOBIA**

### **'Islamophobia' Is as Old as Islam**

Churchill well summed up the matter as follows: "Individual Moslems may show splendid qualities -- but the influence of the religion paralyses the

social development of those who follow it. No stronger retrograde force exists in the world."

The OIC and UN can say whatever they want; they can claim that, unlike every other major religion, and for some odd reason, Islam is forever and perpetually "misunderstood." But fear and dislike of Islam has been the mainstream position among non-Muslims for nearly 1,400 years -- ever since Muhammad started raiding, plundering, massacring, and enslaving non-Muslims ("infidels") in the name of his god. And it is because his followers, Muslims, continue raiding, plundering, massacring, and enslaving "infidels" that fear and dislike of Islam -- what is called "Islamophobia" -- exists to this day.

## **Political Islam in Kafir Politics with Bill Warner**

Both the US Congress and Senate are looking at laws that will make Islamophobia a crime. This will replace our standards of slander with the standards of Islam. Our slander is about telling a lie about someone and is a misdemeanor. Islamic slander is not based on facts but based on dislike. If you talk about Islam using facts and a Muslim does not like it, then that is slander and is punishable as a felony, up to and including death. Effectively this destroys our freedom of speech. This is a disaster. We need to make this clear to our political leaders.

### **Free Speech Above All**

Other voices are expressing their opinion that the time for cancel culture is over, The British minister of justice and deputy prime minister Dominic Raab warned on March 24, 2022 that the parameters of free speech and democratic debate are being whittled away, whether by the privacy issue or by wokery and political correctness. Free speech should be given a

different, dominant, status in the pecking order of rights. We must, he argued, strengthen free speech, the liberty that guards all of our other freedoms.

## **A Universal Basic Income?**

The idea to give a free cash stipend to everyone is wrongheaded. Simply giving people the means to acquire necessities and the material pleasures of life would effectively make every citizen a ward of the state. That's fine for children. But in adults, it would undermine the sense of independence and self-reliance that fosters self-respect. It would create a nation of sheep and do considerable harm to people—perhaps even destroy them.

It's a long road from soft to hard totalitarianism. And some friends are certain we're there already. But I say not quite, and I will write about the differences between these two conditions soon. But it all starts somewhere, and the road has gotten a lot shorter since my breakfast with George. Canada has put on the soft-totalitarian slippers, and will soon want to exchange them for boots. ## **Why I hope Viktor Orban wins on Sunday**

With President Trump having been ousted by election fraud and President Bolsonaro at risk of a similar coup, Orban may well be the last man standing in the Western national-populist movement. Just as he stood by us in January 2021 in recognizing Stop the Steal as an internal affair of the

United States — at a time when most of the world's nations were condemning our president and our movement — we should stand by him on Sunday.

## YOU TUBES

### How you are PROGRAMMED to be poor

A lot of people don't realise, but for most of us, society is built to keep us poor. And a lot of this is subconscious, that we don't realise is even happening to us. Whether it's our schooling system build during the industrial revolution, the way media programs us to be poor, or the phenomenal success of large companies who are able to subconsciously program you to spend until you've got nothing left, the odds are definitely stacked against us all. Now I'm not saying that becoming successful or financially abundant is all about mindset. It's not. Yes, you need a great mindset of abundance as a building block for whatever it is you're trying to achieve in life. But that needs to be combined with a plan, knowledge, and action as well. Enjoy!
