Canada: Trudeau Liberals Accused of 'Funding Hate' at Muslim Association of Canada Conference

The CRA owes it to all Canadian taxpayers to be prudent, despite heavy-handed pressure and accusations of “Islamophobia.” It is not biased or prejudiced for CRA to exercise due diligence regarding Muslim charities, or any charity. The power of “Islamophobia” accusations has proved to be immense. It now threatens to derail due diligence at CRA and possibly exonerate Islamists of terrorism financing and a range of other misdeeds, despite any overarching evidence. Kowtowing to Islamic supremacist lobbies will also set an alarming precedent, even beyond Canada’s borders. In the meantime, Trudeau keeps the money flowing in to the MAC in order to combat “hate” and “Islamophobia.”

The Liberals are funding hate. How else to describe the speakers at this Toronto convention?

Muslim human rights activists and Jewish advocacy organizations say they're appalled that the Trudeau government continues to fund the Muslim Association of Canada (MAC), which has taken a turn in recent years to an unambiguously reactionary and heavily politicized version of Islam embraced by only a small minority of Canada's Muslims. The lineup of speakers for an upcoming convention of the Muslim Association of Canada is disturbing.

'Betrayal': Canadian Soldiers Ousted Over Vaccine Mandate Speak Out

As of June 15, DND says that 103 regular force members have been voluntarily released with the primary reason being mandatory vaccination. Another 234 have been released non-voluntarily due to non-compliance. Over 1,200 are currently under remedial measures or administrative review, which will likely lead to their release. "You train to fight and die with your brothers, and for your regiment, and for your leaders, and to be told that you're not suitable to do so because of your choice, and because of standing up for what you believe in, it's really difficult."

Will the Real Canadian Soldiers Stand Up?

"Starting in September, there will be no restrictions whatsoever on hair length, including for beards (recruits will also be spared the existing policy of having their heads shaved at basic training). Face tattoos will have the okay, provided they're not racist or gang-related. "Hoop earrings, ear spacers and eyelash extensions are fine, provided they're not getting in the way of "operational requirements. And the whole dress code will be

“gender neutral,” meaning that men can now be issued “traditionally gendered items” such as skirts, nylons and purses.”

James Topp to face court martial over vaccine mandate opposition

The Canadian military is gearing up to have Warrant Officer James Topp court martialed for speaking out against Covid vaccine mandates. According to Topp’s lawyer, Phillip Millar, the beleaguered soldier will have the opportunity to present his case before a military court. The decision comes less than a week after Topp arrived in Ottawa having marched across the country in protest of pandemic measures.

Message to Justin Trudeau from US Army LT. Steven Rogers – Please listen!

You are a communist and the world knows it. We in the US have the tenth amendment that limits the power of people like you. Your tyrannical behaviour would be limited and you would not be allowed to get away with what you have done, especially during the Truckers Convoy.

Canada Day Security Checks Hindering Celebrations, Protests a Further Sign of Creeping Govt Authoritarianism

Canada's descent into authoritarianism was illustrated July 1 when we saw citizens being herded through metal detectors and having their bags searched under a heavy security presence as they tried to celebrate Canada Day in the nation's capital. Accountability, democracy, civil liberties, and transparency appear to be annoying afterthoughts to Canada's Liberal government. They are all hindrances that need to be skirted and bypassed when possible. over citizens.

We're number one! Celebrate Canada Day with all the ways we're the top nation

Happy 155th birthday, Canada! While we Canadians have been a little reticent to wave the flag in recent years, all things considered we're still a prosperous, peaceful, democratic nation where people of all races generally tolerate each other's presence. If that's not good enough for you, we rounded up all the ways in which Canada actually does lead the world. One fact: Of the five farthest sniper kills ever recorded, three were made by Canadians!

Trudeau vs. Canada with Rex Murphy and Dr. Jordan Peterson – wonderful talk

In this episode, Rex Murphy and I discuss the strange times in current Canadian politics, the perpetual scandals of Justin Trudeau, media censorship and the appalling Bill C-11, fascism on the Left, Zoom parliament, and much more. Thanks for watching.

Canada's eroding democracy under Trudeau's watch

We are currently dealing with the failure of the government to hand over documents ordered by Parliament, the arbitrary use of the Emergencies Act and failure to hand over cabinet documents to the inquiry charged with looking into that action, the imposition of a draconian "Motion 11," that gives the executive unprecedented powers to control the Parliamentary agenda, and alleged interference by the government in an RCMP investigation. These are just the key elements of democratic decline that we have seen in the last few months

16 unvaccinated healthcare workers take Manitoba government to court

The lawyer representing the healthcare workers Leighton Grey is asking for \$1.5 million in damages for her clients, who were among the 176 unvaccinated healthcare providers fired by Manitoba. Complainants are also claiming that due to being placed on unpaid leave, they were unable to collect unemployment benefits and were faced with mental anguish as a result of their circumstances.

112 WestJet employees suing airline, Government of Canada over vax mandates

The group said, although the vaccine mandates were initiated by the federal government, it is naming WestJet in the lawsuit because it believes the airline had a "role and responsibility to protect its employees from such egregious assaults on rights and freedoms in the workplace." "Many of us have individual variances in our stories. Some are on unpaid leave, some suffer from vaccine injury, some were forced into early retirement, and some were terminated," said the group, adding, "Although impacted individually, we all suffer equally."

C3RF "In Hot" interview with former WestJet pilot, Rob Simpson

Former WestJet pilot, Rob Simpson, was dismissed summarily from his flying duties for failing to acquiesce to a mandated "jab". After losing his house and paycheck, he now lives with family in rural Alberta trying to kickstart a new life - a life that includes taking his former company, and the federal government, to court for coercion and alleged fraud. He is accompanied by over 100 of his fellow employees and that number is growing daily. Listen in on a very informative interview and think deeply on the safety dangers that our new experimental vaccines pose for the traveling public.

Canadian army helping Palestinians take over Judea and Samaria

"Imagine that Chief of Staff [Aviv] Kochavi would walk around the Canadian border wearing a uniform with ranks on his shoulder and reinforcing criminal border smugglers. Is Canada planning to start a war with Israel? A senior military figure from a foreign country who encourages criminals who have invaded the country's lands under the auspices of the PA is utterly insane and a blatant and rude move against the State of Israel," he stated.

Islamic School Association Establishes Nation-Wide Education System

Toronto District School Board informs parents that learning processes are *"based on tenets of culturally responsive pedagogy and decolonization."* Quite. CAP has to admit-- we are a tad jealous of the privilege achieved by the Islamic School Board. Imagine a school system free from LGBT education. Conservatives can only dream of freeing their children from transgender-indoctrination. *"Hey, teachers--leave our kids alone!"* But they won't. Imagine our children being free from LGBT indoctrination--what a privilege that would be.

Medical Alert: Big Pharma is out of Control

Many citizens are now waking up and becoming aware that the COVID-19 experimental jabs are causing serious harm, including death. This is finally causing people to question Big Pharma's agenda and the safety and efficacy of all jabs. Childhood jabs are at the top of the list as well as the growing push for adult injections.

TRUCKERS CONVOY

Crown seeks to revoke bail for 'Freedom Convoy' organizer Tamara Lich

She was released with a long list of conditions, including an order not to communicate with key convoy organizers, including Tom Marazzo, and a ban from all social media, except through counsel or in the presence of counsel. Crown prosecutor Moiz Karimjee told an Ottawa court on Tuesday that Lich breached one of her conditions by being seen with Marazzo at a recent gala where she accepted an award for organizing the protest.

Lich being persecuted, not prosecuted

"The courts are not a thought police," Superior Court Justice Kevin Phillips ruled. We seek only to control conduct to the extent that certain behaviour will ... likely lead to violation of the law. Here, the objective was to keep a highly problematic street protest from reviving or reoccurring, not keep an organizer from being awarded for her views."

The Ontario Crown and Ottawa police are no longer prosecuting Lich, they are persecuting her. They want her in jail so badly, they'll go to any length, look for any excuse to put her behind bars.

Freedom Convoy Books Start to Roll

People will say years from now that they went to Ottawa to demonstrate with the Freedom Convoy. They will describe the giant trucks, the carnival spirit, the disturbing intransigence of a haughty prime minister, and the brutal government-empowered police crackdown that marked the protests as a political watershed in Canadian history. COVID-19 UPDATES

Dr. Zelenko's final message to the world: 'I have no problem falling in battle ...this is a hill that we need to die on'

Dr. Zelenko will go down in history, after all is revealed, as one of the good medical docs who lived during a time when most of his colleagues were not good. They were corruptible. He was not. I never realized just how many bad actors are out there working in the medical field, giving their patients bad advice. Covid exposed them all.

THE GREAT RESET

Dutch farmers are fed up with totalitarianism rebranded as 'Climate Change'

People have had enough of the green hysteria of the global elites. Fighting against the fantasy Armageddon that climate change will apparently bring about might provide the political and media classes with a sense of purpose, but the consequences of their delusional eco-policies will be dire both for working people in the West and poor people in the underdeveloped South. What people need, and want, is growth, work,

economic security and greater comfort – none of which will be delivered by the deranged determination to slash 'bad' emissions down to zero.

Klaus Schwab's "Great Reset" Dream Soon to Burst? Now Also Peasant Protests and Blockades in Spain

After the farmers' protests in the Netherlands, there are now road blockades again in Spain. The protests of Andalusian farmers are again directed against the high prices for fuel and staple foods, as they did in March, when 150,000 farmers from all over Spain protested. Especially in the southern part of Spain, in Andalusia, the farmers are protesting because of the inflation and the enormously increased prices for energy and food. In Spain, inflation was already over 10 percent in June.

ISLAMISM

Islamist Terrorism Resurfaces in Scandinavia

On June 14, ahead of the planned Gay Pride celebration in Oslo, Bhatti posted a burning rainbow flag and a quote on social media calling for the killing of gay people. "One should kill everyone who acts as Lot's people," he wrote, quoting an Islamic hadith. The attacker struck 11 days later, on Gay Pride Night. Scandinavian states with their often naive perception of the dangers posed by Islamist terrorism and radicalized lone actors are gradually becoming a safe haven for Islamist activities.

In Molenbeek: Jihadists, Guns and (Drug) Money

The largely Muslim community of Molenbeek is not just known for raising young Islamist radicals and jihadists; it has also long served as a center for illegal drug trade, with much of the drug income helping to finance Islamist militant groups. Indeed, one main meeting place for the Paris attackers was a Molenbeek café owned by Salah Abdeslam, the only surviving member of the group, and his brother, who died in the attacks.

LGBTQ

The LGBT Hostile Work Environment

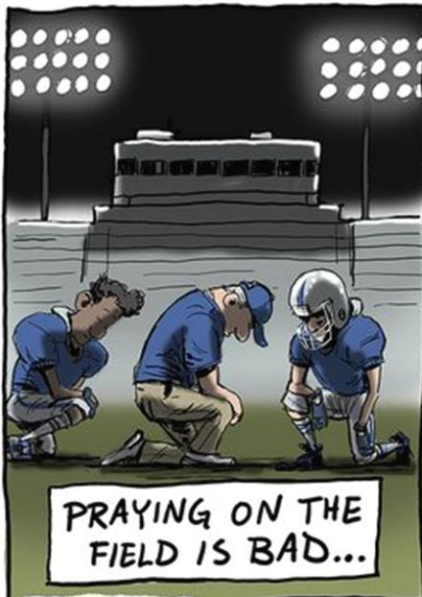

The proclamation commands, "I call upon the people of the United States to recognize the achievements of the LGBTQI+ community". That will be difficult, because the LGBTQI+ community has zero achievements. It would be absurd for any individual to credit his achievement in science, art, or any endeavor to this nonsensical amalgamation.

On the other hand, on the last day of his administration, President Trump delivered the "Proclamation on National Sanctity of Human Life Day," January 18, 2021. This uplifting document advances the universal sanctity of human life from conception to natural death and highlights the president's accomplishments promoting that ideal in law and society.

The fall of Boris Johnson

Despite the singular characteristics of this British implosion, there are striking similarities between Johnson and two other extraordinary world leaders — Israel's former prime minister, Benjamin Netanyahu, and America's former president, Donald Trump. All three were brought to power by voters repudiating the defeatist and self-destructive story being told about their nation by a progressive elite that had lost touch with reality.

In Britain, America and Israel, there's an overarching and urgent need for leaders who will robustly defend their nation against the onslaught being mounted against it both from within and without. Nothing else matters. We can live with most flaws. We can't live without a stalwart, patriotic and courageous heart.

Boris Johnson may be gone, but the Brexit spirit still reigns.

What two-and-a-half years it has been, complete with plague, penury and war in Europe. But for all the horrors of recent times and for all Johnson's many mistakes in office his tenure will remain a landmark moment in the struggle for British democracy. His Brexit deal may have been imperfect. Britain may remain lumbered with its own homegrown oligarchy and anti-democratic institutions. But in rescuing the Brexit vote from the clutches of a Remainer Parliament, in reminding the elites who ultimately rules in a democracy, and in dealing a blow to a treacherous Labour leadership that had betrayed working-class Brexit voters, Johnson's 2019 election did democracy a great service.
