### **Canada plans to follow in the path of the world's worst dictators**

The government has spoken. If a criminal gang or a bear is coming after you, you might be lucky enough to have a long gun, but after bullet number five, you're done. (Of course, the rich and powerful will retain their security guards.) But that's not the real threat. The real threat, always, is the government that has disarmed you. Remember, too, that Hitler disarmed the Jews, the Soviets disarmed everyone, and the Chinese have some of the world's strictest gun control laws.

## **Chinese Fighter Jets Buzz Canadian Planes, Putting Personnel at Risk, Says Canada's Defence Department**

A Canadian military plane was dangerously harassed by Chinese fighter jets during a recent mission in international airspace, the Department of National Defence (DND) said on June 1. Sources speaking to Global News said the Chinese jets flew so close to the Aurora that pilots could make eye contact, with the Chinese pilots sometimes giving the Canadians the middle finger.

## **Mount Royal Faculty Association [MRFA] Retreat 2022 - Frances Widdowson Presentation**

This woman is a hero. Such a strong, reasonable voice for the Re-Enlightenment - and without a note of bitterness in regard to the vast injustice which has just befallen her.

## **Ethics Commissioner Receives 1000 Requests To Investigate Liberal-WEF Connection**

So other branches of government have been receiving similar requests. What a revelation it is. To be followed by the thought that every government institution in the country could be inundated with such requests, and it wouldn't make a speck of difference. Why not? Because government and media have branded all dissent from government positioning "*misinformation*." It's like something out of George Orwell's "1984" and the Ministry of Truth:

## **Quebec's intolerant government undermines Canadian claims of progressiveness**

The great blind spot of such optimistic analysis has always been Quebec — a province housing 8.7 million of Canada's 38.7 million citizens, and a place preoccupied with pursuing policies at odds with every flattering Canadian stereotype. On virtually any metric one might correlate with a promising, modern society — a hospitable business climate, an up-to-date education system, open and inviting communities, robust protection of individual liberties, a moderate and rational political class — Canada's second-largest province marches unapologetically in the opposite direction.

Canada may still be a country worth betting on, but in a post-Bill 96 world, it's clear any compliments of Canadian progressiveness must be accompanied by a large, Quebec-shaped asterisk.

## **Tory Motion to Return to Pre-Pandemic Travel Rules Defeated**

The motion, defeated 202 to 117, said a return to pre-pandemic rules and services is needed to deal with "unacceptable wait times" in airports. "That leads us on this side of the House to believe that there is no evidence, there are no metrics and there is no good reason, other than the ideological drive to punish those who do not agree with the government."

## **Travel Vax Mandate Lawsuit: Canadian Court Dismisses Feds' Motion to Remove Challengers' Supporting Documents**

Two businessmen taking the Canadian federal government to court over its vaccine mandate for travel have defeated an attempt by the Attorney General (AG) to remove portions of their affidavits in support of their position from the record. Case management judge Mireille Tabib dismissed the AG motion on May 25 in the case of Shaun Rickard and Karl Harrison against Transport Canada and the Attorney General.

The legal advocacy group Justice Centre for Constitutional Freedoms (JCCF) has been involved in many court challenges to COVID-19 restrictions in recent months. It is currently representing Bernier as well as Peckford and his co-applicants on the issue of federal travel mandates. The JCCF says Canada is the only country in the developed world that bans unvaccinated citizens from air travel.

## **Trudeau government adopted 72 secret orders-in-council**

Of the two secret OICs adopted within the timeframe of the Freedom Convoy protests, the Privy Council has refused to release the information. The agency cited a section of access to information law allowing the government to keep secret documents which, if revealed, "could reasonably be expected to be injurious to the conduct of international affairs, the defence of Canada or any state allied or associated with Canada, or the detection, prevention or suppression of subversive or hostile activities."

## **Trudeau takes another major step toward totalitarianism**

Agenda 2030 is nothing more than an assault on national sovereignty and common people by the power-hungry global aristocracy. As you may recall, Klaus Schwab, president of the Forum, said, "The pandemic represents a rare but narrow window of opportunity to reflect, reimagine, and reset our world." Enter Canadian prime minister Justin Trudeau.

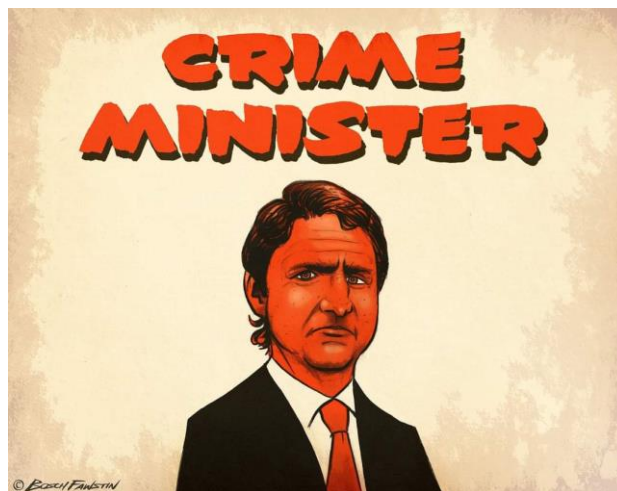

According to Schwab, more than half of Justin Trudeau's Cabinet are members of the Forum. Just yesterday, Trudeau announced that his regime would be implementing a "national freeze" on gun ownership, ultimately capping the number of legal guns within Canadian borders.

## **Superstar Theo Fleury Brings Spotlight To Anti-Canuck Justin Trudeau**

It took Calgary Flames superstar Theo Fleury to shine a spotlight on what Prime Minister Justin Trudeau is doing to Canada. Fleury, legendary on ice, played hockey. Trudeau doesn't play hockey, he plays people and Tiddlywinks with the country of Canada. "Former Calgary Flames superstar Theo Fleury sat down with Tucker Carlson to discuss the creeping threat of authoritarianism in Canada." Some would call it the galloping "threat of authoritarianism in Canada", rather than a "creeping" one!

## **Was Canada's orgy of self-recrimination over...nothing?**

Last year, Canada began an orgy of self-recrimination when researchers claimed to have found a mass grave at a residential school in British Columbia with the remains of more than 200 indigenous children. The problem is that the ground-penetrating radar used to make this "find" yielded highly suspect results, and not a single grave has been confirmed through an archaeological dig. Now a group of dissident scholars is calling foul on this entire narrative.

### **C3RF Update, 03 June 2022 – What if?**

This week's update notes the nation's accelerating slide away from coherent planning processes to embrace superficial, ideologically based solutions. The tendency is so entrenched that the "what if?" question associated with leaving proven, longstanding plans behind is not even asked. What could go wrong when this rubber hits this road?

### **A compendium of tyrannical measures, actions and decisions that have impacted the civil liberties of Canadians culled from C3RF "Updates"**

The C3RF "One Stop Tyrant Shop" is intended to provide citizens with a factual overview of the progressive erosion of fundamental Charter

rights and freedoms over the period September 2015 to 13 May 2022. The data is taken from C3RF “Update” reports that have chronicled related developments over the period on a near weekly basis for the past four years.

## **Action4Canada - Legal Action Update May 31st, 2022**

It was an amazing day in court watching Rocco Galati in action. Rocco was brilliant as he argued the merits of the case in opposition to the Motion to Strike. Rocco meticulously provided case law, both Canadian and International, to defend our position as well as facts supported by evidence, to counter the defense’s accusation that the case was founded on “conspiracy theories.” Mr. Galati advised Justice Ross that the case is not based on conspiracy theories but rather facts, and that he can provide the evidence proving that Bill Gates funds GAVI and the WHO; Bonnie Henry has ties to Bill Gates and the WHO; Teresa Tam is tied to the WHO; Justin Trudeau paid a billion dollars to Bill Gates; and many more important points. In closing, Rocco stood on the merits of the case and that it is a matter of public interest and should not be dismissed. Rocco added, “the Constitution does not bend, kneel or kiss the feet of public health offices or any public official or judicial legislatures.”

# CONVOY UPDATE

## **Bank Apologizes over Trucker Convoy account freeze**

Scotiabank is the first of the 'big five' banks to issue an apology over the freezing of bank accounts belonging to a trucker convoy protesters. "I don't believe the banks went out of their way to target clients. I believe It came from somewhere else. They didn't do it on their own accord." Dichter said.

## **Former Ottawa Police Chief Says He Did Not Request Emergencies Act**

Former Ottawa Police Service (OPS) Chief Peter Sloly said on Thursday neither he nor anyone in the service he directed asked the federal government to invoke the Emergencies Act to deal with the Freedom Convoy. Sloly was testifying before the House of Commons Standing Committee on Procedure and House Affairs, which is studying expanding the parliamentary precinct in light of this winter's large-scale and long-term protest. Prime Minister Justin Trudeau and Public Safety Minister Marco Mendicino have said repeatedly that the public order emergency was declared on advice from law enforcement.

## **Why Bitcoin matters to the Freedom Convoy movement**

I found it ironic that the legacy media initially failed to report on the role bitcoin played in raising funds for the Freedom Convoy given their immediate obsession with the amount of money raised by the convoy's GoFundMe campaign and then subsequently with GiveSendGo. It was only when bitcoin became a serious threat in terms of collecting donations for

the convoy, did the legacy media shift its focus to bitcoin. However, they proceeded to report on it inaccurately.

As sensational as the rhetoric and the deplorable tactics used by the Canadian government was, a big part of this story was the almost \$1.2 million in bitcoin raised by anonymous members of the global bitcoin community and the only money that could not be blocked by the Canadian government. The government failed to stop the distribution of bitcoin donations directly to the truckers, because bitcoin is not something that governments can control.

## COVID-19 UPDATES

### **Pfizer and Medicine Regulators hid dangers of Covid-19 Vaccination during Pregnancy due to Study finding increased risk of Birth Defects & Infertility**

A 'Freedom of Information' request alongside an in-depth dive into the only pregnancy/fertility study performed on the Pfizer Covid-19 injection has revealed that Medicine Regulators and Pfizer chose to publicly cover-up alarming abnormalities of the developing foetus and falsely downgraded the actual risk of Covid-19 vaccination during pregnancy by suppressing documented findings of the clinical data.

## **Dear Friends, Sorry to Announce a Genocide**

The WarRoom/DailyClout Pfizer Documents Research Volunteers, a group of 3000 highly credentialed doctors, RNs, biostatisticians, medical fraud investigators, lab clinicians and research scientists, have been turning out report after report, as you may know, to tell the world what is in the 55,000 internal Pfizer documents which the FDA had asked a court to keep under wraps for 75 years. By court order, these documents were forcibly disclosed. And our experts are serving humanity by reading through these documents and explaining them in lay terms. The lies revealed are stunning.

## **Video: Pfizer's "Secret" Report on the Covid Vaccine. Beyond Manslaughter. The Evidence is Overwhelming. The Vaccine Should Be Immediately Withdrawn Worldwide**

Pfizer was fully aware that the mRNA vaccine which it is marketing worldwide would result in a wave of mortality and morbidity. This is tantamount to a crime against humanity on the part of Big Pharma. Pfizer knew from the outset that it was a killer vaccine.

It is also a Mea Culpa and Treason on the part of corrupt national governments Worldwide which are being threatened and bribed by Big Pharma. No attempt has been made by the governments to call for the withdrawal of the killer vaccine.

## ISLAMOPHOBIA

### **Why Does One Mosque Massacre Outweigh Countless Church Massacres?**

The United Nations recently named March 15 as “international day to combat Islamophobia.” That date was chosen because it witnessed one of the worst terror attacks on Muslims: on March 15, 2019, an armed Australian man, Brenton Tarrant, entered two mosques in New Zealand and opened fire on unarmed and helpless Muslim worshippers; 51 were killed and 40 injured.

This response, however, raises a critically important question: if one non-Muslim attack on a mosque is enough for the UN to institutionalize a

special day for Islam, what about the countless, often worse, Muslim attacks on non-Muslim places of worship? Why have they not elicited a similar response from the UN?

# THE ENVIRONMENT

## **Green Energy Chickens Coming Home to Roost**

This year will graphically demonstrate the malign consequences of the misguided efforts to replace cheap, reliable fossil fuel energy with unreliable, inefficient “renewable” energy like wind and solar. Never in history has a civilization willfully embarked on destroying its material foundations, based solely on a hypothesis rather than scientifically established fact.

## **Renewables vs. Reliables — Summer Energy Demands**

The cost of the green agenda is already higher than we should be willing to pay. Soaring gas prices, inflation, and now an unreliable energy grid and the thousands of deaths that will come with it are all outcomes of the Left’s ruinous plan to save the environment and thereby save us from ourselves.

## **The Green World Order: Efforts to Cease the Use of Crude Oil Could Be the Greatest Threat to Civilisation’s Eight Billion People**

The rise of the Green World Order that will be addressed at the Stockholm+50 needs to address the impact on the world's 8 billion residents in a future world without fossil fuels as efforts to cease the use of crude oil could be the greatest threat to civilisation's eight billion, and may result in billions, not millions, of fatalities from diseases, malnutrition, and weather-related deaths trying to live without the fossil fuels that are benefiting society.

Neither wind turbines nor solar panels can manufacture anything for society. Climate change may impact humanity but being mandated to live without the products manufactured from oil will necessitate lifestyles being mandated back to the horse and buggy days of the 1800s and could be the greatest threat to civilisation's eight billion residents.

## **The drag-queening of America's children**

Despite their sparkly make-up, drag queens are not wholesome. They are, as I said, grotesque parodies of real women and, usually, wildly sexualized parodies. As Matt Walsh has said, you'd never dream of letting young children watch real women dance as these men do. The fact that they are pretending to be women doesn't make what they're doing any less overtly sexual or abnormal. Parents need to stop being intimidated by the endless barrage of insults and take a stand against their children being groomed by an endless parade of tawdry (and frequently talentless), self-loathing, and misogynistic men.

A bar in Dallas, Texas is advertising a drag show for children including the opportunity for some kids to perform with the drag queens on stage. This is the drag queen host.

Note: This is a gross picture but you need to see clearly what they are doing to our children. This is not about education. It is about porn and child abuse.

### **Pamela Geller Discussing Massive Corruption in the FBI on OAN's Tipping Point**

While I do believe that undercover FBI agents have to play along with the jihadis they're dealing with, because in order to be in an informant you have to have credibility, it's a whole other thing if you're encouraging and cheering on the proposed murder of Americans who are standing in defense of the freedom of speech, and then not doing anything about it. Why did the FBI only have one agent there? And not a team waiting for them to shoot back?

## **Who Really Killed Seth Rich?**

Since the Obama Administration, in my opinion, there has been an ongoing joint venture criminal conspiracy as described by Kash Patel. This conspiracy includes the Clinton and Biden crime families, with many of the same actors, both foreign and domestic working together for their common self-interested purposes. This conspiracy committed many crimes, against the People of the United States, including a coup of a sitting President. It constitutes a coup using an illegal usurpation of power, by treason, mutiny, bribery, frauds, and thefts of public funds, and cover-ups and obstruction of justice committed by a criminal enterprise[s] as defined in Racketeer Influenced and Corrupt Organizations Act (RICO).
