Conrad Black: A moral imperative for Trudeau Liberals to resign

To the best of my knowledge, I’m the only person in the country who proclaims that the present federal government is branded by a moral imperative to resign as it has doubly forfeited its ethical right to cling to office. I have periodically presented this view over the last couple of years in writing and to live audiences that have generally responded positively to

it. The present government has announced to the Indigenous peoples of this country and for the attention of the United Nations that the forebears of the substantial majority of Canadians who are of European ancestry were guilty, and that therefore this country is collectively guilty, of attempted genocide against the Aboriginal people of Canada. This is a lie. It is not a misunderstanding; it is not a misconstrued or mis-characterized version of historical fact; it is a monstrous falsehood.

Trudeau Advances "Blood Libel" Against European-Canadians: Conrad Black

"For this country to be charged with genocide by its own government is a scandalous profanation and a blood libel against the European-descended population of Canada." "The claim that there was ever in the history of Canada any official intention to commit any form of genocide on any scale against anyone is an outrage against English- and French-Canadians and is so defamatory of the reputation and history of this country that I contend that it disqualifies those who have made it from continuing in office." Canadian Gov Funds Report Attacking David Horowitz Freedom Center

The report slurs David Horowitz as an "Islamophobia kingpin" and the "godfather of the anti-Muslim movement", Daniel Pipes as the "grandfather of Islamophobia" and Gatestone founder Nina Rosenwald as the mother of "anti-Muslim hate". Not only are these despicable lies, but the report unintentionally demonstrates how the entire concept of Islamophobia had been invented by Islamists to silence critics who point out their violence and hate.

Whither Canada

The current prime minister's campaign, amounting to a kind of jihad, to destabilize the nation and create the world's first "post-national state" proceeds on many levels. Among them, as I have previously catalogued, are a burgeoning national debt, a series of repressive bills making their way through parliament (C-4, C-11, C-12 and C-18), a prohibitive and unnecessary carbon tax, the deliberate destruction of the energy sector, the impending rollout of digital ID surveillance technology, and the notorious invoking of the deeply flawed and inappropriate Emergencies Act to deal with the Truckers' Freedom Convoy protesting the vaccine mandates. This last travesty was compounded by the government's striking a Commission of Inquiry in which it set its own terms and appointed its own Commissioner.

Over half of Canadians want Trudeau to step down in 2023: poll

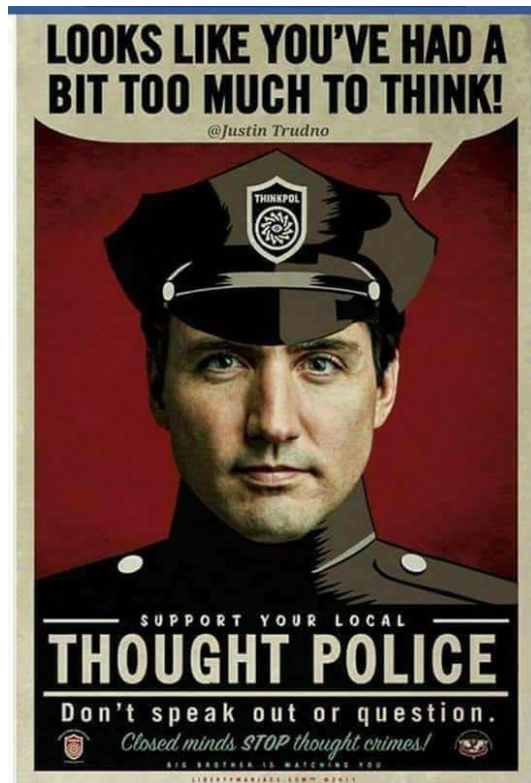

Canadians across all provinces held the belief that 2023 should be Trudeau's final year as prime minister, with Quebec as the exception – Alberta (65%), Atlantic Canada (57%), Saskatchewan and Manitoba (56%), Ontario (56%), British Columbia (54%) and Quebec (43%).

Rex Murphy: Trudeau has ensured 'there is no business case' for oil and gas

Green ideology is a contagion of folly and fantasy and there is no vaccine against it till by some miracle of nature, common sense and some reasonable acquaintance with reality makes a return to Western political thought.

FREEDOM CONVOY

Looking back at the Freedom Convoy: The Rupa Subramanya Show (ft. Benjamin Dichter)

The Freedom Convoy was the biggest story of 2022 – the historic protest influenced the end of Covid mandates and lockdowns, exposed the bias of the legacy media and concluded with never-before-used war measures by the Trudeau government.

<https://tnc.news/2022/12/29/rsshow-lookingback-convoy/>

Updates from the Freedom Convoy protest in Ottawa

It took police less than two days to expel the Freedom Convoy protesters from Ottawa, using mounted police, chemical irritants and tear gas. With the Emergencies Act in play, police first focused on clearing the Rideau and Sussex intersection, before swiftly moving west along Wellington St., eventually pushing protesters away from Parliament Hill. Legacy media coverage was slanted against the Convoy and often blatantly inaccurate,

which is why True North's audience sought out unfiltered live footage from the ground.

Ottawa Police tweets shredded by international pushback

"While I was not surprised to see Canadians react to the Ottawa Police's concerning and threatening tweets, having prominent, high-profile figures of the American conservative movement whom I have followed and admired for years, such as Dave Rubin, Kayleigh McEnany and Ted Cruz, call out Ottawa's local force for its conduct was a stark reminder that the world was watching."

COVID-19 UPDATES

Pfizer's Shots Aren't Safe and Were Never Shown to be

German autopsies found "highly unusual tissue inflammation" in people who died shortly after getting the jab, and investigators suspect the inflammation observed would be fatal. They also found spike protein in the tissues of the deceased, but not another key part of SARS-CoV-2. This suggests the actual virus was not part of the problem; the only possible source of the spike protein was the jab

<https://www.globalresearch.ca/pfizer-shots-arent-safe-were-never-shown-to-be/5803206>

C19 mRNA "Vaccines" Were Designed to Hurt Us

The FDA knew that the injections do not prevent coronavirus infections or severe disease. They knew that the genetic injections produced a hyper-toxic spike protein in their victims. They knew that many people would become severely ill following the injections. Thus, with criminal intent, the FDA approved the jabs, supported the massive coerced injection campaigns, and governments created fake statistics by pretending that

people who became ill in the initial weeks following their injection, were “unvaccinated”.

Unvaccinated Blood Is Now in Very High Demand

A growing number of people in need of blood transfusions are requesting blood that comes from people who haven't received COVID-19 shots. Pathologist Dr. Ryan Cole compared the current unknowns regarding “vaccinated blood” with HIV-tainted blood that was used for transfusions in the 1980s

"There is no blood bank with mRNA-free blood yet, not even with us. And, although we have already asked hundreds of clinics, at the moment — at least in Europe — all of them still refuse to allow the human right of free blood choice with them — or at least do not want to be mentioned, because otherwise they fear reprisals. However, we promise you that we will not give up until we can offer a worldwide network of such clinics."

Israeli Ministry of Health Refuses to Provide Complete Mortality Data Despite Court Order

"We never imagined before the coronavirus that we would ever get to this situation where people are marked," as if the unvaccinated were second-class citizens, said Shuldman, who is vaccinated. "This whole coup in the conduct of the state against the citizens obliges us to both be shocked and do something about it," he said. "This cannot go by quietly. Someone needs to open this issue and show that it was simply something very improper."

https://www.theepochtimes.com/mkt_app/israeli-ministry-of-health-refuses-to-provide-complete-mortality-data-despite-court-order_4937325.html?utm_source=andshare

Comment from Linda Goudsmit:

It will be interesting to see if the Israeli court accepts Shuldman's case. The perpetrators of Covid political medicine, including the corrupt judiciary in the United States, do not want to hear Covid cases because they do not want the evidence of Covid political medicine's malfeasance exposed, and put on the record. Instead, the perpetrators continue to insist that Covid jabs are "safe and effective." Nothing could be further from the truth. A December 2022 video of Australian Senator Gerard Rennick's Covid rant

exposing the malfeasance in Australia, is what Israel and the United States both need. The 10-minute video is well worth watching:

Ivermectin Is Safe and Effective: The Evidence

Ivermectin, for all its power against viruses, is among the safest of medicines that are in long-term and widespread use. There are no known serious drug-related adverse events. Again, it is commonly taken by the populations of 31 African countries for effect against endemic parasites. Dosing has been given as a single annual dose of 150 mcg/kg against filariasis. There have been very few serious adverse events reported over more than 30 years of use.

Insane Propaganda OMG - Shocking Stuff!

This 14-min video contains a segment showing a WHO propaganda video starting at about minute 3:47 blaming Covid deaths on the unvaxxed, calling them a killing force and linking them to extremists and terrorists. It ends (about minute 4:38) by saying "We need political solutions to address this." Yikes! I'm sure Trudeau will be happy to implement political solutions promoted by the UN and WEF.

Deaths Among CCP Elites Rise as COVID-19 Wave Hits China

Yang Lianghua, formerly a senior reporter for the Chinese communist regime's official mouthpiece People's Daily and the chief editor of the newspaper's international edition, had to wait in the emergency room for a bed in Beijing's top hospital, which was one of a long list of prominent figures tied to the Chinese Communist Party (CCP). 'SMART Cities' worldwide being converted into 'open concentration camps,' says ex-Silicon Valley engineer turned whistleblower

Aman Jabbi, one of the most important whistleblowers and voices of warning about the coming beast system, is a native of India and an engineer who worked in Silicon Valley for 25 years, co-inventor of two cellphone camera apps. He emigrated to the United States in 1988 because he admired America's culture of liberty and ingenuity. His message needs to be heard by all Americans.

Before you can break out of the matrix, you need to know that you live in a matrix, and that involves recognizing the tentacles of the matrix gaining a stranglehold on your life.

Henry Kissinger Warns Against New World War

"The preferred outcome for some is a Russia rendered impotent by the war. I disagree. For all its propensity to violence, Russia has made decisive contributions to the global equilibrium and to the balance of power for over half a millennium. Its historical role should not be degraded." A "dissolution of Russia" or a total weakening could turn the largest country in the world "into a contested vacuum". Given the large number of nuclear weapons, the result would be an extremely dangerous powder keg, where other countries "might seek to expand their claims by force".

Bill Gates Granted Authority to Buy 2100 More Acres of North Dakota Farmland

Bill Gates, who already owns close to 270,000 acres of land in the U.S., has been granted the legal authority to buy another 2100 acres in North Dakota despite protests by local residents. Gates, already the largest farmland owner in the country, has secured the go ahead to buy the land for \$13.5 million under his 'Red River Trust' company. Gates is also intent on pushing 100% synthetic meat products while he buys up record amounts of farmland and monopolizes global food production.

FREEDOM OF SPEECH

Can I Speak Freely? No You Can't!

Winston Churchill once said that an Iron Curtain had descended across Europe. Today, a Whining Curtain has descended on your university. It's

dangerous to say anything other than the prescribed orthodoxy because someone will whine and demand that you be punished, and administrators will cave into such demands. I hope you will resist.

The British Thought Police Claim Another Victim

In the beginning there was Tommy Robinson. Well, not in the beginning, perhaps. But it was Tommy, a working-class lad from Luton, England, whose outspokenness made him the first major face of bold truth-telling about Islam in a country whose entire political and media elite, it seemed, was intent on purveying pretty fictions about its ever-growing Muslim minority – and on continuing to cover up the facts that Tommy insisted on publicizing. Among them: that the Koran preaches violence against non-believers; that mosques all over Britain provided financial support to terrorists; and, most famously, that working-class girls in many English cities were being systematically raped by the members of Muslim “grooming gangs” even as local police, politicians, and social workers turned a blind eye to this barbarism for fear of being called racist.

Why globalism is the enemy of freedom

Globalism is the enemy of freedom. Why? Because globalism systematically attacks and undermines the moral and political filiations that make genuine freedom possible. A sterling contemporary example is the Great Reset, recently proposed by the Davos-based World Economic Forum, which seeks — and I quote — “to revamp all aspects of our societies and economies, from education to social contracts and working conditions.” Exploiting the panic caused by the Covid-19 crisis, the WEF demands that “every country, from the United States to China, must participate, and every industry, from oil and gas to tech, must be transformed.”

Israel: A Country That Chooses Resilience Over Trauma

The Jewish faith and cultural tradition embrace Tikkun Olam. It means “repair/heal the world.” Tikkun Olam is evident in the DNA of Israeli society, reflected in the richness of its life, its embracing of diversity, developments in every field that benefits humanity – from medicine, field hospitals, science, agriculture and tech to the arts. For Christians, God is love, and His light shines in darkness. Should Israel put down all of its

weapons, its light and existence will cease to exist. Israel's Christian friends recognize this fact all too well.

Was it all just an illusion? An illusion that lasted forty years?

In 2020, in a matter of weeks, the progress of decades was crushed underfoot. Hardly anyone could have predicted the trigger: fear of a virus plus an intellectually preposterous response, followed by an appalling three years of lies and coverups that continue to this day.

Here we are almost three years later still living amidst the rubble, with shattered public health, a traumatized generation of children, a demoralized and terrorized population with crushed civic associations and friend networks, familial losses, the international conflicts, the loss of moral center, and a devastating loss of faith and trust in the elites of all institutions in society.

The 'Beheading' of Father Pavone

As for the blasphemy charge leveled against Father Pavone, what was it? Was Pavone seen at strip clubs sniffing cocaine while stuffing bills into the panties of pole dancers? Was he on Grindr meeting male escorts who made him wear dog collars and bear masks a la Sam Brinton, Biden's former waste management czar? Was he caught molesting children in a pre-K Sunday school? Or were his offenses of the liturgical variety, like orchestrating a tango Mass as Pope Francis did when he was Archbishop of Buenos Aires?

Liberty Is Worth the Fight

Today is a time for the voices of the few to coalesce. What is at stake is nothing less than individual control over one's life, liberty, property, privacy, and pursuit of happiness. Freedom of speech hangs in the balance, as do freedom of religion, freedom of the press, and the right of the people peaceably to assemble, and to petition the government for a redress of grievances. That many of these natural rights were recorded together in

America's First Amendment is not accidental. They are intimately interwoven. To weaken any one, weakens them all. Governments' concern is not our personal liberty but their power.

Swimming against the Current

J.B. Shurk's inspiring article reminds us that the flame of hope never dies and exhorts us to keep our own flame lit as we see darkness descend all around us. We are living at a time when the freedoms we have taken for granted are being extinguished one by one, one little light at a time. A vindictive culture of social justice instills a fear of being labelled racist or xenophobic or homophobic or colonialist or any of a multitude of "oppressor" epithets if we dare to express an "offensive" dissenting opinion. This fear renders us compliant in swimming with the increasingly totalitarian current. Shurk reminds us that we can be the fish that swims against the current. Courage is contagious, and others will follow. Shurk writes from a Christian perspective, but one doesn't have to be a Christian to appreciate his metaphors. Every one of us must keep the light of liberty alive in our hearts and work to rekindle it in society at large.

Intro by Madeline Weld/[C3RF](#)

It is always the courageous few who push back against the direction of the times and end up changing the world. And often the greatest change occurs when people least expect it. I like to talk about liberty as a kind of light that attracts good people to its flame. I've always preferred this metaphor because it resonates with my sense of history. The story of the human race is one in which freedom has come and gone. It is achieved through hard-fought victory, only to be lost again through loss of vigilance and faith. So often when humans are most free, when the light from their efforts fills the sky, it is precisely when governments or other villains start extinguishing those lights one by one.
