### **Trudeau Foundation Donation From China Was Never Returned & Reason Given For Resignations Was Dishonest According To New Report**

There is something almost fitting about the Trudeau Foundation falling into chaos because they refused to hold an independent investigation of a donation from China at a time when a Prime Minister named Trudeau is refusing to hold an independent investigation of China's election interference. It seems that everything linked to Trudeau becomes known for dishonesty, deception, and dysfunction, something we can see all around us in our declining country

## **Gerald Butts Tried Blaming The Globe & Mail For The Chaos At The Trudeau Foundation.**

Trudeau & Butts show a complete refusal to take any responsibility for the consequences of their actions and the policies they implement. Instead, the blame is always cast elsewhere. Everything that they are doing looks like desperation. They could just support a full independent public inquiry, but instead they're attacking those who dare to ask for the truth. This makes it abundantly clear that as long as Trudeau remains in office, Canada's democracy and our cherished institutions are in grave danger.

## **Poilievre sends letter to "special rapporteur" Johnston, questions his objectivity**

In a short letter sent to Johnston and made public through Twitter, Poilievre asked the "Special Rapporteur" appointed by Prime Minister Justin Trudeau how he will investigate the Trudeau Foundation – of which Johnston was a member – and their acceptance of an alarming \$200,000 donation from a businessman connected with the Chinese Communist Party (CCP). "Explain this," says Poilievre. "How will you investigate Beijing's donation to the Trudeau Foundation when you were part of the Trudeau Foundation?"

## **Trudeau Foundation Says It's Launching Independent Review of Chinese Donation**

The foundation announced the move in an April 12 statement a few hours after La Presse reported that the donation had not been returned as previously claimed, leading to an internal crisis and the resignation of the leadership team. "Following a unanimous consensus reached by the Board prior to its dissolution, the Pierre Elliott Trudeau Foundation is launching an independent review of its acceptance of the donation with a potential connection to the Chinese government".

## **Alberta Law Firm Prepares Class-Action Lawsuit Against Feds Over COVID Vaccines**

An Alberta law firm is preparing a class-action lawsuit against the Canadian government and pharmaceutical companies for the harm it says COVID-19 vaccines and vaccine mandates caused to Canadians. "This lawsuit will allege, not surprisingly, that the vaccines should not have been approved by the government, that they are not safe, and that they're causing significant injury and death to Canadians," said Leighton Grey, a senior managing partner at Grey Wowk Spencer LLP.

## **'Looking At' Seizing Control Over Western Canada's Natural Resources**

Last week, two things happened that could have profound impacts on natural resources development in Saskatchewan. One is a hint the federal government might want to take control of natural resources away from the provinces, and the other is the Saskatchewan government's assertion that it's not going to happen. And now, Premier Scott Moe is up in arms about comments made by the federal justice minister about this very thing, as is Alberta Premier Danielle Smith.

## **Prairie Premiers Ask Trudeau to 'Immediately Retract' Minister's Remarks on Natural Resources Agreement**

"The federal government cannot unilaterally change the Constitution. It should not even be considering stripping resource rights away from the three Prairie provinces," said the joint statement of Saskatchewan Premier Scott Moe, Manitoba Premier Heather Stefanson, and Alberta Premier Danielle Smith. "The prime minister needs to immediately retract these dangerous and divisive comments by his justice minister."

Lametti said the focus of the federal government is to “co-develop an action plan with Indigenous partners that will show the path we must take towards aligning federal laws and policies with **UNDRIP**.”

## **Peterson tells Alberta to separate rather than forfeit resource development**

Prairie provinces have full control over resource development as enshrined in the 1930s Natural Resource Transfer Agreement — which federal Justice Minister David Lammetti said he would look at rescinding earlier this week. In response, Peterson told Alberta Premier Danielle Smith to separate, if necessary. “Reject. Rebel. Separate if necessary,” Peterson wrote on Twitter.

## **Supreme Court’s Decision Will Hurt Patients in Canada**

Recently, the Supreme Court of Canada announced it was not willing to hear an important health-care court case. Patients should know, the court’s decision is anything but good news. Canada is now in a position where the Supreme Court has awarded Quebecers more health-care rights than the rest of the nation. At the same time, the highest court in the land has signalled that it has no plans to change this disparity.

## **Quebec Muslim leaders ‘outraged’ over school prayer room ban as part of province’s secularism policy**

Amira Elghawaby, Trudeau’s “Islamophobia czar,” aroused fury when she stated about Quebec, due to its Bill 21 that bans the hijab (and other religious symbols) while on the job: “*Unfortunately, the majority of Quebecers appear to be swayed not by the rule of law, but by anti-Muslim sentiment.*”

Christianity has long been shown the door in the public school system across Canada and the US, despite its role in the foundation of both countries. If anyone was justified in making noisy protests, it would be Christians, who promote peace even in the face of insult.

Dr William Makis, an eminent Alberta-based cancer physician, provides more evidence of how Justin and Jagmeet and their Liberal and NDP cohorts collaborated to kill 100,000 Canadians and vaxx-injure many times that number. Justin made millions from his financial interest in a BC company that made a key ingredient in the toxic Covid-19 "vaccines". They're killing our kids! Nuremberg 2.0!

## **Quebec Conservative Party says child drag shows should not take place in public libraries**

"Drag queens should not, under any circumstances, face violent insults, intolerance and hatred for their participation in children's storytelling," said the motion adopted by the province's legislature. When asked about the motion in a press conference last week, Duhaime, who is openly gay, said public funds should not go towards such events.

## **Canadian students REJECT drag queen event at high school**

Despite what radical LGTBQ activists and the legacy media claim, many Canadians are very uncomfortable with drag queens dancing in front of students. This was clear today in Toronto as students protested a drag queen event. ## **C3RF Update, 14 Apr 2023 – Course correction**

This week's update continues the deep dive into Canadian constitutional problems that have been exacerbated by three years of Wuhan virus pandemic measures. The plot thickens as the ruling class continues to thumb its nose at the concept of Charter-guaranteed individual rights and freedoms and now moves to curtail the language rights of certain citizens through Bill C-13 (An Act to Amend the Official Languages Act). Is their hubris endangering a strong and free Canada?

Call it what you may: Communism; Fascism; or Marxism, but the ultimate goal is the destruction of western civilization as we know it. A critical part of the Global Agenda is reliant on indoctrinating our children through the education system (pre-school to post-graduate) to produce compliant Marxist soldiers to carry the Globalists’ plan into the future. Children are being taught to hate themselves, their parents, their country and anyone else who does not agree with the ingrained social justice ideologies.

## **Vision Impairments in Patients After COVID-19 Vaccination, Doctors Caution Possible Risks**

New Hampshire state Rep. Mike Belcher, a Republican, has been suffering from ocular migraines for almost two years. He took his first Pfizer COVID-19 mRNA immunization in April 2021, and things haven't been the same since. About 12 hours after the shot, Belcher recalled developing symptoms of severe flu. Neurological symptoms manifested in a matter of days. One unusual symptom stood out: His vision became strange. He started to notice that the red and green color balance in his eyes would shift, and dark spots would appear in his field of vision.

Microsoft co-founder Bill Gates has issued his first public remarks in response to a proposal endorsed by Elon Musk and scores of artificial intelligence experts who demanded an urgent pause to the development of advanced forms of AI due to "profound risks to society and humanity." ## **Central Bank Digital Currencies: Funny Money That Will Destroy What Is Left of Private Property, Free Markets, and Personal Liberty**

Even when you have followed every law to the letter and paid every fee to the cent, there is still no guarantee that government agents will not later invoke eminent domain laws to swipe what you own because they believe they can use your private property more fruitfully for the "public good" – and, since *Kelo v. New London*, even for *someone else's* private good. So much for private ownership. While Klaus Schwab may desire a future where Westerners find happiness in owning nothing, those who value liberty know that personal ownership and the unfettered exchange of goods, services, and ideas remain the bedrock of those free nations that refuse to be enslaved.

## **BIG TECH & THE MEDIA**

### **A Tale of Two Online Giants: Wales' Wikipedia vs. Elon's Twitter.**

The sheer audacity of it all is breathtaking. For years, the mainstream media lied about Trump-Russia collusion, thereby destroying Trump's presidency; later, they covered up the truth about the laptop, thereby ensuring Biden's election. In both cases, Wikipedia echoed the official falsehoods, branding any hint of dissent as right-wing agitprop and "conspiracy theories." But even now, with the facts on the table, the media that pushed those fictions are still identified by Wikipedia as "reliable" while the media that reported the facts are still categorized as untouchable. Even the *New York Post*, which broke the laptop story, remains in Wikipedia's doghouse.

## **ISLAM**

### **Islamic countries are buying out UN agencies to promote Sharia globally**

The advance of Islam into the UN has been an insidious process of the stealth jihad, and the ongoing process of its buyout is being credulously aided by America, which gives the single largest annual donation to the UN. The process of global Islamic growth and virtual takeover of the UN was started long ago, while the West sank into apathy, laziness, and established an anything-goes ethic, all while abandoning its history, culture, strength, and succumbing to the red-green axis with little resistance.

## **UK: 19 suspected jihadis, including five linked to ISIS, living in taxpayer-funded hotels after crossing the Channel**

Five of the known terror suspects who arrived last year are Iraqi, five are Iranian, four are Afghan, four are from Somalia and one is Libyan. Of the seven under active investigation, five are linked with Islamic State (Isis) or its offshoots. But the Government is powerless to remove any of the 19, because they face a risk of torture or ill-treatment in their home countries. This is a nation in its death throes. When it is more concerned about the rights and safety of people in other countries than of its own people, what future can it have? Britain is finished.

## **Why Confront Islamism?**

Why confront Islam(ism)? Because if we don't it will continue to get more extreme. This is not Islamophobia, as many Muslims and their apologists protest. A phobia is a baseless irrational fear. Detestation of Islamism, the violent form of Islam, is based on irrefutable facts and it is not only rational, but it is also ethically imperative. It is a virtue to take action to oppose the hateful, and vice to ignore it. It is a virtue to hate tyranny, misogyny, discrimination of all sorts, oppression, and all manners of violations of the legitimate rights of the individual and people.

The latest news from England's rejection of her Christian past is that Magdalene, rather than celebrating St. George's Day, in honor of England's patron saint, will be celebrating Eid al-Fitr, the holiday marking the end of Ramadan. In an email sent out to students obtained by the broadsheet, the vice president of the college, Professor Nick Stargardt invited students and guests to "celebrate Eid with a festive dinner in the Hall," and said that "the meal will follow Muslim customs: the meat dish will be halal and no alcohol will be served".

# THE ENVIRONMENT

## **Climate Change Alarmism Is a Lie that Must Stop**

Since 1992, global CO<sub>2</sub> emissions have continued to rise, with China opening an average of two new coal-fired power plants a week. Do we really believe that China, Russia and India will let the West dictate their economic conditions and CO<sub>2</sub> emissions? Meanwhile, as they grow, they are doubtless happy to see the West hobbling itself by persisting in efforts to reduce its own emissions.

The lesson of all this is simple: Future generations will judge us harshly for allowing extremist environmental activism to enfeeble us in the West, while a hostile East – China, Russia, North Korea and Iran -- continue to advance their industrial and military capabilities. Instead of trying to fight CO<sub>2</sub> emissions, we would do better to invest in researching ways to make reliable supplies of energy both cleaner and less expensive so that everyone -- by choice -- will rush to use them.

## **The Energy Transition Is a Delusion Indeed**

The “energy transition” continues to receive thunderous applause from all the usual Beltway suspects, an exercise in groupthink fantasy amazing to behold. ## **World Health Organization is sexualizing children**

They are coming for our children. Openly, but for the moment obscurely, UN health bureaucrats are pushing the sexualization of young children. It starts (naturally) with the children of Europe, where organized religion is weakest, but the sponsor's name is the WHO, which stands for The *World* health Organization, so you can be sure that our children are not going to escape this push. The time to shine light on this sexualization of children is now, before more innocent lives are wrecked with premature sexuality.

## **Ladies, it's time to speak up**

To paraphrase Martin Luther King, "A woman dies when she refuses to stand up for that which is right. A woman dies when she refuses to stand up for justice. A woman dies when she refuses to take a stand for that which is true." Where are the voices of the Me Too movement, the voices of NOW, the fevered voices of the many feminist movements to this attack? They are all silent. How can these organizations pretend to represent the values of women and allow such things to continue without a peep of protest.

## **Forget 1939; Think 1914**

We see institutions that dominated our world since the end of the Second World War eroding and collapsing. What will replace them is unclear, but the journey ahead will be treacherous. And don't count on cooler heads to save us. Look at the world stage; where do you see cooler heads in the ascendance? Forget comparisons to 1939, today's world looks a lot more like 1914.

## **Mistakes Were NOT Made: An Anthem for Justice (by Margaret Anna Alice; Read by Dr. Tess Lawrie)**

I am profoundly honored to share Dr. Tess Lawrie's exquisitely poignant reading of my "Mistakes Were Not Made: Anthem for Justice" poem. It was masterfully filmed by Mark Lawrie, director of "A Letter to Dr Andrew Hill," my #1 red-pilling video.
