**“In keeping silent about evil, in burying it so deep within us that no sign of it appears on the surface, we are implanting it, and it will rise up a thousand fold in the future. When we neither punish nor reproach evildoers we are not simply protecting their trivial old age, we are thereby ripping the foundations of justice from beneath new generations.”**

### **Canadian pastor who was jailed for 51 days after speaking to trucker convoy alleges mistreatment in prison**

Artur Pawlowski was taken to Calgary Remand Centre, where he alleges he was treated poorly. He said he was placed for a time in a small metal cage, not given water for a whole day, and deprived of both his glasses and a Bible for several days. He claimed he was strip-searched repeatedly, spent many hours in solitary confinement and was made to sleep on cold concrete.

Independent media outlet Rebel News is suing the Canada Revenue Agency (CRA) after the agency decided Rebel does not meet the standard of "qualified Canadian journalism organization," which is necessary to be eligible for federal tax credits and other programs. Rebel News publisher Ezra Levant told The Epoch Times the fact that the government can decide who qualifies as approved media is "not appropriate for a free country."

## **Canada's new budget includes regulating crowdfunding after Freedom Convoy support**

Canada's new budget announced On April 8 includes restrictions on crowdfunding platforms and an investigation into cryptocurrency. The two provisions are some of the sanctions the government imposed under the Emergencies Act to stop the Freedom Convoy Protest. While announcing the new budget, Finance Minister Chrystia Freeland said that there would be stricter regulations for crowdfunding platforms and payments processors and a "legislative review" of cryptocurrency.

## **Liberals' 2022 Budget Contains Allotment For Chinese Style Central Bank Digital Currency (CBDC)**

The CBDC acronym stands for Central Bank Digital Currency, and it operates exactly how the name sounds: it's a digital currency completely controlled by the Bank of Canada, and on most levels, the concept is a copy of the Chinese Digital Yuan, which was rolled out last year. The current Trudeau Liberal government absolutely should not be given a tool to control your bank account with the click of a button, considering their recent and repulsive decision to freeze and seize Freedom Convoy protestors' bank accounts.

## **Government has no business in the bank accounts of the nation by Conrad Black**

The imposition of sanctions on Russia is being cited as an excuse for another massive assault on the remaining tatters of the privacy of the people of the entire politically organized world. Officially, we are all urged to acquiesce to public revelations of every conceivable connection we may have to assets of any kind that may be connected to Russian oligarchs, but this is the pretext for a thickening of the gigantic cloud of self-righteous officious smugness that has turned routine banking into the financial equivalent of compulsively frequent colonoscopies. In fact, the Russians have little to do with the insatiable ambition of all governments to intrude into our personal lives in ways that governments have no right to do. No reputable authority can contend that what a bank is required to learn about our financial transactions is required for governments to discharge their basic duties to assure a well-running civil society.

## **Canada's Digital Dictator Strikes Again**

"The Government of Canada, Air Canada and two major Canadian airports have partnered with the World Economic Forum (WEF) on a digital ID project that could see a social credit-like system be required for travelling. Trudeau started to get the WEF ball rolling by giving something not his to give to the WEF's "Great Reset"—the sovereign country called Canada. ## **Canada: Self-described Muslim Brotherhood charity seeks court shutdown of federal audit, charging 'systemic Islamophobia'**

The Muslim Association of Canada (MAC) is being accused of funneling money to designated terrorist organization IRFAN-Canada. A Canadian police raid found that MAC gave \$296,514 to IRFAN-Canada between 2001 and 2010. IRFAN-Canada is a not for profit organization operating in Canada. Between 2005 and 2009, IRFAN-Canada transferred approximately \$14.6 million worth of resources to various organizations associated with HAMAS, a listed terrorist entity under the Criminal Code. The association claims in the court filing that since the revenue agency audit began in 2015, it has been "tainted throughout by systemic bias and Islamophobia."

## Quebec tables Bill 32 allowing 'any word' to be uttered in university classrooms

A new bill tabled Wednesday in Quebec would allow “any word” to be uttered in university classrooms as long as it’s used in an academic context, the province’s higher education minister said. “Classrooms are not safe spaces; they are spaces for debate,” McCann said, rejecting a common notion championed on university campuses across North America that students should not have to be exposed to certain kinds of hateful speech.

## Bill C-11 to regulate Canada’s internet

According to the Bill, search engines, like Google, will be required to boost news organizations that promote “racialized communities, cultural and linguistic minorities, LGBTQ2+ communities, and persons with disabilities.” Consequently, non-compliant news publishers not focusing on such progressive topics will be punished by receiving lower rankings in searches. Trusted organizations like The Counter Signal, True North, Rebel News, and The Post Millennial will be shuffled to the last page of search results.

**On April 17, let’s celebrate the 40th Anniversary of the Charter of Rights and Freedoms and re-read its contents!**

<https://laws-lois.justice.gc.ca/eng/const/page-12.html>

## **However - The Charter has not stopped Canada's slide toward tyranny**

Canadians who assert their *Charter* rights will typically have to wait for years before a court rules on whether the government's violation is "reasonable." Long waits are caused primarily by Canada having too few courts and too few judges. During the years that it takes to litigate a case, governments typically continue on their merry way of violating citizens' rights and freedoms. Armed with easy access to billions of tax dollars, governments lack the incentive to obtain rulings quickly. The shortage of judges and courtrooms further enables governments to delay a speedy resolution of *Charter* claims. Justice delayed is justice denied.

Canada's federal and provincial politicians should be embarrassed to celebrate the 40th anniversary of the *Charter* on April 17. No provincial premier has actually apologized for the repeated and flagrant violations, since March of 2020, of citizens' freedoms to move, travel, associate, assemble, worship, and exercise control of their own bodies by deciding what medical treatments they will or will not receive. Federally, Parliament's Liberal-NDP majority imposes unscientific discrimination against the "misogynist, anti-science, racist, extremists" who have not received two Covid shots, in spite of the fact that vaccinated Canadians get the virus and spread the virus.

### **C3RF Update, 15 Apr 2022 – Money talks**

This week's update takes the adage "money talks" to heart in determining just what the Government of Canada truly sees as its priorities. The federal budget of 2022 provides the backdrop that allows for such an analysis and the results are rather startling. Forget about the Wuhan virus and its two-plus year attack on the country's economic and social well being - not to

mention the devastation it wreaked on the civil liberties of its citizens. The contagion might never have happened given the budget's concentration on re-imagining the economy to accommodate a great "reset". Who needs Charter rights and freedoms when they impede the accomplishment of a new, green utopia?

## **TRUCKERS CONVOY UPDATE**

### **How the Liberals and NDP pushed the arson hoax about the Freedom Convoy**

Despite the now undeniable absolution of the Freedom Convoy of an alleged attempt to burn down a building full of entrapped residents, the governing Ottawa establishment seems to have been replaced with crickets. Looking through the parliamentary debate, it is clear that a hoax played a key role in justifying Trudeau's first-ever use of the Emergencies Act, potentially setting a precedent for the regular use of government emergency powers to quash protests that are politically inconvenient.

<https://tnc.news/2022/04/07/dzsurdzsa-how-the-liberals-and-ndp-pushed-the-arson-hoax-about-the-freedom-convoy/>

### **Ontario Provincial Police state the truckers convoy was a National security threat**

Recently, the Commissioner of the OPP, Thomas Carrique stood before the House of Commons Public Safety Committee and advised the Committee that they were aware the Freedom Convoy was a threat to national security some 7 days prior to the Federal Government's invoking of the Emergency Act. He also advised that protests held across the country "required 'unprecedented national collaboration' to prevent injury, preserve life and protect critical infrastructure." We are not aware of any such threats or incidents that occurred during the Freedom Convoy.

<https://policeonguard.ca/ontario-provincial-police-state-the-truckers-convoy-was-a-national-security-threat/>

## **Will anyone apologize for falsely accusing truckers of attempted arson in Ottawa? By Rex Murphy**

You add Singh's incendiary charges to Prime Minister Justin Trudeau's brutal descriptions of the protesters — racists, homophobes, misogynists, etc. — and the alarmist rhetoric coming from MPs and the mayor of Ottawa, and it's easy to see how the Emergencies Act found so much support.

Well, now that the central act, the biggest scare of the whole ordeal, has been established as having nothing to do with the maligned truckers, will there be apologies from all those concerned? Will there be statements of regret about hastily maligning a largely peaceful protest?

## **Biggest Lie in World History: There Never Was A Pandemic. The Data Base is Flawed. The Covid Mandates including the Vaccine are Invalid**

Destabilizing the social, political and economic structure of 190 sovereign countries cannot constitute a “solution” to combating the virus. But that was the imposed “solution” which was implemented in several stages from the very outset of the corona crisis in January 2020. It’s the destruction of people’s lives. It is the destabilization of civil society.

## **Official Government of Canada Data: Triple-Vaxxed FIVE TIMES More Likely to Die of Covid**

When we divide people in Canada into three groups — unvaccinated, double-vaccinated, and triple-vaccinated — there is a plurality of people who are unvaccinated. This is important to know up front because the quick reply from vaxx-nannies who do not read this article all the way through will be, “of course more vaccinated get sick and die because there are a lot more of them.” But the data is extraordinarily clear that double-vaxxed die more often than unvaxxed and triple-vaxxed die more often than double-vaxxed.

## **In pursuit of zero COVID, China starves its citizens**

China, with a bit of help from Fauci's NIH, gave the world the gift of COVID. Even if it didn't create the virus in a Wuhan lab (although I believe it did), China's policy was to hide the virus, and then, even as it locked down its own people, it put Chinese citizens on airplanes to spread the virus throughout the world. And, in a special blessing to China, the West chose to embrace policies that destroyed Western economies while heightening the West's drift to totalitarianism.

Meghan Kelly and Robert Kennedy also discuss how Fauci and other public health leaders have misled the public about the origins of the COVID pandemic. Kennedy reviews how Dr. Ralph Baric had problems with pathogens escaping from his lab at UNC Chapel Hill, how the U.S.

## **The Doctor Who Exposed Fauci’s Fallacies and Got Harassed and Fired from HHS for Telling the Truth**

Dr. Paul Elias Alexander was a well-credentialed, internationally known epidemiologist invited by Trump administration officials to be part of the COVID 19 response team at the White House in April of 2020. He packed up his family, leaving a secure and prominent position in Canada to move to Washington, DC. But then he criticized the public health mandates by Drs. Fauci, Collins, and Birx, and showed them research that proved they were wrong about lockdowns, school closings, masking, and social distancing. Following that, he was silenced, harassed, and then fired.

## **The WHO is building a global vaccine passport**

The World Health Organization (WHO) has contracted German-based Deutsche Telekom subsidiary T-Systems to develop a global vaccine passport system, with plans to link every person on the planet to a QR code digital ID. As reported by The Counter Signal, the push for a global vaccine passport coincides with the WHO’s drafting of a global pandemic treaty, which would legally bind member states to the WHO’s International Health Regulations and allow the organization to dictate all future pandemic responses, utterly quashing national health sovereignty.

## **What the Mask Did by David Solway**

It is perhaps one mark of how far the public discourse has been skewed and our perspectives warped that we even need to remind ourselves of this simple fact: mask-wearing is not “normal.” Nor, except in a few situations, is it good. David Solway applies scientific evidence, psychology and philosophy to this erudite discussion of the deeper – and mostly dire – implications of mass masking during the pandemic, an enforced yet often eagerly embraced practice that, he warns, has rendered many of us travesties of our own humanity. Solway also reminds us of the eternal magic of the human face – one of the keys to our individuality, humanity and childhood development.

# **THE GREAT RESET**

## **The World Economic Forum’s Agenda**

Central to the Fourth Industrial Revolution is the creation of a global Digital ID, microchip implants, gene editing, designer babies, evermore intrusive

smart devices, mRNA gene therapy for a rapidly expanding list of diseases, bionanotechnology, Artificial Intelligence and machine learning, and Elon Musk's Neuralink. The latter is described as "ultra-high bandwidth brain-machine interfaces to connect humans and computers," while other implanted microchips will be used to interact with the Internet of Things.

Anyone who is not concerned with this development should be, for the implementation of a global Digital ID will mark the end of human freedom as we know it. The World Economic Forum's Agenda must be opposed at all levels of society to secure the continued prosperity of our species.

## THE ENVIRONMENT

### **Ottawa's Suicidal Climate Plans a Cautionary Tale for Governments Everywhere**

Moore shows open-pit mines gouged deep into the Earth to extract iron, aluminum, copper, and other minerals needed for these plants. Hundreds of tons of cement are required to anchor the base of the 300-500-foot-high industrial wind turbines, which slaughter millions of birds and bats every year. And then there are untold tons of earth and rocks blasted with thousands of pounds of dynamite to extract relatively small amounts of rare-earth metals, produced mostly under terrible environmental conditions in China. Moore's film shows that "green energy" is anything but green.

The quagmire in which the West now finds itself is deep, but Zelensky's urging NATO to "close the skies" is an option that, so to speak, will not fly, short of igniting a major, perhaps nuclear, war that no sane person wants.
